Philippine Politics Lynn White III,2014-12-17 Philippine political history especially in the twentieth century challenges the image of democratic evolution as serving the people and does so in ways that reveal inadequately explored aspects of many democracies In the first decades of the twenty first century the Philippines has nonetheless shown gradual socioeconomic progress This book provides an interpretive overview of Philippine politics and takes full account of the importance of patriotic Philippine factors in making decisions about future political policies It analyses whether regional and local politics have more importance than national politics in the Philippines Discussing cultural traditions of patronism it also examines how clan feuds localize the state and create strong local policies These conflicts in turn make regional and family run polities collectively stronger than the central state institution The book goes on to explore elections in the Philippines and in particular the ways in which politicians win democratic elections the institutionalized role of public money in this process and the role that media plays Offering a new interpretive overview of Philippine progress over many decades the author notes recent economic and political changes during the current century while also trying to advance ideas that might prove useful to Filipinos Presenting an in depth analysis of the problems and possibilities of politics and society in the Philippines the book will be of interest to those researching Southeast Asian Politics Political History and Asian Society and Culture

Barons, Brokers, and Buyers Michael S. Billig,2002-10-31 This innovative ethnography takes a new approach to the study of Philippine sugar For much of the late colonial history of the Philippines sugar was its most lucrative export the biggest employer and the greatest source of political influence The so called Sugar Barons wealthy hacendero planters located mainly in Central Luzon and on the Visayan island of Negros gained the reputation as kingmakers and became noted for their lavish lifestyles and the quasi feudal nature of their estates But Philippine sugar gradually declined into obsolescence today it is regarded as a sunset industry that can barely satisfy domestic demand While planters continue to think of themselves as wielding considerable power and influence they are more often seen as vestiges of a bygone era Michael Billig examines sugar s decline within both the dynamic context of contemporary Philippine society and the global context of the international sugar market His multi sited ethnographic analysis focuses mainly on conflicts among the various elite sectors planters millers traders commercial buyers politicians and concludes that the most salient political economic and cultural trend in the Philippines today is the decline of rural agrarian elite power and the rise of urban industrial commercial and financial power His reflections on his relationships with informants in the midst of the politically charged atmosphere that surrounds the sugar industry provide a candid look at the role of the observer who try as he might to remain impartial finds himself swept into the vortex of policy debates and power plays
