The Principles of Canon Law Hubert Stanley Box, 1986-09-05 This book explains the nature of canon law and the principles of its interpretation and application **The Principles of Canon Law Common to the Churches of the Anglican Communion** Anglican Communion Legal Advisers Network, 2008 [The Principles of Canon Law Common to the Churches of the Anglican Communion](#) ,2022 [Canon Law](#) Libero Gerosa, 2002 One of the main demands of Vatican II Council with respect to Canon Law was to always focus on the mystery of the Church This clear and distinct position led to a renewal of the methodology applied to the discipline of Canon Law in almost all post conciliar schools The canonistic demand however similarly to change the didactic tools the teaching material in this new context has proved to be less significant Knowing the importance and the urgency of this initiative has been a strong source of motivation to the author The leading and inspiring idea behind this initiative is the conviction that the formal principles of Canon Law both as the inner structure of the Church community as well as a proper scientific method are the three fundamental elements of the constitution of the Church the Word the Sacrament and Charisma [The Principles of Canon Law, Etc](#) Hubert Stanley BOX, 1949

Principles of English Canon Law John Brownbill, 1883 *Principles of Privilege According to the Code of Canon Law* ... Edward George Roelker, 1926 [Christian Law](#) Norman Doe, 2013-09-12 Comparing church laws within ten Christian traditions worldwide Christianity emerges as a religion of law as well as of faith **The Principles of Canon 1127 ...** Francis Patrick Kearney, 1944 **The Legal System of the Vatican City State** Konrad Dyda, 2025-10-24 This book examines one of the fundamental phenomena in jurisprudence Legal Transplants reception of law the study of which allows us both to determine the relationships between various legal systems and between civil law and other normative systems Taking the Vatican City State as a case study the work explores the theoretical and practical significance of canon law in the legal system It analyses the sources of law and how it is applied in practice especially in the jurisprudence of the Vatican courts and other bodies applying the law The characteristic feature of this transplantation of law is the borrowing by the legislative and judicial authorities of the State of various norms both of a strictly religious nature and those arising from the law of the Italian Republic the European Union the norms of international law and their creative use to produce a distinct system of law It is this creative use that constitutes the essence of the reception of law in the Vatican City State The book determines similarities and differences between the reception of law in the Vatican City State and other examples of reception of law including the implementation of European Union law by individual Member States the relationship between the reference by the Vatican legislator to the axiological foundations of the legal order and the role of legal principles in secular legislation how the confessional character of the Vatican City State affects the content of legal norms applicable in the State and whether this mechanism can be applied in secular states The book will be of interest to academics and researchers working in the areas of Law and Religion Canon Law and Legal Philosophy
