Skepsis Dogma And Belief Uses And Abuses In Medicine:

Skepsis, Dogma, and Belief Edmond A. Murphy, 1981 This book reflects upon the manner in which medical research is performed and interpreted *The Logical Structure of Clinical Medicine* Ulrich Müller-Kolck, 2015-11-17 The practice of medicine basically depends on three general concepts an individual patient image the individual disease course of this patient and an expectation of the future development of the disease Physicians use heuristics for the cognitive processing of these concepts Basic clinical heuristics are put into three algorithms a history based learning algorithm a diagnostic inferencing algorithm and a prognostic planning algorithm A proto theory of clinical reasoning for practicing physicians is proposed *The Role of Complementary and Alternative Medicine* Daniel Callahan, 2002 At the center of the debate over complementary and alternative medicine from acupuncture and chiropractic treatments to homeopathy and nutritional supplements is how to scientifically measure the effectiveness of a particular treatment Fourteen scholars from the fields of medicine philosophy sociology and cultural and folklore studies examine that debate and the clash between growing public support and the often hostile stance of clinicians and medical researchers Proponents and critics have different methodologies and standards of evidence raising the question of how much pluralism is acceptable in a medical context particularly in light of differing worldviews and the struggle to define medicine in the modern world The contributors address both the methodological problems of assessment and the conflicting cultural perspectives at work in a patient's choice of treatment Sympathetic to CAM the contributors nonetheless offer careful critiques of its claims and suggest a variety of ways it can be taken seriously yet subject to careful scrutiny **Bibliography of the History of Medicine**, 1984 **Clio Medica. Acta Academiae Internationalis Historiae Medicinae, Vol. 17**, 2020-01-29 As periodical of the International Academy of the History of Medicine this Clio Medica volume contains 12 papers **Healing, Intention, and Energy Medicine** Wayne B. Jonas, Cindy C. Crawford, 2003 Clear and authoritative this unique book explores the results and clinical implications of research in spiritual healing energy medicine and the effects of intentionality Rigorously evaluating the science of healing intention it also makes recommendations for future research and investigations on the impact of spiritual healing practices in the clinical setting *Phenotypic Variation in Populations* Avril Woodhead, 2012-12-06 The human race has enormous heterogeneity founded on genetic and environmental sources Variability therefore is a vital dimension in any consideration of human risk assessment In the estimation of risks current methods of extrapolation based upon converting the response of a median man are inadequate as they ignore phenotypic variation and therefore susceptible subgroups There is a growing literature defining the extent of human variation in normal populations thus the normal young adult population may have 10-20% known hyperreactors How far can we ignore human variability in risk assessment Should we be concerned with susceptible groups and how can we modify the risk assessment analysis accordingly The aim of our meeting was to bring together experts from the fields of human epidemiology toxicology aging genetics carcinogenesis and teratology and to

provide a forum in which we might assimilate knowledge of human heterogeneity as a coherent whole Since the resolution and obligations of risk assessment in the last analysis are a political process we also involved representatives from the legal field the unions and the regulatory agencies We are most grateful for financial support from the National Institute on Aging the U S Environmental Protection Agency the U S Department of Energy FDA National Center for Toxicological Research The Council for Tobacco Research USA Inc Johnson and Johnson Merck Sharp and Dohme Research Laboratories and Associated Universities Inc We thank our Symposium Coordinator Ms
