Subquantum Kinetics The Alchemy Of Creation:

Subquantum Kinetics Paul A. LaViolette,1994 **Subquantum Kinetics** Paul A. LaViolette,2003 Subquantum kinetics is a revolutionary physics methodology that was inspired by advances in our understanding of how non equilibrium reaction systems spawn self organising wave patterns Replacing the fragmented self contradictory framework of modern physics subquantum kinetics opens the door to a unified field theory **Genesis of the Cosmos** Paul A. LaViolette,2004-04-15 Provides compelling evidence that creation myths from the dawn of civilization correspond to cutting edge astronomical discoveries Exposes the contradictions in current cosmological theory and offers a scientific basis for the ancient myths and esoteric lore that encode a theory of continuous creation By the scientist who was the first to disprove the Big Bang theory on the basis of observational data Recent developments in theoretical physics including systems theory and chaos theory are challenging long held mechanistic views of the universe Many thinkers have speculated that the remnants of an ancient science survive today in mythology and esoteric lore but until now the scientific basis for this belief has remained cloaked in mystery Paul LaViolette reveals the remarkable parallels between the cutting edge of scientific thought and creation myths from the dawn of civilization With a scientific sophistication rare among mythologists LaViolette deciphers the forgotten cosmology of ancient lore in a groundbreaking scientific tour de force In direct nontechnical language he shows how these myths encode a theory of cosmology in which matter is continually growing from seeds of order that emerge spontaneously from the surrounding subquantum chaos Exposing the contradictions that bedevil the big bang theory LaViolette offers both the specialist and the general reader a controversial and highly stimulating critique of prevailing misconceptions about the seldom questioned superiority of modern science over ancient cosmology By restoring and reanimating this ancient scientific worldview Genesis of the Cosmos leads us beyond the restrictive metaphors of modern science and into a new science for the 21st century **The Giza Death Star Destroyed** Joseph P. Farrell,2005 Final volume in a trilogy the first of which is the author s The Giza death star and the second of which is his The Giza death star deployed **Advanced Electromagnetism and Vacuum Physics** Patrick Cornille,2003 This book is aimed at a large audience scientists engineers professors and students wise enough to keep a critical stance whenever confronted with the chilling dogmas of contemporary physics Readers will find a tantalizing amount of material calculated to nurture their thoughts and arouse their suspicion to some degree at least on the so called validity of today s most celebrated physical theories **The Anti-Gravity Files** David Hatcher Childress,2017-04-11 In the tradition of The Anti Gravity Handbook and the Time Travel Handbook comes this all new compilation of material on anti gravity free energy flying saucers and Tesla technology With plenty of technical drawings and explanations this suppressed technology will change the world in ways we can only dream of Chapters on anti gravity mercury gyros the motionless electromagnet generator patent the Tesla pyramid engine anti gravity patents rare photos of the machines in flight and tons more The book that finally blows the lid on suppressed technology and anti gravity Heavily

Electrogravitics Systems Thomas Valone, 1993 Discovered in 1918 by a professor electrogravitics has been put to the test decade after decade by aviation industries and the military It is an anomalous propulsion force from a

high voltage capacitive charge similar to an electrokinetic force In the 1950s T Townsend Brown recommended a flying wing model to the Naval Research Lab for its implementation and years later the B 2 bomber fulfilled this vision Electrogravitics Systems includes historical documents patents and an exciting article by Dr Paul LaViolette on how the B 2 uses such an energy efficient futuristic propulsion concept today *Body Electronics* Thomas Chavez, 2005-05-26 Body electronics is a self healing system that utilizes nutrient saturation through diet and supplementation Thomas Chavez learned this discipline under its developer Dr John Whitman Ray and in Body Electronics Chavez expands it to cover every imaginable trauma and illness The basis for the approach is the melting of melanin protein complexes crystals in the body that develop through years of poor diet insufficient water poor bowel ecology and other factors The book addresses such topics as how to achieve appropriate levels of nutrient saturation with the right combination of enzymes and minerals how much water to drink and why it s important how eating cooked food can be a damaging addiction and how to achieve a healthy relationship with bacterial flora for intestinal health In addition to physical wellness the book addresses spiritual and psychological well being The results of body electronics have been called miraculous this book shows why Proceedings of the International Symposium on New Energy , 1996 **La historia prohibida** J.
