The Preraphaelite Dream Drawings And Paintings From The Tate Collection:

The Pre-Raphaelite Dream Tate Britain (Gallery), Robert Upstone, 2003 Pre Raphaelitism was one of the great revolutionary movements of 19th century British art rejecting both the academic dryness of classicism and the vapid sentimentality of so called genre painting This text showcases the range virtuosity and vision of the artists aligned with the pre Raphaelite brotherhood *The Pre-Raphaelite Dream* Robert Upstone, 2004-05-01 *The Pre-Raphaelite Dream* Tate Britain (Gallery), 2004 **Economic Impact Study** Tate Britain (Gallery), Dunedin (N.Z.). City Council, Business and Economic Research Limited (Wellington, N.Z.), Dunedin Public Art Gallery, 2004* *Edith Wharton and the Visual Arts* Emily J. Orlando, 2007 This work explores Edith Wharton's career long concern with a 19th century visual culture that limited female artistic agency and expression Wharton repeatedly invoked the visual arts as a medium for revealing the ways that women's bodies have been represented as passive sexualized infantilized sickly dead Well versed in the Italian masters Wharton made special use of the art of the Pre Raphaelite Brotherhood particularly its penchant for producing not portraits of individual women but instead icons onto whose bodies male desire is superimposed *Hawthorne's Visual Artists and the Pursuit of a Transatlantic Aesthetics* Kumiko Mukai, 2008 Among Hawthorne's primary themes the visual arts have usually been regarded as an afterthought and have only been examined to elucidate his own personal philosophy Hawthorne's own contemporaries derided him for his mediocre aesthetics and that view has been taken as received wisdom up to the present day This study reexamines Hawthorne's aesthetics and suggests that he was much more familiar with the art and artists of the time than has previously been acknowledged by critics He developed his own eclectic and transatlantic view of art a view which incorporated decorative arts like embroidery while maintaining a modest estimation of his own talents This book examines the full range of visual artists whom Hawthorne portrays It argues that these portrayals illuminate the artist's dilemma of being fettered by New England Puritanism while at the same time being attracted to the richness and depth of both Victorian aesthetics and the artistic sense of Old World Catholicism The ambiguous destinies of his artist characters include misunderstandings and disputes while at the same time they suggest a reconciliation of the conflicting sentiments and transatlantic perspectives of the writer himself **Van Gogh and the Art of Living** Anton Wessels, 2013-08-09 Vincent van Gogh believed that one had to learn to read just as one had to learn to see and learn to live Van Gogh conveyed a message in his work about the path that he himself followed that was more true to life the path that human beings walk in their turbulent existence the pilgrimage along the various stages of the road of life He does not speak about the meaning of life but about the true art of living It is fascinating to see and read the moving way in which he wrestled with the deep human questions of the whence why and whither of life He did not see himself doing this on his own but acknowledged kindred spirits and allies in preachers preacher poets painters writers and other artists who also attempted to find their own way through life in a similar fashion Van Gogh was aware like no other of his duty and task in life his vocation as human being

and artist That means that he was well acquainted with loneliness fear and despair including suicidal tendencies Nevertheless he understood himself as cut out for faith rather than resignation Human beings follow their life s path through storms and dangers on land and on sea where the star of the sea the Virgin Mary helps them and provides light Van Gogh rejected the unhealthy sickly forms of religion electing instead to embrace authentic forms of piety The Paragone in Nineteenth-Century Art Sarah J. Lippert,2019-03-27 Offering an examination of the paragone meaning artistic rivalry in nineteenth century France and England this book considers how artists were impacted by prevailing aesthetic theories or institutional and cultural paradigms to compete in the art world The paragone has been considered primarily in the context of Renaissance art history but in this book readers will see how the legacy of this humanistic competitive model survived into the late nineteenth century Memorial Boxes and Guarded Interiors Gary Totten,2007-05-06 American writer Edith Wharton 1862 1937 once wrote in Harper s that she wanted to penetrate the carefully guarded interior s of her past memories and fashion them into a little memorial like the boxes formed of exotic shells which sailors used to fabricate between voyages For Totten English North Dakota State U this statement is a striking reminder of the connections between material objects and cultural meanings in Wharton s life and work He presents 11 essays that explore these connections in a variety of ways Topics include critical linkages of Wharton to materiality as a means to keep her outside the canonical resistance to commodification in The House of Mirth the creation of the disposable object and Wharton s characters fears of their disposability Wharton s ideas about the use of museum space in The Age of Innocence and the effect of technology on domestic space in The Fruit of the Tree The Collected Works of W.B. Yeats Vol. V: Later Essays William Butler Yeats,1994-09-30 Compiling nineteen essays and introductions a volume with explanatory notes includes Per Amica Silentia Lunae and On the Boiler as well as introductions on Shelley and Balzac and essays on Irish poetry and politics
