## **Subversive Institutions The Design And Destruction Of Socialism And The State:**

*Subversive Institutions* Valerie Bunce, 1999-01-28 From 1989 to 1992 all of the socialist dictatorships in Europe including the Soviet Union collapsed as did the Soviet bloc Yugoslavia the Soviet Union and Czechoslovakia dismembered and the Cold War international order came to an abrupt end Based on a series of controlled comparisons among regimes and states Valerie Bunce argues in this book that two factors account for these remarkable developments the institutional design of socialism as a regime a state and a bloc and the rapid expansion during the 1980s of opportunities for domestic and international change When combined institutions and opportunities explain not just when how and why these regimes and states disintegrated but also some of the most puzzling features of these developments why for example the collapse of socialism was largely peaceful and why Yugoslavia but not the Soviet Union or Czechoslovakia disintegrated through war

**The Cartographic State** Jordan Branch, 2014 This book describes the emergence of the territorial state and examines the role that cartography has played in shaping its linear boundaries *21st Century Political Science: A Reference Handbook* John T Ishiyama, Marijke Breuning, 2011 Offering full coverage of major subthemes and subfields within political science this reference handbook includes entries on topics from theory and methodology to international relations and institutions

**The State as Investment Market** Johan Engvall, 2016-09-07 Based on a detailed examination of Kyrgyzstan Johan Engvall goes well beyond the case of this single country to elaborate a broad theory of economic corruption in developing post Soviet states regionally as a rational form of investment market for political elites He reveals how would be officials invest in offices to obtain access to income streams associated with those offices Drawing on extensive fieldwork over an eight year period Engvall details how these systems work and the major implications this holds for political and economic development in the region Often identified and criticized simply as obstacles to development by scholars Engvall instead argues that these systems must be reinterpreted in the context of a standardized and entrenched method of organizing the state He also shows how private actors have been unsuccessful in buying preferential treatment directly from the state Instead public officials have become the predominant conduit to influencing policy process and monitoring the sale of protection property rights and other privatized public goods **Power Politics and State Formation in the Twentieth**

**Century** Bridget Coggins, 2014-04-24 From Kurdistan to Somaliland Xinjiang to South Yemen all secessionist movements hope to secure newly independent states of their own Most will not prevail The existing scholarly wisdom provides one explanation for success based on authority and control within the nascent states With the aid of an expansive new dataset and detailed case studies this book provides an alternative account It argues that the strongest members of the international community have a decisive influence over whether today s secessionists become countries tomorrow and that most often their support is conditioned on parochial political considerations State-Led Privatization in China Jin Zeng, 2013-10-01

Large scale privatization did not emerge spontaneously in China in the late 1990s Rather the Chinese state led and carefully

planned ownership transformation with timetables and measurable privatization quotas not for the purpose of extracting the state from the economy but in order to strengthen the rule of the Party While it is widely believed that authoritarian regimes are better suited than democracies to carry out economic reform this book provides a more nuanced understanding of reform in China demonstrating that the Chinese state's capacity to impose unpopular reform is contingent on its control over local state agents and its adaptability to societal demands Building on rich fieldwork data gathered in three Chinese cities Shenyang Shanghai and Xiamen this book offers the first comparative study of China's privatization processes at the local level Instead of focusing solely on political elites Jin Zeng adopts a multi level interaction approach to examine how the complex interplay of the central leadership grassroots officials and state owned enterprise managers and workers shaped the contour of privatization in China The book advances three central arguments First local economic structure and cadre evaluation system mediated local officials incentives to initiate privatization Second local officials relied on mobilization campaigns and various appeasement measures to implement privatization Finally the dynamics of privatization were fundamentally driven by the central government's reactions to social opposition and by the subsequent responses of local officials to the changed political regulatory environment As a detailed analysis of the dual transformation of the property regime and state society relations in China this book will be invaluable to students and scholars of Chinese politics economic reform as well as those interested in comparative political economy and economic development more broadly

**Ben Ali's Tunisia** Anne Wolf, 2023 Based on a wealth of new primary data this book offers the first account of the internal regime factors that caused the fall of Zine el Abidine Ben Ali's long dictatorship in Tunisia during the Arab Uprisings It challenges studies that focus mass mobilization alone and examines the role of a secret coup d'état staged by regime figures in 2011

Between State and Nation M. Waterbury, 2010-11-14 Based on a qualitative study of Hungary and its changing relationship to the 3 million ethnic Hungarians in neighbouring states this book argues that it is not the ties of ethnicity but the political interests of kin state elites that drives states in Eastern Europe to take action on behalf of ethnic kin in neighboring states

Informal Order and the State in Afghanistan Jennifer Brick Murtazashvili, 2016-04-21 Despite vast efforts to build the state profound political order in rural Afghanistan is maintained by self governing customary organizations Informal Order and the State in Afghanistan explores the rules governing these organizations to explain why they can provide public goods Instead of withering during decades of conflict customary authority adapted to become more responsive and deliberative Drawing on hundreds of interviews and observations from dozens of villages across Afghanistan and statistical analysis of nationally representative surveys Jennifer Brick Murtazashvili demonstrates that such authority enhances citizen support for democracy enabling the rule of law by providing citizens with a bulwark of defence against predatory state officials Contrary to conventional wisdom it shows that traditional order does not impede the development of the state because even the most independent minded communities see a need for a central government but question its effectiveness when it attempts to rule them directly and without substantive consultation

Russia's Unfinished Revolution Michael A. McFaul, 2015-05-15 For centuries dictators ruled Russia Tsars and Communist Party chiefs were in charge for so long some analysts claimed Russians had a cultural predisposition for authoritarian leaders Yet as a result of reforms initiated by Mikhail Gorbachev new political institutions have emerged that now require election of political leaders and rule by constitutional procedures Michael McFaul traces Russia's tumultuous political history from Gorbachev's rise to power in 1985 through the 1999 resignation of Boris Yeltsin in favor of Vladimir Putin McFaul divides his account of the post Soviet country into three periods the Gorbachev era 1985 1991 the First Russian Republic 1991 1993 and the Second Russian Republic 1993 present The first two were he believes failures failed institutional emergence or failed transitions to democracy By contrast new democratic institutions did emerge in the third era though not the institutions of a liberal democracy McFaul contends that any explanation for Russia's successes in shifting to democracy must also account for its failures The Russian Soviet case he says reveals the importance of forging social pacts the efforts of Russian elites to form alliances failed leading to two violent confrontations and a protracted transition from communism to democracy McFaul spent a great deal of time in Moscow in the 1990s and witnessed firsthand many of the events he describes This experience combined with frequent visits since and unparalleled access to senior Russian policymakers and politicians has resulted in an astonishingly well informed account Russia's Unfinished Revolution is a comprehensive history of Russia during this crucial period

**The End of the Cold War and the Causes of Soviet Collapse** N. Bisley, 2004-04-30 Soviet efforts to end the Cold War were intended to help revitalize the USSR Instead Nick Bisley argues

they contributed crucially to its collapse Using historical sociological theory *The End of the Cold War and the Causes of Soviet Collapse* shows that international confrontation had been an important element of Soviet rule and that the retreat from this confrontational posture weakened institutional functional aspects of the state This played a vital role in making the USSR vulnerable to the forces of economic crisis elite fragmentation and nationalism which ultimately caused its collapse

*Russian Transformations* Leo McCann,2004-07-31 Examining contemporary Russian socio economic development this book explores the degree to which Russian experiences can be incorporated into current social science theories

**Transforming Mozambique** M. Anne Pitcher,2002-11-14 Many of the economic transformations in Africa have been as dramatic as those in Eastern Europe Yet much of the comparative literature on transitions has overlooked African countries This 2002 study of Mozambique s shift from a command to a market economy draws on a wealth of empirical material including archival sources interviews political posters and corporate advertisements to reveal that the state is a central actor in the reform process despite the claims of neo liberals and their critics Alongside the state social forces from World Bank officials to rural smallholders have also accelerated thwarted or shaped change in Mozambique M Anne Pitcher offers an intriguing analysis of the dynamic interaction between previous and emerging agents ideas and institutions to explain the erosion of socialism and the politics of privatization in a developing country She demonstrates that Mozambique s political economy is a heterogenous blend of ideological and institutional continuities and ruptures *Citizens and the State in Authoritarian Regimes* Karrie Koesel,Valerie Bunce,Jessica Weiss,2020-03-03 *Citizens and the State in Authoritarian Regimes* compares the most powerful authoritarian states in global politics today Russia and China By placing China and Russia side by side this volume produces new insights including what strategies their rulers have used to stay in power while forging political stability and gathering information how societal groups have resisted complied or responded to these strategies and what costs and benefits anticipated and unexpected have accompanied the bargains political leaders and their societies have struck The essays in this volume change the way we understand authoritarian politics and expand the terrain of how we analyze regime society relations in authoritarian states **Eastern European Capitalism in the Making** Elena A.

Iankova,2002-09-09 Publisher Description *Deliberation and Decision* Anne van Aaken,Christian List,2017-03-02 *Deliberation and Decision* explores ways of bridging the gap between two rival approaches to theorizing about democratic institutions constitutional economics on the one hand and deliberative democracy on the other The two approaches offer very different accounts of the functioning and legitimacy of democratic institutions Although both highlight the importance of democratic consent their accounts of such consent could hardly be more different Constitutional economics models individuals as self interested rational utility maximizers and uses economic efficiency criteria such as incentive compatibility for evaluating institutions Deliberative democracy models individuals as communicating subjects capable of engaging in democratic discourse The two approaches are disjointed not only in terms of their assumptions and methodology but also in

terms of the communication or lack thereof between their respective communities of researchers This book provides a comprehensive overview of the recent debate between the two approaches and makes new and original contributions to that debate

**Multinationalism and Covid-19** André Lecours, Stephanie Kerr, 2023-02-28 Using the developments in key multinational states including the United Kingdom Spain Belgium and the United States this book explores both the impact of the pandemic on nationalism and the broader multinational state as well as the significance of multinationalism for the response to the pandemic Exogenous forces have the potential to significantly impact the shape and dynamics of multinational democracies The Covid 19 pandemic is one such powerful exogenous force The chapters in this edited volume therefore investigate the following questions

- 1 How has multinationalism shaped the response to the crisis
- 2 How has the crisis affected the self determination objectives and strategies of the nationalist movement
- 3 Have national divides as observed for example in public opinion and in statements from politicians become more or less salient during and as a result of the crisis
- 4 What issues have produced tensions between national communities or between minority nations and the state
- 5 What governments parties or individual politicians have most gained or lost from the crisis in terms of putting forward or managing self determination claims
- 6 What could be the impact of the crisis on the nationalist movement and on the multinational state as a whole

The book will be essential reading for academics researchers and policy makers of political science interested in the fields of federal theory multinationalism minorities and natural disasters This book was originally published as a special issue of *Nationalism and Ethnic Politics* and is accompanied by a new concluding chapter
