## Successful Face:

**A Good Face for Radio** Eddie Mair, 2017-11-02 Eddie Mair is by his own account one of Britain's most beloved broadcasters. Born in Dundee, Scotland, he has worked in radio all his adult life. From the foothills of commercial radio in his hometown through the sunlit uplands of the BBC in Scotland, he has reached the peaks of his profession with BBC network radio in London. And he's never afraid to work a metaphor beyond endurance. In addition, he's appeared on most of the BBC's TV channels, including ones that are no longer on TV. He witnessed the handover of Hong Kong and once asked Arnold Schwarzenegger a question though he takes no responsibility for either. For nearly twenty years, he has been at the helm of Radio 4's PM, a nightly news round-up that means Eddie works for just one hour a day, giving him plenty of time to knock together these diaries. Whether he's interviewing politicians, getting people to share their personal experiences, or just imparting his favourite zesty chicken recipes, Eddie is never happier than when he is at the microphone. Except when he is at the microphone with a large martini. In truth, his neediness is an irritation to everyone who knows him, and if you buy this book, he might get out of their hair. Eddie's other work as a humanitarian and tireless secret worker for charity is not mentioned in these pages.

*Automated Face Analysis: Emerging Technologies and Research* Kim, Daijin, Sung, Jaewon, 2009-03-31 This book provides related theoretical background to understand the overall configuration and challenging problem of automated face analysis systems. Provided by publisher.

**Biometric Authentication** David Zhang, Anil K. Jain, 2004-07 This book constitutes the refereed proceedings of the First International Conference on Biometric Authentication ICBA 2004 held in Hong Kong, China, in July 2004. The 104 revised full papers presented were carefully reviewed and selected from 157 submissions. Also included are summaries of 3 biometric competitions on fingerprint verification, face authentication, and signature verification. The papers are organized in topical sections on face, fingerprint, iris, signature, speech, biometric fusion, and risk analysis, and other biometric issues.

*Forensic Face Matching* Markus Bindemann, 2021-01-07 In everyday life, we identify faces regularly and seemingly with great ease. One might assume this to be a straightforward and highly accurate task. However, we are poor at identifying the faces of unfamiliar people who we have never met before, despite the fact that many important everyday tasks depend on this. Forensic face matching requires the comparison of two face photographs of a person who is not known to the observer. This seemingly simple task is critical for a wide range of security tasks, such as person identification at airports and borders, passport issuance and renewal, and criminal identification in police investigations. Despite its ubiquity, face matching is highly prone to error, even under conditions that are designed to maximally facilitate this task. For this reason, face matching has been studied extensively in Psychology, with the bulk of the research conducted

since 2010 Forensic face Matching provides readers with a wide ranging detailed and critical overview of facial comparison and face matching providing insights into its application efficacy and limitations in occupational settings and of current scientific knowledge of this task      Communication, Technology and Aging Neil Charness, PhD, Denise Park, PhD, Bernhard Sabel, PhD, 2000-11-08 In this volume acknowledged experts present state of the art reviews and empirical data on how aging affects personal communication and how technology can contribute to improving communication efficacy Chapters are divided into three sections The first section provides a basic overview of issues in this field The second section deals with socio cultural issues The final section addresses issues around training and compensation The volume contains new research on heretofore unexplored areas within the field of aging such as computer use and design internet use and computer literacy For gerontologists psychologists and other professionals interested in aging      **Artificial Intelligence and Mobile Services - AIMS 2023** Yujiu Yang, Xiaohui Wang, Liang-Jie Zhang, 2023-09-30 This book constitutes the refereed proceedings of the 12th International Conference on Artificial Intelligence and Mobile Services AIMS 2023 Held as Part of the Services Conference Federation SCF 2023 Honolulu HI USA September 23 26 2023 The 9 full papers presented together and selected from 16 submissions The conference focuses on AI modeling AI analysis AI architecture AI management AI engineering mobile backend as a service MBaaS and user experience of AI mobile services      **Alan Leo's Dictionary of Astrology** Alan Leo, 2010-12 In 1917 at the height of his fame Alan Leo was charged with fortune telling which was illegal and taken to court He had been tried on similar charges in 1914 which had been dismissed But the charges brought in 1917 stuck Leo was given a hefty fine As winning on appeal seemed unlikely Leo paid the fine and went to Cornwall for a rest where on 30 August 1917 he unexpectedly died of a cerebral hemorrhage aged 57 His friends blamed it on the strain of the court proceedings At the time of his death this Dictionary was one of Leo s unfinished projects Installments of the Dictionary had appeared in Leo s monthly magazine Modern Astrology up to the end of the article Horoscope pgs 130 136 That the project was long standing is hinted by the article on Hindu Astrology pgs 76 101 written by Sepharial some years before and which Leo had presumably purloined More material was in preparation but Leo s untimely death brought matters to a halt By the early 1920 s Vivian Robson had succeeded Leo as editor of Modern Astrology a post he shared with Bessie Leo the widow An intense scholarly type Robson stumbled across bound copies of Leo s incomplete book while he was compiling his own astrological dictionary At the suggestion of Bessie Robson abandoned his dictionary and set about to complete Leo s using the many notes and fragments that Leo had left Which was published in 1929 as Alan Leo s final book Shortly thereafter Bessie and Vivian had a falling out whereupon Vivian left This book was to be an orphan Like its precursor James Wilson s Dictionary of Astrology of 1819 Leo s book contains several full blown monographs Both books have lengthy entries on Horary Astrology for example These articles tend to break the flow of the book For this reason the current publishers Astro America have added headings to each page that the reader may know whereabouts in the book he may be The publishers have also added a list of principal

articles to the front as well as a complete list of entries forming an index in the back Alan Leo's Dictionary of Astrology is again in print Profit from the wealth of knowledge it contains      **Fifty Ways to Teach Online** Justin Shewell, 2016-10-31

**Child Maltreatment ...**, 2004 **Organization and Management of Virtual Teams** Andreas Pfneisl, 2001-10-10 Inhaltsangabe Abstract The idea to write my master s thesis on Organization and Management of Virtual Teams arose during the 6th term of my studies which was an exceptional term in many ways I was part of several teams then which is nothing extraordinary I guess What made those teams special were the people I was working with or better I got the possibility to work with I had worked in teams before in the course of my studies and had had some really bad experience with lazy and unproductive people who simply couldn t or did not want to identify with tasks and goals of various projects What was so special with those teams in the summer term of 1999 was that most of the team members could identify with the goals set they worked they tried really hard to stick to deadlines and targets they took justified criticism as positive feedback they were punctual they communicated and so on in short I was part of some very very productive purposeful teams one of

the results was that I did my most successful term that term the work of nearly two terms during this one Well two seminars during this spring were dealing with the topic Virtual teams and I got really interested in So I decided to do my master s thesis on this subject I found a nice and easy going supervisor who was interested in the topic as well and I started to write on the thesis at the end of my stay in Stockholm Sweden as an ERASMUS exchange student But why this topic why a thesis on virtual teams Several reasons should be mentioned My interest in the topic Since I am studying Wirtschaftsinformatik Economical Computer Science a mixture between economics and computer science I am interested in both economics and technology What topic suits that combination better than Virtual Teams which have to work for economic reasons across distances and organizational borders all this with the help of the latest technology The challenge Not a lot was written about the subject Virtual Teams when I started to look for literature suitable for my thesis I hardly could find books in Sweden and the ones I finally chose I had to order from the US which is also a reason why this thesis is written in English because all the literature I used was written in English So it was quite a challenge but exciting to write about something new Furthermore as I did part of the thesis in Sweden and the other part in Austria I had the opportunity to do *Computer Vision - ACCV 2014 Workshops* C.
