Nichols, 2015-07-29 Now in vibrant full color throughout Rogers Textbook of Pediatric Intensive Care 5th Edition continues its tradition of excellence as the gold standard in the field For more than 25 years readers have turned to this comprehensive resource for clear explanations of

both the principles underlying pediatric critical care disease and trauma as well as how these principles are applied in clinical practice In the 5th Edition more than 250 global contributors bring you completely up to date on today's understanding treatments technologies and outcomes regarding critical illness in children Information Systems in Child, Youth, and Family Agencies Jerome Beker,Anthony J Grasso Dsw,Irwin Epstein,Boysville Of Michigan,1993-10-27 Here is a detailed look at the design development and successful implementation of a utilization focused computerized information system in an agency serving children youths and families This important book describes Boysville of Michigan's effort to create a model of information utilization designed specifically for social service settings and details their unique attempt to integrate information technology and social work practice at every organizational level Information Systems in Child Youth and Family Agencies covers Boysville's five year endeavor to design implement and evaluate BOMIS Boysville Management Information System their computerized management information program evaluation and clinical decision making system The book shows how practice based research can contribute to broader practice relevant knowledge for the field in general as well as for the sponsoring agency It contains collaborative contributions by practitioners managers administrators and researchers who were directly involved in the development and utilization of the information system Many of the problems Boysville solved while implementing BOMIS are also likely to face information specialists and social work administrators in other agencies who are trying to integrate information technology with the practice needs of direct service workers This in depth case study helps them discover some of the ins and outs of setting up their own information system Information Systems in Child Youth and Family Agencies is divided into three sections The first describes the underlying theoretical assumptions of the Boysville system and the organizational structures and processes that translate these assumptions into practice This section is written largely by Boysville's research staff The next set of chapters written primarily by Boysville's practice and administrative staff illustrates the programmatic uses of information provided by BOMIS The last section illustrates how BOMIS data can serve internal organizational purposes as well as reflect on broader issues in the field and is written by members of Boysville's National Research Advisory Committee Unique in its collaborative authorship by practitioners and researchers and its dual focus for agency decision making and for knowledge development this book is especially helpful for managers and administrators interested in promoting computer based practice research in their agencies for research consultants and for applied researchers in the human services The Nuremberg Trials (Volume 9) International Military Tribunal,2022-11-13 The Nuremberg Trials Volume 9 is a critical compilation of the landmark proceedings that followed World War II marking a transformative moment in the history of international law and justice This volume delves into the intricate legal arguments testimonies and moral dilemmas faced by the judges as they grappled with crimes against humanity war crimes and genocide The narrative is meticulously structured reflecting the formal tone typical of judicial proceedings while also spotlighting the profound ethical implications woven throughout the testimonies of

witnesses and defendants alike further underscored by the historical context of a devastated Europe emerging from totalitarian oppression The International Military Tribunal composed of judges from the Allied powers was birthed out of a desire to provide accountability and justice for the atrocities committed during the war This unprecedented effort to impose the rule of law on military leaders and officials epitomizes the evolution of global legal standards By synthesizing complex legal frameworks with moral imperatives the tribunal's work reflects the authors deep commitment to establishing a precedent for future international justice Readers seeking to understand the foundations of contemporary human rights law and the judicial responses to egregious state sponsored violence will find Volume 9 invaluable It serves not only as a historical document but also as a scholarly resource that encourages reflection on the enduring questions of justice morality and the societal obligations we have towards one another in the face of inhumanity

Goering Cross Examined Jacqueline George, 2014-07-13 When Field Marshall Hermann Goering Deputy Führer and commander of the Luftwaffe appeared before the Nuremberg Tribunal in 1946 to answer for his crimes the world was watching Much of Europe had directly suffered through the war that he and the Nazi system had brought to the continent and now he would have to answer for his crimes On the other hand Germany was full of Nazis who had been defeated but did not feel any part of the guilt for those terrible events Would Goering be able to stand up for them and give them hope for the future Goering proved to be intelligent and resourceful a natural leader who dominated the other defendants at the trial and showed no self doubt at all The evidence he gave on his own behalf made the unthinkable seem reasonable the normal reaction of a government and country under threat from outside forces He denied all knowledge of war crimes and the crimes against humanity that were now being uncovered Only cross examination by American and British prosecutors could force him to admit his complicity but Goering was far too clever to be pinned down easily Here in the actual words spoken by the three adversaries is the story of the American prosecutor Supreme Court Justice Robert Jackson and his British colleague Sir David Maxwell Fyfe fighting to bring the true story of Goering's crimes into the light Using complete court transcripts with commentaries on each session this book allows the reader to follow the battle day by day All three men and especially Goering jump from the pages in the words they used seventy years ago This is Goering from a different angle seen not through his deeds but as you might see him at a town hall meeting He is talkative and charismatic even when on trial for his life and with the ruins of the Third Reich around him His trial is followed through to the end and the book has an Epilogue from his fellow defendant Albert Speer This very readable book brings together the many strands of the Goering war crimes trial in a way that allows the interested but legally challenged reader to appreciate the hubris and depravity of the Reich's Deputy Führer The reader is left with the impression that Goering throughout his trial believed in the righteousness of the Nazi Cause and was surprised and disappointed in the final outcome Goering's testimony to the Tribunal is both chilling and a fitting final testimony to the Nazi era Charles Gillman Wells

Cover Crops and Sustainable Agriculture Rafiq Islam, Bradford Sherman, 2021-06-16 This book will not serve as the

encyclopedia of cover crop management but it's close. The benefits of a wide range of individual cover crops and blends mixes for specific agronomic crop rotations and geographic locations are included. Descriptions, photographs and illustrations show how cover crops look in the field including plant height, leaf architecture and rooting patterns. Long term benefits are described for soil health, soil structure, water quality, nutrient contributions, soil biodiversity, air quality and climate change. In addition to the whys of cover crop use, the book includes details on the hows: how to choose cover crops for specific applications and locations, how and when to plant, how to manage and maintain the cover for maximum benefit, and how and when to terminate. Planting options include drilling (planting between rows of an agronomic crop at planting time or when the crop is short, i.e. corn in early June), aerial seeding with an airplane or high clearance machine shortly before the crop reaches maturity, and drilling/planting immediately after harvest of the agronomic crop. Selected cover crops blends can help with pest and disease management. Cover crops are an economic input with an expected return on investment similar to pesticides and fertilizer. As part of a continuous no till system, cover crops provide long term biological, chemical and structural benefits. The resulting increase in soil organic matter means the agronomic crop yields benefit from better water infiltration and water holding capacity, greater availability of nitrogen and other nutrients, deeper rooting and increased soil microbial activity in the root zone.

Interactive Theorem Proving Jeremy Avigad, Assia Mahboubi, 2018-07-03. This book constitutes the refereed proceedings of the 9th International Conference on Interactive Theorem Proving (ITP 2018) held in Oxford, UK in July 2018.
