## **Style And Discourse With Special Reference To The Text Of The Greek New Testament:**

**Style and Discourse** Eugene Albert Nida, 1983 Description of the elements of Greek style and discourse and their significance to the translation of the Greek New Testament      **A South African Perspective on the New Testament** J. H. Hartin, P. J. Petzer, 2023-10-16      **A South African Perspective on the New Testament** Jacobus H. Petzer, Patrick J. Hartin, 1986      **Biblical Greek Language and Linguistics** Stanley E. Porter, D.A. Carson, 2015-01-29 This collection of essays brings together into one volume papers from the Society of Biblical Literature meetings in 1990 and 1991 This volume divides itself neatly into two sections Part I Verbal Aspect includes two major presentations and responses on the topic of Greek verbal aspect The subject is an important one and one that promises not to go away in the next several years If the proponents of the theory are correct the semantic category of verbal aspect will prove vital to future analysis and exegesis of Greek including that of the New Testament Part II includes four substantial papers on various topics in Greek grammar and linguistics including work on discourse analysis construction grammar the phrase as a constituent in Greek grammatical description and the possible Semitic origins of the finite verb with cognate participle These interesting and varied essays are designed both to illustrate the current state of discussion of New Testament Greek grammar and to provide impetus for future research and publication      Idioms of the Greek New Testament Stanley E. Porter, 1992-07-01 The Greek grammar newly revised and reset for the second edition which is also available in paperback can be used as an instructive handbook as an intermediate level textbook and as a basic reference work to New Testament Greek The major topics of Greek grammar are treated in a useful pedagogical sequence Among the innovative treatments are those on tense and aspect Mood and Attitude conditional clauses word order and clause structure and discourse analysis The grammar takes account both of the traditional categories of Greek grammar and of recent discussions on structural linguistics      *The Self, the Lord, and the Other according to Paul and Epictetus* Michael J. Gorman, 2023-03-29 This study explores the relationship between the individual person the self the divine and other people in the writings of the apostle Paul and the Roman Stoic Epictetus It does so by examining self involving actions expressed with reflexive pronouns myself yourself etc in various kinds of sentences for example Examine yourself and You do not belong to yourself After situating the topic within the fields of linguistics and ancient Greek the study then examines the reflexive constructions in Epictetus's Discourses showing that reflexive texts express fundamental aspects of his ethic of rational self interest in imitation of the indwelling rational deity Next the investigation examines the 109 reflexive constructions in Paul providing an exegesis of each reflexive text and then synthesizing the results Paul's reflexive phrases are essential statements of his theology and ethics expressing an interconnected narrative Christology narrative apostolic identity and narrative ethic Most importantly the study finds that for Epictetus concern for others is a rational means to self realization whereas for Paul concern for others is a community ethic grounded in the story of the indwelling Christ and is the antithesis of self interest      **Text and Interpretation**

Hartin,Petzer,2019-07-01 Text and Interpretation gives an insight into the many different approaches that more recent South African scholarship has adopted in the interpretation of the New Testament While the number of approaches in New Testament interpretation has proliferated over the past few years all the proposals still fall under one of the three traditional poles sender author text receptor reader Classified according to this division each chapter has a twofold aim Firstly the perspective is situated within a wider framework of interpretation to illustrate the context out of which this approach emerges Secondly each article has selected a particular New Testament text to demonstrate this approach in practice The authors of these chapters the majority of which are South African scholars were chosen because of their expertise in their specific fields By presenting these studies together in one collection the scholarship in these different areas will become more readily accessible to a wider group of scholars

**Qumran and the Origins of Johannine**

**Language and Symbolism** Elizabeth W. Mburu,2010-06-18 This work sets out to demonstrate that the sectarian Qumran document The Rule of the Community provides linguistic clues which illuminate our understanding of how the author of the Fourth Gospel used truth terminology and expected it to be understood It establishes that there are significant linguistic similarities shared by these two corpora While these may be attributed to a development of the common tradition shared by both as well as the influence ideology the semantic continuity with the Rule of the Community makes it likely that the author of the Fourth Gospel was familiar with the mode of thought represented in the linguistic matrix of the Qumran literature and that he followed this in articulating his ideas in certain parts of his Gospel

**Direct Internal Quotation in the Gospel of John** Jeffrey M. Tripp,2019-08-02 Do the characters in the Gospel of John quote and re quote each other even important

**The Use of the Septuagint in New Testament Research** Tim McLay, 2003 Too often the Septuagint is misunderstood or worse ignored in New Testament studies In this book R

Timothy McLay makes a sustained argument for the influence of the Greek Jewish Scriptures on the New Testament and offers basic principles for bridging the research gap between these two critical texts McLay explains the use of the Septuagint in the New Testament by looking in depth at actual New Testament citations of the Jewish Scriptures This work reveals the true extent of the Septuagint's impact on the text and theology of the New Testament Indeed given the textual diversity that existed during the first century the Jewish Scriptures as they were known read and interpreted in the Greek language provided the basis for much if not most of the interpretive context of the New Testament writers Complete with English translations a glossary of terms an extensive bibliography and helpful indexes this book will give readers a new appreciation of the Septuagint as an important tool for interpreting the New Testament The Rhetoric of Romans Neil Elliott,1990-10-01 The purpose of Romans is addressed here by applying insights from the new rhetoric Elliott holds that Romans is a paraenetic letter written to secure the obedience of faith among Gentile Christians It is within the constraints of that rhetorical situation that the letter's theological argument must be understood Insights of the new rhetoric are applied to the vexing problem of how to integrate Paul's remarks on Torah and his dialogue with a Jewish interlocutor in chs 1-4 with the letter's Gentile Christian audience Careful attention to rhetorical movement shows that Paul addresses the Jew not in order to challenge his covenantal status but to present a paradigm by which the righteousness manifest in Christ may be understood under the rubric of the integrity of God **The Didache in Context** Clayton N. Jefford,2014-04-09 The Didache in Context contains an intriguing look into the background of the Didache exploring the influence of the text upon the development of early Christianity It offers an insightful collection of essays that have been gathered from the research efforts of numerous biblical and patristic scholars from around the world The book seeks to explore questions that relate to the composition of the text itself the history of the role and function of the Didache within early Christian circles and the influence of the manuscript upon early Christian traditions and trends of thought In addition to the numerous individual investigations that are featured here the collection includes a fresh translation of the text in English and a comprehensive up to date bibliography of literature on the Didache Participants in Old Testament Texts and the Translator Regt,2018-07-17 In Biblical Hebrew texts individuals and groups are referred to according to specific rules and conventions How are participants introduced into a text and traced further When is this done by means of proper names when by nouns and when by pronominal elements In this book examples from many Biblical passages illustrate the patterns involved These rules help to solve problems of participant reference in controversial passages But it is not enough to know who are the participants one needs to establish why they are referred to the way they are Main characters in a text are referred to differently from others Certain devices of participant reference help to indicate paragraph boundaries Unusual references to participants aim to be noticed and have rhetorical impact Proper names may occur where one would have expected a pronominal element or vice versa Participants may be mentioned in an unexpected order Special attention is given to such unusual reference

devices and the rhetorical strategies involved climax suspense and implicit comment In a translation these strategies should still be as clear as they are in the source text So how have reference devices been handled in ancient and modern translations

**A Discourse Analysis of Philippians** Jeffrey Reed, 1997-02 This large scale work is the application of modern theories of discourse analysis to questions of Greek grammar especially with respect to the debate over the literary integrity of Philippians Chapter 1 introduces the linguistic theory of discourse analysis defining key terms sketching its historical evolution and outlining its major tenets Chapter 2 sets forth a model of discourse analysis primarily based on the systemic functional theories of M A K Halliday Chapter 3 outlines the historical critical debate over the literary integrity of Philippians Chapter 4 inspects the genre of Philippians challenging rhetorical approaches to the text and proposing instead an epistolary classification viz personal hortatory letter Chapter 5 focuses on the discourse structure of the letter investigating its use of ideational interpersonal and textual functions of Hellenistic Greek In chapter 6 relevant issues of biblical hermeneutics are addressed

Studies in the Greek New Testament Stanley E. Porter, 1996 Studies in the Greek New Testament Theory and Practice is a collection of essays illustrating the relevance of Greek for understanding the New Testament The essays combining theory and practice grow out of the author's abiding concern for the study of Greek utilizing the best insights of modern linguistics and biblical exegesis The first part of the volume devoted to theory concentrates on fundamental linguistic questions Although grammar is emphasized in these essays including the topic of verbal aspect lexicography is also discussed The second part of the volume devoted to practice contains essays on crucial passages such as Matthew 16 19 Luke 18 35 and its parallels Mark 15 2 and the language of Jesus the speeches in Acts Romans 5 Galatians 3 28 29 and 1 Timothy 2 15 In these chapters the author defends provocative positions by utilizing close study of the Greek text
