**The 100 Absolutely Unbreakable Laws of Business Success** Brian Tracy, 2000 Why are some people more successful in business Why do some businesses flourish where others fail Renowned business speaker and author Brian Tracy tackles these puzzling questions through a set of principles or universal laws one needs to follow to become successful in the world of business In The 100 Absolutely Unbreakable Laws of Business Success Tracy draws on his thirty years of experience and knowledge to present a set of principles or universal laws that lie behind the success of business people everywhere in every kind of enterprise large and small These are natural laws he says and they work everywhere and for everyone virtually without exception Every year thousands of companies underperform or even fail and millions of individuals underachieve frustrated by thwarted ambition and dreams all because they either attempted to violate or did not know these universal laws But ignorance of the law is no excuse Tracy breaks the 100 laws down into nine major categories Life Success Business Leadership Money Economics Selling Negotiating and Time Management Drawing on a lifetime of observation investigation and experience Tracy not only identifies and defines each law he also reveals its source and foundation whether in science nature philosophy experience or common sense He illustrates how it functions in the world using real life anecdotes and examples shows how to apply it to your life and work through specific questions and practical steps and

exercises that everyone can use sometimes in just minutes to begin the journey toward greater business success

Unlikely Muse Daniel Kornstein, 2010 This trail blazing book explores previously uncharted aspects of law and literature as well as the psychology paradoxes and wonderful mystery of creativity A study of artistic inspiration Unlikely Muse examines and analyzes the lives and works of three very different writers who combine law literature and imagination nineteenth century French novelist Honor de Balzac modernist American poet Wallace Stevens and controversial playwright memoirist Lillian Hellman From the literary careers of those three writers emerge two intertwined and exciting new themes The first theme demonstrates unexpected synergy between law and literature Opening original lines of inquiry Unlikely Muse probes the possible relationship between legal training and artistic creativity A surprisingly large number of great creative artists writers such as Balzac poets such as Stevens painters such as Matisse and composers such as Tchaikovsky studied or practiced law This book asks whether such people became great creative artists because of or despite their legal background Others such as Hellman had no legal training but wrote much about the law This book sketches the intellectual atmosphere and biographical background that shaped these three writers creative process highlighting the impact of the law on their

work The second theme uses these same three writers to focus on the changing role of imagination in literature From Balzac through Stevens to Hellman and beyond the author traces imagination s arc from a positive artistic quality to something that is sometimes more controversial perhaps deceitful and negative In the last few decades ever since Hellman s memoirs were attacked as untrue journalists memoirists and other writers have palmed off works of fiction as non fiction often causing literary scandals This book offers a new theory why this phenomenon is happening and how it should be regarded
