The Empire Strikes Back? Andrew S. Thompson, 2014-09-11 The Empire Strikes Back will inject the empire back into the domestic history of modern Britain In the nineteenth century and for much of the twentieth century Britain's empire was so large that it was truly the global superpower Much of Africa Asia and America had been subsumed Britannia's tentacles had stretched both wide and deep Culture Religion Health Sexuality Law and Order were all impacted in the dominated countries The Empire Strikes Back shows how the dependent states were subsumed and then hit back affecting in turn England itself

Capitalism and Nationalism at the End of Empire Robert L. Tignor, 2015-03-08 The two decades that followed World War II witnessed the end of the great European empires in Asia and Africa Robert Tignor's new study of the decolonization experiences of Egypt Nigeria and Kenya elucidates the major factors that led to the transfer of power from British to African hands in these three territories Employing a comparative method in order to explain the different decolonizing narratives in each territory he argues that the different state policies toward the private business sector and foreign capital were the result of nationalist policies and attitudes and the influence of Cold War pressures on local events Using business records as well as official government sources the work highlights the economic aspects of decolonization and weighs the influence of nationalist movements changes in metropolitan attitudes toward the empire and shifts in the international balance of power in bringing about the transfer of authority The author concludes that the business communities did not play decisive roles adhering instead to their time honored role of leaving political issues to colonial officials and their nationalist critics Tignor also finds that the nationalist movements far from being ineffective largely realized the primary goals of nationalist leaders that had been articulated for many decades Originally published in 1997 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press

since its founding in 1905 Britain, Nasser and the Balance of Power in the Middle East, 1952-1977 Robert McNamara, 2004-08-02 A multi archival documentary history of British policy towards Nasser's Egypt under the Churchill Eden Macmillan Home and Wilson governments The primary focus of the study is an enquiry into the causes of the Anglo Egyptian Cold War from 1952 to 1967 **Contributions to Naval History**, 1988 *On Course to Desert Storm* Michael A. Palmer, 1992 *Eisenhower, Macmillan and the Problem of Nasser* N. Ashton, 1996-11-08 The years 1955-59 were a vital transitional period for the Anglo American relationship in the Middle East British and American leaders sought to protect cold war and oil interests in the region against the background of a renaissance of Arab nationalism personified by the Egyptian leader Nasser With the aid of extensive declassified official documentation this study traces the British and American responses to the Turco Iraqi Pact of 1955 the Suez crisis the Syrian crisis of 1957 the outbreak of civil strife in Lebanon and the Iraqi Revolution of 1958 It shows how the differing priorities of the two powers in the region promoted a patchwork of confrontation and cooperation over Middle Eastern questions For Britain this study reveals that it was the Iraqi Revolution rather than Suez which led to a redefinition of strategy in the region and a concentration on the defence of her oil interests in the Gulf International History of the Twentieth Century Antony Best, 2004 Using their thematic and regional expertise four prominent authors have produced an authoritative yet accessible account of the history of international relations in the last century covering events in Europe Asia the Middle East Africa and the Americas **Nasser at War** L. James, 2006-10-02 From his 1956 Suez triumph to the 1967 defeat President Nasser of Egypt dominated the Arab revolution Drawing on new Arabic material this history casts a fresh light on Nasser's era and legacy of conflict and provides an essential background to developments in the contemporary Arab world **Coalition Defection** Avi Kober, 2002-11-30 Since the creation of Israel during both wartime and peacetime many Arab coalitions have formed Every one of these anti Israel coalitions has failed to achieve its goals due to the defection of one or more major parties Kober explores the forces behind the dissemination of these alliances to determine why Arab states chose defection whether or not a distinction can be made between defection patterns in times of war and patterns related to peace processes and possible explanations for different behavior patterns The multi polar structure of the Arab subsystem the decisions of pivotal members and the negative reputations earned by such coalitions have always made defection an easy alternative The choice to defect was Kober contends nurtured by a sense of military weakness and by the priority that coalition members attached to their particular interests over general Arab concerns Kober finds that defection in time of war has arisen mainly through evasion passive avoidance of coalition obligations with the hope of escaping or minimizing expected losses Defection from military coalitions often deprived the defector of maximizing gains all the while weakening the remaining coalition members However defection during the peace process served not only to optimize the defector's utilities but eventually proved beneficial for the parties left behind Kober determines that the peace process mainly due to superpower involvement transformed the scenario from a

zero sum to a non zero sum game by rewarding the parties for signing treaties with Israel Also the first defectors such as Egypt established pay off precedents creating the foundation for future negotiations between the Arab players and Israel
