*Social Work with Drug, Alcohol and Substance Misusers* Anthony Goodman, 2013-10-14 It has long been recognised that clients with addiction problems need a skilled and thoughtful response when they come into contact with social services. However, students often find that policy and the law surrounding working with drug, alcohol and substance misusers can be complex and often unclear. This fully revised third edition will help students cultivate the skills required to work effectively with clients and service users who misuse drugs and alcohol. There are clear introductions to the law and to social policy in this area while the author considers how a holistic approach can be effective when working with this particular client group. Case studies and reflective exercises are used to draw out these key skills. The book also features sections on anti-oppressive practice with a focus on service user empowerment. With this third edition comes new material on social work practice with alcohol misusers making this book even more essential reading for students and practitioners who want to engage with clients who struggle with addiction.

*Psychotherapy in Corrections* Peter N. Novalis, M.D., Ph.D., Virginia Singer, DNP, Carol M. Novalis, M.A., 2022-09-13 To practice psychotherapy in a correctional setting is to encounter a range of cultural issues reflecting the various ethnic, class, gender and physical subgroups of the prison population as well as to navigate the culture of the prison staff and justice system that underpins the patients' circumstances. Drawing on the authors' extensive professional experience, *Psychotherapy in Corrections* offers mental health professionals a comprehensive look at the most common situations they are likely to face and provides practical advice on dealing with them. Diagnostically oriented chapters cover core issues that include self-harm and substance use disorders as well as mood and personality disorders. Specific supportive therapy techniques for addressing these issues as well as special situations including the experience of women in prison behaviors that can disrupt care and efforts to reduce recidivism are illustrated by clinical vignettes. In tackling the social and developmental conditions that lead individuals to interact with the correctional system, *Psychotherapy in Corrections* also acknowledges the effects of the COVID

19 pandemic and the movement for social justice in society Anyone who conducts psychotherapy in a prison setting will benefit from an approach centered on treating the human in front of them regardless of the setting or their crime
