The Practice Of Community Oriented Primary Health Care By Kark Sidney L:

Community Oriented Primary Care Institute of Medicine, Division of Health Care Services, 1983-01-01 **The Practice of Community-oriented Primary Health Care** Sidney L. Kark, 1981 *Community-oriented Primary Care* Paul A. Nutting, 1987 **Reimagining Social Medicine from the South** Abigail H. Neely, 2021-07-12 In *Reimagining Social Medicine from the South* Abigail H. Neely explores social medicine's possibilities and limitations at one of its most important origin sites: the Pholela Community Health Centre (PCHC) in South Africa. The PCHC's focus on medical and social factors of health yielded remarkable success. And yet South Africa's systemic racial inequality hindered health center work and witchcraft illnesses challenged a program rooted in the sciences. To understand Pholela's successes and failures, Neely interrogates the social in social medicine. She makes clear that the social sciences the PCHC used failed to account for the roles that Pholela's residents and their environment played in the development and success of its program. At the same time, the PCHC's reliance on biomedicine prevented it from recognizing the impact on health of witchcraft illnesses and the social relationships from which they emerged. By rewriting the story of social medicine from Pholela, Neely challenges global health practitioners to recognize the multiple worlds and actors that shape health and healing in Africa and beyond. **Essentials of Global Community Health** Jaime Gofin, Rosa Gofin, 2011 *Health Sciences Professions Current Catalog* National Library of Medicine (U.S.), 1980 First multi-year cumulation covers six years 1965-70 *Psychiatry, Mental Institutions, and the Mad in Apartheid South Africa* Tiffany Fawn Jones, 2012-05-23 In the late 1970s South African mental institutions were plagued with scandals about human rights abuse and psychiatric practitioners were accused of being agents of the apartheid state. Between 1939 and 1994 some psychiatric practitioners supported the mandate of the racist and heteropatriarchal government and most mental patients were treated abysmally. However, unlike studies worldwide that show that women, homosexuals, and minorities were institutionalized in far higher numbers than heterosexual men, *Psychiatry, Mental Institutions, and the Mad in Apartheid South Africa* reveals how in South Africa per capita white heterosexual males made up the majority of patients in state institutions. The book therefore challenges the monolithic and omnipotent view of the apartheid government and its mental health policy. While not contesting the belief that human rights abuses occurred within South Africa's mental health system, Tiffany Fawn Jones argues that the disparity among practitioners and the fluidity of their beliefs, along with the disjointed mental health infrastructure, diffused state control. More importantly, the book shows how patients were also to a limited extent able to challenge the constraints of their institutionalization. This volume places the discussions of South Africa's mental institutions in an international context, highlighting the role that international organizations such as the Church of Scientology and political events such as the gay rights movement and the Cold War also played in shaping mental health policy in South Africa. *Encyclopedia of Immigrant Health* Sana Loue, Martha Sajatovic, 2014-06-20 There is increasing interest in the scientific literature on immigrant health and its impact on disease.

transmission disease prevention health promotion well being on an individual and population level health policy and the cost of managing all these issues on an individual institutional national and global level The need for accurate and up to date information is particularly acute due to the increasing numbers of immigrants and refugees worldwide as the result of natural disasters political turmoil the growing numbers of immigrants to magnet countries and the increasing costs of associated health care that are being felt by governments around the world

Format and Scope The first portion of the encyclopedia contains chapters that are approximately 25 to 40 manuscript pages in length Each overview chapter includes a list of references and suggested readings for cross referencing within the encyclopedia The opening chapters are Immigration in the Global Context Immigration Processes and Health in the U S A Brief History Alternative and Complementary Medicine Culture Specific Diagnoses Health Determinants Occupational and Environmental Health Methodological Issues in Immigrant Health Research Ethical Issues in Research with Immigrants and Refugees Ethical Issues in the Clinical Context The second portion of the book consists of alphabetical entries that relate to the health of immigrants Entries are interdisciplinary and are drawn from the following fields of study anthropology demographics history law linguistics medicine population studies psychology religion and sociology Each entry is followed by a listing of suggested readings and suggested resources and also links to related terms within the whole book

Outstanding Features The book adopts a biopsychosocial historical approach to the topics covered in the chapters and the entries Each entry includes suggested readings and suggested resources The chapters and entries are written graduate level that is accessible to all academics researchers and professionals from diverse backgrounds We consider the audience for the entries to be well educated but a non expert in this area The primary focus of the book is on the immigrant populations in and immigration to magnet countries References are made to worldwide trends and issues arising globally In addition to the comprehensive subject coverage the text also offers diverse perspectives The editors themselves reflect the multidisciplinary nature of the topics with expertise in psychiatry law epidemiology anthropology and social work Authors similarly reflect diverse disciplines

Public Health in Appalachia Wendy Welch, 2014-07-15 The Appalachian region of the United States sees hunger poverty disability preventable illness and premature death in disproportionately high numbers Yet Appalachia also knows the quiet strength of people working together to lift one another up as a community In this collection of essays health professionals explore how clinics and communities address the barriers to healthcare that continue to plague this underserved region and discuss theoretical perspectives about Appalachian healthcare Topics include regional dental care cancer and diabetes treatment the integration of primary care and behavioral health telehealth the importance of patient responsibility and the effects of faith fatalism and family dynamics on the health of Appalachian youth Avoiding simplification and stereotype while presenting data analysis and anecdotes this volume gives a detailed picture of Appalachia s complex and multi faceted public health challenges Instructors considering this book for use in a course may request an examination

copy here **Community-Based Health Interventions in an Institutional Context** Steven L. Arxer, John W. Murphy, 2019-09-13 Community Based Health Interventions in an Institutional Context examines challenges of institutionalizing community based health care While the community based or localized model is growing in popularity and importance in the United States in practice it must often be brought in to larger institutions in order to grow to scale The typical goals of an institution standardization formalization and control may be seen as antithetical to those of a community based healthcare provider such as spontaneity customization and flexibility The contributions to this work raise questions about how the community based model can be scaled up through institutions and how institutionalization can be rethought from a bottom up approach They provide not only an overview of community based organizations but also delve into practical topics such as establishing budgets training workers incorporating technology as well as more theoretical topics like goal setting policy effects like the ACA and relationships between patient and community This work will be of interest for researchers interested in exploring the community based health care model as well as practitioners in health care and health policy
