David,Melvin W. Reder,2014-05-10 Nations and Households in Economic Growth Essays in Honor of Moses Abramovitz is a collection of papers that reflect the broad sweep of Moses Abramovitz s interests within the disciplines of economics and economic history This work is organized into two parts encompassing 14 chapters The first part discusses the individual and social welfare significance of

quantitative indices of economic growth This part also deals with the mechanisms of economic demographic interdependence and their bearing particularly upon long swings in the rate of growth The second part highlights the changing role of international relations in processes generating national economic development and domestic economic instability This book will be of value to economists historians and researchers **Bulletin of the United States Bureau of Labor Statistics**

,1976 **Collective bargaining agreements for State and county government employees** United States. Bureau of Labor Statistics,1976 *Economic Analysis of Families and Society* Shinji Yamashige,2017-11-06 This book based on economics and game theory analyzes the changes that Japan is now facing as a reflection of changes in Japanese families and society The author presents a simple framework for the structural relationship among markets communities including families and the state and uses it to explain the changes that have occurred in Japanese society Social changes have created a series of social problems such as population ageing poverty and regional disparities which require changes in public policies The book provides readers with rich information about the Japanese social security system social policies and regional policies by explaining why they are developed how they are designed and what challenges they face Readers will find that the transformation of Japanese society is not really a special case but a fairly common one that many developed countries have experienced and many developing countries are going to experience The book will be useful not only to those who are interested in Japanese society and public policies but also to anyone who is interested in the transformations of families communities and roles of the state in a modern market economy Less of a Luxury Dora L. Costa,1997 I show that recreation has become much more egalitarian over the last hundred years by estimating recreational expenditure elasticities in 1888 1890 1917 1919 1935 1936 1972 1973 and 1991 I find that expenditure elasticities have fallen from around two at the beginning of the century to slightly more than one today and attribute this decline to rising incomes declines in the price of recreation and investment in public recreational goods My findings have implications for trends in the well being of the poor relative to the rich and for long term trends in work hours and labor force participation rates **Congressional Record** United States. Congress,1978
