**Quantum Sense and Nonsense** Jean Bricmont, 2017-10-27 Permeated by the author s delightful humor this little book explains with nearly no mathematics the main conceptual issues associated with quantum mechanics The issue of determinism Does quantum mechanics signify the end of a deterministic world view The role of the human subject or of the observer in science Since Copernicus science has increasingly tended to dethrone Man from his formerly held special position in the Universe But quantum mechanics with its emphasis on the notion

of observation may once more have given a central role to the human subject The issue of locality Does quantum mechanics imply that instantaneous actions at a distance exist in Nature In these pages the author offers a variety of views and answers bad as well as good to these questions The reader will be both entertained and enlightened by Jean Bricmont s clear and incisive arguments

The End of Two Illusions Hamid Dabashi,2022-04-19 Dismantling the myths that divide Islam and the West this cutting edge work of critical thinking proposes new ways to reread Islamic and world histories Extending from the front page news coverage of our daily lives back into the deepest and most revelatory histories

of the last two hundred years and earlier Hamid Dabashi's *The End of Two Illusions* is a daring provocative and groundbreaking work that dismantles the most dangerous delusions manufactured between two vastly fetishized abstractions: Islam and the West. With this book Dabashi shows how the civilizational divides imagined between these two cosmic binaries have defined their entanglement in ways that have nothing to do with the lived experiences of either Muslims or the diverse and changing communities scarcely held together by the myth of the West. Through detailed historical and contemporary analysis *The End of Two Illusions* untangles the motivations that produced this global fiction. Dabashi demonstrates how the West was an ideological commodity and civilizational mantra invented during the European Enlightenment serving as an epicenter for the rise of globalized capitalist modernity. In turn, Orientalist ideologues went around the world manufacturing equally illusory abstractions in the form of inferior civilizations in India, China, Africa, Latin America, and the Islamic world. The result was the projection of Islam and the West as the prototype of a civilizational hostility that has given false explanations and flawed prognoses of our contemporary history with weaponized Islamophobia on one side and militant Islamism on the other as its most palpable manifestations. Dabashi argues it is long past time to dismantle this dangerous liaison, expose and overcome its perilous delusions, and reimagine the world beyond its shimmering mirage. *The End of Two Illusions* is the most iconoclastic work of critical thought and scholarship to emerge in recent memory, clearing the way toward a far more liberating imaginative geography of the world we share.

Everyone has an imagination, but how many of us can say we use it to its full potential? Not only Ibn Arabi, the greatest Shaykh of Sufism, but poets and mystics in every age have developed their imagination to the point where they can apprehend a silence that speaks in symbol and a dynamic stillness that can transform the world. This journey starts from where we are as novice meditators in a bustling, distracted world and guides us into the mystical imagination with twelve short discussions, each illustrated by accessible, memorable poems. With creative challenges in each chapter, you can chart your own exploration by writing a poem, painting a picture, or making a piece of music using the suggestions as a starting point. Stops along the route of this armchair pilgrimage include dreams, alchemists, Sufi stories, bardic states, angels, synchronicities, prophecies, a mermaid, and a well-known crucifixion. This book is for seekers, yogis, and believers of all traditions and at all stages, as well as those who simply want to better connect with their creative imagination.
