Succeeding With Multiple Intelligences Teaching Through Personal Intelligences:

Succeeding with Multiple Intelligences Hawker Brownlow Education, 1998 When the theory of multiple intelligences was first introduced to the public the idea of personal intelligences proved especially controversial While personal intelligences are no longer seen as an intruder at a psychometric convention little has been written about their niche within a strictly educational setting The book presents the importance of personal intelligences in a series of well thought out exercises each delineated in terms of goals procedures and assessment In this book you will discover how Gardner s multiple intelligences theory helps frame curriculum instruction and assessment and gets faculty working together as colleagues With practical advice and easy to use methods this guide has 60 reproducible lesson plans and samples of reporting compiled by teachers who are living the experience

The Personal Intelligences Launa Ellison, 2001 Launa Ellison is a pioneering teacher who has studied the scientific literature in psychology and neurology and sought to relate these findings to educational settings In this new book she shows how attention to the emotional and personal dimensions of students can help schools achieve their curricular and assessment goals Howard Gardner Graduate School of Education Harvard University A marvelously well written account A solid combination of research and useful practices focused on the important area of developing personal social identity Robert Sylwester Emeritus Professor of Education University of Oregon This is the finest book I have ever read on education and its transformations Master teacher Launa Ellison brings current brain research to bear on her own profound state of the art teaching methods Rarely has theory and practice been so brilliantly brought together Every teacher every parent every citizen concerned about our children and their development should read this book Jean Houston Ashland OR Teach more effectively using cutting edge brain research Nationally known teacher and author Launa Ellison helps teachers understand and use the latest brain research to improve education Ellison blends two of the Multiple Intelligences intrapersonal and interpersonal with the most current research on the brain and learning to create a new foundation for K 8 classrooms This new insight into personal intelligence and how it underpins all learning provides educators a unique opportunity to create optimal learning environments for students This comprehensive but practical guide covers Learning to control emotion and stress How emotions impact learning Personal intelligence across the curriculum Reflection goals and portfolios Responding to children s different learning needs Ensuring that all children learn Nurturing independence and self directed learning Ellison models reflective practice throughout and speaks to the interest of classroom teachers A wealth of teaching strategies and activities an annotated bibliography useful guides and a reproducible Week in Review checklist make this a powerful and essential resource for educators About the Author Launa Ellison teaches fifth and sixth grades in the Minneapolis Public Schools She has published over twenty professional journal articles and since 1984 has published The Consortium for Whole Brain Learning an international newsletter dedicated to improving educational practices through understanding brain research

Multiple Intelligences in the Classroom, 4th Edition Thomas

Armstrong,2017-11-22 In the decades since it was first introduced Howard Gardner s multiple intelligences MI theory has transformed how people think about learning the world over Educators using the theory have achieved remarkable success in helping all students including those who learn in nontraditional ways to navigate school and life outside it with confidence and success Within the context of classroom instruction no author besides Gardner has done more to popularize MI theory than Thomas Armstrong whose best seller Multiple Intelligences in the Classroom has become a bona fide education classic in its own right This expanded fourth edition provides educators at all levels with everything they need to apply MI theory to curriculum development lesson planning assessment special education cognitive skills career development educational policy and more In addition to the many strategies templates and examples that have made Armstrong s book so enduringly popular this edition is updated to examine how emerging neurodiversity research trends toward greater instructional personalization and rapidly evolving virtual learning tools have affected the use of MI theory to enhance student achievement It also includes brand new lesson plans aligned to nationwide standards and a revised list of resources for further study

Intelligence Reframed Howard E Gardner,2000-09-18 Harvard psychologist Howard Gardner has been acclaimed as the most influential educational theorist since John Dewey His ideas about intelligence and creativity explicated in such bestselling books as Frames of Mind and Multiple Intelligences over 200 000 copies in print combined have revolutionized our thinking In his groundbreaking 1983 book Frames of Mind Howard Gardner first introduced the theory of multiple intelligences which posits that intelligence is more than a single property of the human mind That theory has become widely accepted as one of the seminal ideas of the twentieth century and continues to attract attention all over the world Now in Intelligence Reframed Gardner provides a much needed report on the theory its evolution and revisions He offers practical guidance on the educational uses of the theory and responds to the critiques leveled against him He also introduces two new intelligences existential intelligence and naturalist intelligence and argues that the concept of intelligence should be broadened but not so absurdly that it includes every human virtue and value Ultimately argues Gardner possessing a basic set of seven or eight intelligences is not only a unique trademark of the human species but also perhaps even a working definition of the species Gardner also offers provocative ideas about creativity leadership and moral excellence and speculates about the relationship between multiple intelligences and the world of work in the future

Becoming a Multiple Intelligences School Thomas R. Hoerr,2000-02-15 In this invaluable book Tom Hoerr relates a decade s worth of MI experiences at St Louis New City School We learn about the staff s initial exposure to MI theory the many activities some more successful than others that were undertaken by faculty and staff in teaching curriculum adult development and assessment the challenges that the leader faces in attempting to bring about significant and lasting change Especially compelling are the continuing efforts to develop the personal intelligences during a period when issues of diversity multiculturalism and standards loom so large Hoerr underscores the centrality of collegiality the problems posed by transient students and faculty the complementary role played

by public exhibitions and standardized test scores the role of friends in determining the activities and intelligences favored by children the delicate line between support and challenge that the leader must walk the tension between excellence and perfection I value the concrete examples as well as the ties to important conceptual work such as that undertaken by Roland Barth on collegiality Peter Salovey on emotional intelligence and Peter Senge on the learning organization Achieving excellence has always been a process Hoerr makes it abundantly clear that the effort to use MI ideas effectively must remain on the agenda Still I can testify that over a 10 year period clear palpable impressive progress can be made We can improve schools significantly but only if we take the long view and do not settle for patchwork fixes Note This product listing is for the Adobe Acrobat PDF version of the book **Succeeding with Multiple Intelligences** Sally Boggeman, Tom Hoerr, Christine Wallach, 1996 *40 Engaging Brain-Based Tools for the Classroom* Michael A.
