*10 Steps to Successful Presentations*, 2008 What makes the difference between a so so presentation and an unforgettable one The answers are here in this book ready for you to apply No matter your level of expertise you ll find ways to create an engaging memorable presentation for your audience Each step helps you build a framework for effective presentations even when time is short and your knees are knocking Now you can be professionally prepared for every aspect of presenting from choosing and developing your topic through dealing effectively with the Q A session You ll find a complete array of tools to help you through the 10 steps including checklists worksheets and tables for all the imaginable and unimaginable situations
