**Historical Dictionary of the Sudan** Robert S. Kramer, Richard Andrew Lobban, Carolyn Fluehr-Lobban, 2013 The Republic of the Sudan was long the largest country in Africa and according to the general consensus also one of the least successful in many ways This was not entirely its fault since it lay along the fault line between Muslim and Christian Africa and between the Nile Valley civilizations and African Sudanic cultures This partly explains the long and bloody warfare waged by the Southerners to achieve independence which they did in July 2011 So this hefty book actually covers not one but two states This fourth edition of the Historical Dictionary of the Sudan does so first through a lengthy and detailed chronology tracing its relatively few successes and numerous failures The introductory essay does an admirable job of putting it all in perspective But the most informative part is the dictionary with now over 700 entries for this fourth edition They deal with important personalities politics the economy society culture religion and inevitably the civil war There are also appendixes and an extensive bibliography

**Sudan** Abdel Salam Sidahmed, Alsir Sidahmed, 2004-11-10 Stretching between the savannah and the equator Sudan is a microcosm of Africa with one leg in the Arab world and the other in Africa Sudan's development however has failed to address the differences within the country between its diverse ethnic communities This has resulted in political instability and a lack of national consensus ultimately leading to long term civil war This useful book provides a comprehensive introduction to contemporary Sudan outlining the evolution of the state with emphasis on its post independence experience It includes chapters on the history politics society international relations and economy of the country

Making a Living in Rural Sudan Elke Grawert, 2016-07-27 This study aims to sensitize those concerned with Africa's development to the scope and limits of peasant livelihood securing activities It combines results of research in the fields of peasant actions food security gender relations and labour migration to a livelihood approach Analyzing peasant life in western Sudan leads to the demand to keep options open A review of the development programmes which affected the Sudanese rural population between independence and 1994 discloses that peasants efforts have largely been obstructed

Sudan: Conflict and Minorities Peter Verney, 1995-08-01 The civil war in Sudan is often portrayed as a battle between the North and the South of the country between Islam and Christianity This report Sudan Conflict and minorities explains how this over simplification obscures an understanding of the war and how it hides the position of minority groups and women within today's Sudan A clear understanding of the causes of the conflict is necessary if the war is to be brought to an end and the people are to have a right to development That this is desirable has never been in doubt with government forces militias and the factions of the Sudan People's Liberation Army committing gross human rights abuses against the civilian population The report's coordinating editor Peter Verney is a well known authority on Sudan and its peoples and Sudan Conflict and minorities examines the position of various minority groups ranging from the discrimination faced by the Copts to the massacres of the Dinka and many others Yet this repression is placed within a clear historical context This context is important given that the current government since seizing power in 1989 has orchestrated a widespread increase in human rights violations on a scale previously unknown in Sudan which has stifled both dissent and difference repressing opposition forces and minority groups alike The report ends with a series of recommendations which should be enacted immediately Please note that the terminology in the fields of minority rights and indigenous peoples rights has changed over time MRG strives to reflect these changes as well as respect the right to self identification on the part of

minorities and indigenous peoples At the same time after over 50 years work we know that our archive is of considerable interest to activists and researchers Therefore we make available as much of our back catalogue as possible while being aware that the language used may not reflect current thinking on these issues      **AF Press Clips** ,1981      **AF Press Clips**

United States Department of State. Bureau of African Affairs,1981      *Political Opposition and Democracy in Sub-Saharan Africa* Elliott Green,Johanna Söderström,Emil Uddhammar,2016-04-08 This book takes a closer look at the role and meaning of political opposition for the development of democracy across sub Saharan Africa Why is room for political opposition in most cases so severely limited Under what circumstances has the political opposition been able to establish itself in a legitimate role in African politics To answer these questions this edited volume focuses on the institutional settings the nature and dynamics within and between political parties and the relationship between the citizens and political parties It is found that regional devolution and federalist structures enable political opposition to organize and gain local power as a supplement to influence at the central level Generally however opposition parties are lacking in organization and institutionalization as well as in their ability to find support in civil society and promote the issues that voters find most important Overall strong executive powers unchecked by democratic institutions in combination with deferential values and fear of conflict undermine legitimate opposition activity This book was originally published as a special issue of Democratization
