Handbook for Aircraft Accident Investigators Naval Aviation Safety Center (U.S.),1961 *Thinking Through the Skin*

Sara Ahmed,Jackie Stacey,2003-09-02 This exciting collection of work from leading feminist scholars including Elspeth

Probyn Penelope Deutscher and Chantal Nadeau engages with and extends the growing feminist literature on lived and imagined embodiment and argues for consideration of the skin as a site where bodies take form already written upon but open to endless re inscription Individual chapters consider such issues as the significance of piercing tattooing and tanning the assault of self harm upon the skin the relation between body painting and the land among the indigenous people of Australia and the cultural economy of fur in Canada Pierced mutilated and marked mortified and glorified scarred by disease and stretched and enveloping the skin of another in pregnancy skin is seen here as both a boundary and a point of connection the place where one touches and is touched by others both the most private of experiences and the most public marker of a raced sexed and national history *The Concise Cambridge History of English Literature* George Sampson, Reginald Charles Churchill, 1970-02-02 Based on The Cambridge history of English literature **Quaker Women, 1650-1690** Mabel Richmond Brailsford, 1915 *Cinema and Social Change in Germany and Austria* Gabriele Mueller, James M. Skidmore, 2012-09-01 During the last decade contemporary German and Austrian cinema has grappled with new social and economic realities The cinema of consensus a term coined to describe the popular and commercially oriented filmmaking of the 1990s has given way to a more heterogeneous and critical cinema culture Making the greatest artistic impact since the 1970s contemporary cinema is responding to questions of globalization and the effects of societal and economic change on the individual This book explores this trend by investigating different thematic and aesthetic strategies and alternative methods of film production and distribution Functioning both as a product and as an agent of globalizing processes this new cinema mediates and influences important political and social debates The contributors illuminate these processes through their analyses of cinema s intervention in discourses on such concepts as national cinema the effects of globalization on social mobility and the emergence of a global culture The essays illustrate the variety and inventiveness of contemporary Austrian and German filmmaking and highlight the complicated interdependencies between global developments and local specificities They confirm a broader trend toward a more complex critical and formally diverse cinematic scene This book offers insights into the strategies employed by German and Austrian filmmakers to position themselves between the commercial pressures of the film industry and the desire to mediate or even attempt to affect social change It will be of interest to scholars in film studies cultural studies and European studies **Lives of the Illustrious** , 1856
