Submarines And The War At Sea:

German Submarine Warfare in World War I Lawrence Sondhaus, 2017-08-11 This compelling book explores Germany's campaign of unrestricted submarine warfare in World War I which marked the onset of total war at sea. Noted historian Lawrence Sondhaus shows how the undersea campaign intended as an antidote to Britain's more conventional blockade of German ports ultimately brought the United States into the war. Although the German people readily embraced the argument that an undersea blockade of Britain enforced by their navy's Unterseeboote U boats was the moral equivalent of the British navy's blockade of German ports, international opinion never accepted its legitimacy. Sondhaus explains that in their initial, somewhat confused rollout of unrestricted submarine warfare in 1915, German leaders underestimated the extent to which the policy would alienate the most important neutral power, the United States. In rationalizing the risk of resuming the unrestricted campaign in 1917, they took for granted that should the United States join the Allies, German U boats would be able to stop the transport of an American army to France. But by bringing the United States into the war while also failing to stop the deployment of its troops to Europe, unrestricted submarine warfare ultimately led to Germany's defeat. Because US manpower proved decisive in breaking the stalemate on the Western Front and securing victory for the Allies, Sondhaus argues that Germany's decision to stake its fate on the U boat campaign ranks among the greatest blunders of modern history.

War Beneath the Sea Peter

Padfield, 2008-05-02 Praise for War Beneath the Sea: I am truly filled with awe and admiration, fascinating and a great contribution to the entire lore of submarines. I wish I had written the book. Capt Edward L Beach, USN Ret, author of Run Silent, Run Deep. Peter Padfield is the best British naval historian of his generation, now working. His book will now become the standard work on the subject. Daily Telegraph, London. Peter Padfield has produced by far the best and most complete critical history of the submarine operations of all the combatants in the Second World War, at the same time providing vivid narrative accounts of particular actions and events. Lloyd's List, London. An excellent account of submarine warfare in 1939-45; it recreates the tribulations and horrors of that especially brutal form of warfare within a sturdily analytical and often critical framework. The Economist. A marvelously complete and detailed study of World War II submarine warfare, an interesting, serious, and timely book. Houston Chronicle. A brilliant submarine warfare study. Military Review.

War at Sea, 1914-45 Bernard Ireland, 2002 In 1914, international naval power was measured in dreadnought battleships. They were the index of national power, like the nuclear club of those 21st-century countries armed with atomic weapons. Every nation with pretensions to world power joined the battleship race, from France and Russia to Argentina and Chile. Most critical of all were the rival building programmes of Britain and Germany, a bitter contest that helped trigger the First World War. Within a generation, the mighty battleships were rendered redundant. Submarines and aircraft dominated the seas. Amphibious warfare became crucial both for the liberation of German-occupied Europe and to drive back the Japanese from their island conquests.

Bernard Ireland analyses this extraordinary transition combining a wide ranging analysis with vivid narratives of key battles and campaigns

The Victory at Sea William Sowden Sims, Burton J. Hendrick, 2018-01-02 This 1921 Pulitzer Prize awarded history has been written in response to a demand for some account of the generally very misunderstood German submarine campaign in the World War I and particularly of the means by which it was defeated The interest of the public in such a story is due to the fact that during the war the sea forces were compelled to take all possible precautions to keep the enemy from learning anything about the various devices and means used to oppose or destroy the under water craft
