Walker,2005-01-01 On February 17 1864 the H L Hunley made history as the first submarine to sink a ship in battle Soldiers on the shore waited patiently after seeing the submarine's return signal But after several days the ship had failed to return What had gone wrong In 1995 after over 130 years of searching the H L Hunley was finally found buried off the coast of South Carolina Follow author Sally M Walker on a fascinating journey through the workings of the famous submarine its voyages and the difficult obstacles that were overcome to recover excavate and conserve the ship      **The Men** Stephen Leal Jackson,2010 Submarine duty during World War II was one of the most statistically deadly physically demanding and emotionally challenging assignments in the U S Navy The boats had few crew comforts and war patrols typically thirty to sixty days in length were so exhausting that the submarine sailors often got a month of rest after each patrol What would motivate men to volunteer for this unmistakably difficult and dangerous job This is the question that *The Men* will answer using the oral histories of enlisted submarine veterans a collection of letters of one sailor who did not return and other primary sources These volunteers from diverse locales and backgrounds ignored the danger accepted the privations and exalted in the camaraderie Their excitement fear and humble heroism is captured in their own words the real story of the undersea war in the Pacific told by the men who fought it A veteran of the United States Navy Stephen Leal Jackson spent eight years in the submarine force serving on the USS Los Angeles SSN 688 and the USS Florida SSBN 728 Jackson's service included several Western Pacific cruises to the oceans lands and ports described in *The Men* A lifelong student of American history Jackson's ongoing research concentrates specifically on World Wars I and II Jackson received his Master of Arts in American History from Providence College and is currently in the Ph D program at Salve Regina University Jackson has served as the primary spokesperson for a major electrical utility on nuclear and environmental issues His unique perspective as a onetime navy enlisted submariner trained historian and skilled communicator allows Jackson to provide clear and easy access to the fascinating experiences of the men who fought the undersea battles during World War II      Submarine Warfare In The Civil War Mark Ragan,2009-04-30 Many people have heard of the Hunley the experimental Confederate submarine that sank the USS Housatonic in a daring nighttime operation Less well known however is that the Hunley was not alone under the waters of America during the Civil War Both the Union and Confederacy built a wide and incredible array of vessels that could maneuver underwater and many were put to use patrolling enemy waters In *Submarine Warfare in the Civil War* Mark Ragan who spent years mining factory records and log books brings this little known history to the surface The hardcover edition *Union and Confederate Submarine Warfare in the Civil War* was published to wide acclaim in 1999 For this new paperback edition Ragan has revised and updated the text to include the full story of the Hunley's recovery and restoration      **The Wonder Book of Knowledge** Henry Chase Hill,1917      Australian Coastal Wars Doctor Tom Lewis,2025-09-30 For the first time acclaimed military historian Dr Tom Lewis OAM uncovers the full scale of World War II's forgotten battles along our coastline From German

progressed along a road from perdition as the weapon of the weaker power and morally weaker power too to a form of redemption as a major capital unit This book will be essential for naval historians students and those interested in aspects of submarine development and use      **Submarines** New York Public Library,1918
