The Power Of Being Debt Free How Eliminating The National Debt Could Radically:

The Glass Church Mark T. Mulder, Gerardo Marti, 2020-04-17 For most of his life the megachurch ministry of Robert H Schuller in Orange County California displayed an apparent strength that betrayed none of the fractures that lay below the success oriented surface Yet when tested and stressed in the late 2000s the ecclesial structure s accumulated fragility proved to be catastrophic Drawing on extensive data gathered from archives interviews and ethnographic observation The Glass Church examines the spectacular collapse of The Crystal Cathedral to better understand both the strength and fragility of Schuller s ministry The apparent success of the ministry obscured the many tensions that often threatened its future Certainly all churches depend on a mix of constituents charisma and capital yet the size and ambition of large churches like Schuller s Crystal Cathedral exert enormous organizational pressures to continue the flow of people committed to the congregation to reinforce the spark of charismatic excitement generated by high profile pastors and to develop fresh flows of capital funding for maintenance of old projects and launching new initiatives The constant attention to expand constituencies boost charisma and stimulate capital among megachurches produces an especially burdensome strain on their leaders By orienting an approach to the collapse of the Crystal Cathedral on these three core elements constituency charisma and capital The Glass Church demonstrates how congregational fragility is greatly accentuated in larger churches a notion we label megachurch strain such that the threat of implosion is significantly accentuated by any failures to properly calibrate the inter relationship among these elements *New Acquisitions* National Defense University.
