The Sublime Crime Stephanie Barbé Hammer, 1994 In this hermeneutic analysis of seven literary texts Stephanie Barbé Hammer studies the roles of criminal protagonists in the dramas of George Lillo The London Merchant and Friedrich Schiller The Robbers and in the narratives of Abbé de Prévost Manon Lescaut Henry Fielding Jonathan Wild Marquis de Sade Justine William Godwin Caleb Williams and Heinrich von Kleist Michael Kohlhaas Hammer reflects the current interest in cultural critique by utilizing the social theories of Michel Foucault and the feminist approaches of Hélène Cixous and Eve Sedgwick to redefine the Enlightenment as a movement of thought rather than as a strictly defined period synonymous with the eighteenth century In addition through the examination of the works of three post World War II authors Jean Genet Anthony Burgess and Peter Handke Hammer suggests that the Enlightenment's artistic representations of criminality are unparalleled by subsequent modern literature Hammer explains that the seven works she focuses on have been dismissed as failures by readers who have misunderstood the texts aesthetic elements While claiming that the form of these works breaks down under the pressure of their criminal protagonists she asserts that this formal failure actually contributes to the success of the works as art The works fail because like the criminal characters themselves they break laws The criminal protagonist effectively sabotages the official story that the text seeks to tell by deflecting the plot style and formal requirements in question subverting its message be it moral sentimental or libertine through a kind of structural undermining forcing the text beyond its own formal boundaries For example Hammer maintains that the presence of the criminal figure Millwood in Lillo's bourgeois tragedy actually makes the play covertly antibourgeois Hammer insists that the criminal's subversive presence in these seven works inaugurates new insight and her analysis thereby challenges late twentieth century readers to continue the investigation that the works themselves have begun This book will prove indispensable to scholars of comparative literature especially eighteenth century specialists as well as to all individuals interested in cultural critique

The City of God St. Augustine, Wyatt North, 2014-02-22 Augustine of Hippo was Bishop of Hippo Regius, present-day Annaba, Algeria. He was a Latin-speaking philosopher and theologian who lived in the Roman Africa Province. His writings were very influential in the development of Western Christianity. According to his contemporary Jerome, Augustine established anew the ancient Faith. This classic work, *The City of God*, was translated into several languages and played an important role in the spreading of the ideals of Eastern and Western Christianity.

The City of God St. Augustine of Hippo, 2012 This volume is accurately annotated, including an extensive biography of the author and his life, working interactive footnotes. *De Civitate Dei* (full title: *De Civitate Dei contra Paganos*) translated in English as *The City of God* is a book of Christian philosophy written in Latin by Augustine of Hippo in the early 5th century AD. It is one of Augustine's major works standing alongside his *The Confessions*, *On Christian Doctrine*, and *On the Trinity*. Augustine is considered the most influential Father of the Church in Western Christianity, and *The City of God* profoundly shaped Western civilization. Augustine wrote the treatise to explain Christianity's relationship with competing religions and philosophies, as well as its relationship with the Roman government, with which it was increasingly intertwined. It was written soon after Rome was sacked by the Visigoths in 410. This event left Romans in a deep state of shock, and many saw it as punishment for abandoning traditional Roman religion for Catholic Christianity. It was in this atmosphere that Augustine set out to console Christians, writing that even if the earthly rule of the Empire was imperiled, it was the City of God that would ultimately triumph. Augustine's eyes were fixed on Heaven, a theme of many Christian works of Late Antiquity.
