*How Skeptics Do Ethics* Aubrey Neal,2007 Enlightenment philosophers are often credited with formulating challenging theories about humankind and society and in our postmodern age we still live with some of the very same compelling contentious and often unresolved questions they posed Aubrey Neal suggests that one such issue that still lingers today is skepticism and in *How Skeptics Do Ethics* he unravels the thread of this philosophy from its origins in Enlightenment thinking down to our present age Neal contends that in our increasingly complicated world we face unique moral challenges and that modern ethics has not kept pace with modern life The traditional language of moral introspection does not translate adequately into such contexts as politics public service and the global economy Referencing such luminary thinkers as Hume Kant Hegel and Wittgenstein Neal seeks to re ignite age old questions and challenge the meaning of traditional philosophical debates and their value for our society today

**Moral Skepticism** Walter Sinnott-Armstrong,2006-01-26 All contentious moral issues from gay marriage to abortion and affirmative action raise difficult questions about the justification of moral beliefs How can we be justified in holding on to our own moral beliefs while recognizing that other intelligent people feel quite differently and that many moral beliefs are distorted by self interest and by corrupt cultures Even when almost everyone agrees e g that experimental surgery without consent is immoral can we know that such beliefs are true If so how These profound questions lead to fundamental issues about the nature of morality language metaphysics justification and knowledge They also have tremendous practical importance in handling controversial moral questions in health care ethics politics law and education Sinnott Armstrong here provides an extensive overview of these difficult subjects looking at a wide variety of questions including Are any moral beliefs true Are any justified What is justified belief The second half of the book explores various moral theories that have grappled with these issues such as naturalism normativism intuitionism and coherentism all of which are attempts to answer moral skepticism Sinnott Armstrong argues that all these approaches fail to rule out moral nihilism the view that nothing is really morally wrong or

right bad or good Then he develops his own novel theory moderate Pyrrhonian moral skepticism which concludes that some moral beliefs can be justified out of a modest contrast class but no moral beliefs can be justified out of an extreme contrast class While explaining this original position and criticizing alternatives Sinnott Armstrong provides a wide ranging survey of the epistemology of moral beliefs     Essays on Skepticism, Relativism, and Ethics in the Zhuangzi Paul Kjellberg, P. book then goes on to suggest a way in which scepticism can be avoided arguing that excessive pre eminence given to the will might lie at its root Offering an alternative to this scepticism Carlos Moya shows how a cognitive approach to moral responsibility that stresses the importance of belief would rescue our natural and centrally important faith in the reality of moral responsibility
