Edge, 2009-09 The American South embodies a powerful historical and mythical presence both a complex environmental and geographic landscape and a place of the imagination Changes in the region's contemporary socioeconomic realities and new developments in scholarship have been incorporated in the conceptualization and approach of *The New Encyclopedia of Southern Culture* Anthropologist Clifford Geertz has spoken of culture as context and this encyclopedia looks at the American South as a complex place that has served as the context for cultural expression This volume provides information and perspective on the diversity of cultures in a geographic and imaginative place with a long history and distinctive character *The New Encyclopedia of Southern Culture (EasyRead Edition)* , *The Oxford Companion to Food* Alan Davidson, 2014 Twenty years in the making the first edition of this bestselling reference work appeared in 1999 to worldwide acclaim Combining serious and meticulously researched facts with entertaining and witty commentary it has been deemed unique by chefs and reviewers around the globe It contains both a comprehensive catalog of foodstuffs crackers and cookies named for battles and divas body parts from toe to cerebellum breads from Asia to the Mediterranean and a richly allusive account of the culture of food whether expressed in literature and cook books or as dishes special to a country or community Retaining Alan Davidson's wisdom and wit this new edition also covers the latest developments across the whole spectrum of this subject Tom Jaine has taken the opportunity to update the text and alert readers to new perspectives in food studies There is new coverage on attitudes towards food consumption production and perception such as food and genetics food and sociology and obesity New entries include terms such as convenience foods gastronomy fusion food leftovers obesity local food and many more There are also new entries on important personalities who are of special significance within the world of food among them Clarence Birdseye Henri Nestle and Louis Pasteur Now in its third edition the *Companion* maintains its place as the foremost food reference resource for study and home use *All Y'all* Heidi Siegrist, 2024-11-11 The South is often perceived as a haunted place in its region's literature one that is strange deviant or queer The peculiar often sexually

charged literary worlds of contemporary writers like Fannie Flagg Monique Truong and Randall Kenan speak to this connection between queerness and the South Heidi Siegrist explores the boundaries of negotiating place and sexuality by using the concept of Southernness a purposefully fluid idea of the South that extends beyond simple geography eschewing familiar ideas of the Southern canon When the connection between queerness and Southernness becomes apparent Siegrist shows a Southern branded queer deviance can not only change the way we think about literature but can also change Southern queer people s lived experiences Siegrist gathers a bevy of undertheorized writers from Kenan and Truong to Dorothy Allison and even George R R Martin showing that there are many queer Souths Siegrist offers these multiverses as a way to appreciate a place that is often unfriendly even deadly to queer people But as Siegrist argues none of these Souths from the terrestrial to the imaginary would be what they are without the influence and power of queer literature **Secret**
