Sufi Aesthetics Cyrus Ali Zargar, 2013-05-22 Sufi Aesthetics argues that the interpretive keys to erotic Sufi poems and their medieval commentaries lie in understanding a unique perceptual experience Using careful analysis of primary texts Cyrus Ali Zargar explores the theoretical and poetic pronouncements of two major Muslim mystics Muhyi al Din ibn al Arabi d 1240 and Fakhr al Din Iraqi d 1289 under the premise that behind any literary tradition exist

organic aesthetic values The complex assertions of these Sufis appear not as abstract theory but as a way of seeing all things including the sensory world The Sufi masters Zargar asserts shared an aesthetic vision quite different from those who have often studied them Sufism's foremost theoretician Ibn Arabi is presented from a neglected perspective as a poet aesthete and lover of the human form Ibn Arabi in fact proclaimed a view of human beauty markedly similar to that of many mystics from a Persian contemplative school of thought the School of Passionate Love which would later find its epitome in Iraqi one of Persian literature's most celebrated poet saints Through this aesthetic approach this comparative study overturns assumptions made not only about Sufism and classical Arabic and Persian poetry but also other uses of erotic imagery in Muslim approaches to sexuality the human body and the paradise of the afterlife described in the Qur'an Sufism Alexander Knysh, 2019-03-19 A pathbreaking history of Sufism from the earliest centuries of Islam to the present After centuries as the most important ascetic mystical strand of Islam Sufism saw a sharp decline in the twentieth century only to experience a stunning revival in recent decades In this comprehensive new history of Sufism from the earliest centuries of Islam to today Alexander Knysh a leading expert on the subject reveals the tradition in all its richness Knysh explores how Sufism has been viewed by both insiders and outsiders since its inception He examines the key aspects of Sufism from definitions and discourses to leadership institutions and practices He devotes special attention to Sufi approaches to the Qur'an drawing parallels with similar uses of scripture in Judaism and Christianity He traces how Sufism grew from a set of simple moral ethical precepts into a sophisticated tradition with professional Sufi masters shaykhs who became powerful players in Muslim public life but whose authority was challenged by those advocating the equality of all Muslims before God Knysh also examines the roots of the ongoing conflict between the Sufis and their fundamentalist critics the Salafis a major fact of Muslim life today Based on a wealth of primary and secondary sources Sufism is an indispensable account of a vital aspect of Islam *Cultural Fusion of Sufi Islam* Sarwar Alam, 2019-08-19 It has been argued that the mystical Sufi form of Islam is the most sensitive to other cultures being accommodative to other traditions and generally tolerant to peoples of other faiths It readily becomes integrated into local cultures and they are similarly often infused into Sufism Examples of this reciprocity are commonly reflected in Sufi poetry music hagiographic genres memoirs and in the ritualistic practices of Sufi traditions This volume shows how this often side lined tradition functions in the societies in which it is found and demonstrates how it relates to mainstream Islam The focus of this book ranges from reflecting Sufi themes in the Qur'anic calligraphy to movies from ideals to everyday practices from legends to actual history from gender segregation to gender transgression and from legalism to spiritualism Consequently the international panel of contributors to this volume are trained in a range of disciplines that include religious studies history comparative literature anthropology and ethnography Covering Southeast Asia to West Africa as well as South Asia and the West they address both historical and contemporary issues shedding light on Sufism's adaptability This book sets aside conventional methods of understanding Islam such as

theological juridical and philosophical in favour of analysing its cultural impact As such it will be of great interest to all scholars of Islamic Studies the Sociology of Religion Religion and Media as well as Religious Studies and Area Studies more generally

modern era specifically from the perspective of global cross cultural exchange Edited by Jamal Malik and Saeed Zarrabi Zadeh the book explores the role of mystical Islam in the complex interchange and fluidity in the resonance spaces of East and West The volume challenges the enduring Orientalist binary coding of East versus West and argues instead for a more mutual process of cultural plaiting and shared tradition By highlighting amendments adaptations and expansions of Sufi semantics during the last centuries it also questions the persistent perception of Sufism in its post classical epoch as a corrupt imitation of the legacy of the great Sufis of the past
