**Comparative Guide to Sartrean and Deleuzian Selves in Modernist and Post-Modernist Fiction** Onur

Ekler,2021-07-12 This book provides insights into the maze of know thyself through a carefully detailed comparative study of the Sartrean no self and the Deleuzian rhizomic self It is informative argumentative and rich in literary context and mainly focuses on the shift in the notion of self from Sartre's elegiac suicidal and nihilistic tone seen pervasively in modernist fiction to the celebratory Deleuzian self in postmodernist fiction To trace this shift the book presents a comparative analysis of selected novels showing that authors like Bellow and Atwood have adopted a more positive attitude toward the self similar to the Deleuzian rhizomic self while authors like Hedayat and Beckett have more reductionist decadent nihilistic views on the self like the Sartrean no self Moreover as argued in the cases of the protagonists in the selected novels this book further asserts that the Deleuzian rhizomic self might be seen as a possible alternative to help one survive in times of crisis in contrast to the nihilistic Sartrean no self      *Radicalizing Democracy for the Twenty-first century* Jane Mummary,2016-11-18

*Identity Economics* Meral Uzunöz Altan, Meltem İnce Yenilmez, Oğuzhan Altınkoz, Sinem Bağçe, 2024-07-08 Critics contend that identity economics overemphasizes social identities as drivers of economic activity potentially obscuring other elements including personal preferences incentives and market pressures Identity related notions are challenging to measure and quantify meaningfully and rigorously which is one of the most common criticisms Identity economics has long been debated by economic scientists and practitioners but it is still considered to be in its infancy which also draws attention to the absence of a clear consensus and solid empirical support This book fills that gap by providing an in depth analysis of the main claims made in favour of identity economics It explores the reliability of identity based explanations the difficulties with measurement and quantification concerns about overgeneralization and essentialism the function of economic institutions policy implications a lack of agreement and empirical evidence and considerations of intersectionality and multidimensionality The book considers three interrelated aims Firstly it familiarizes readers with the concept of Identity Economics Secondly and essentially it persuades a larger audience of the relevance and creativity of this sector and thirdly it advocates for the applicability of the approach to the field of knowledge The focus of the examination centres around these three objectives Few would argue that identity impacts our decisions but given that solid theory is predicated on good abstraction the real question is whether we lose anything by excluding identity from the theory The book skilfully weaves together the literature from several disciplines including regional gender labour social areas of studies thus academics students and researchers in these fields will find the individual contributions useful for their respective areas of study
