Women in America Kim Marie Vaz, 1994-11-02 This stimulating volume challenges the tendency to represent African American women's experiences as a monolithic whole. The interdisciplinary approach organized around the theme of activism enables an unusual and inventive selection of topics to be presented. The history, culture, sociology, and psychology of black women are richly represented. This Woman's Work Osizwe Raena Jamila Harwell, 2016-06-07 This Woman's Work presents a social history and critical biography based on the life of award-winning writer Bebe Moore Campbell (1950-2006). It offers the personal story of a popular novelist, journalist, and mental health advocate. This book examines Campbell's life and activism in two periods: first as a student at the University of Pittsburgh during the 1960s black student movement, and second as a mental health advocate near the end of her life in 2006. It describes Campbell's activism within the Black Action Society from 1967 to 1971 and her negotiation of the Black Nationalist ideologies espoused during the 1960s. The book also explores Campbell's later involvement in the National Alliance on Mental Illness (NAMI), her role as a national spokesperson, and the local activism that sparked the birth of the NAMI Urban Los Angeles chapter, which served black and Latino communities. 1999-2006 Adjacent to her activist work, Campbell's first novel, *Your Blues Ain't Like Mine*, connects to her emerging political consciousness related to race and gender and the concern for racial violence during the US black liberation period from 1950 to 1970. Similarly, Campbell's final novel, *72 Hour Hold*, is examined closely for its connection to her activism as well as the sociopolitical commentary, emphasis on mental health disparities, coping with mental illness, and advocacy in black communities. As a writer and activist, Campbell immersed her readers in immediately relevant historical and sociopolitical matters. *This Woman's Work* is the first full-length biography of Bebe Moore Campbell and details the seamless marriage of her fiction writing and community activism. **Working With African American Males** Larry E. Davis, 1999 The contributors to this book write from their varying perspectives as educators, psychiatrists, anthropologists, sociologists, psychologists, and social workers to provide a broad interdisciplinary view of the possible solutions to the different problems facing African American men. **Military Families** A. Sue Goodman, 1990 The Columbia Guide to Contemporary African American Fiction Darryl Dickson-Carr, 2005-12-06 In both the literal and metaphorical senses, it seemed as if 1970s America was running out of gas. The decade not only witnessed long lines at gas stations but a citizenry that had grown weary and disillusioned. High unemployment, runaway inflation, and the energy crisis, caused in part by US dependence on Arab oil, characterized an increasingly bleak economic situation. As Edward D. Berkowitz demonstrates, the end of the postwar economic boom, Watergate, and defeat in Vietnam led to an unraveling of the national consensus. During the decade, ideas about the United States, how it should be governed, and how its economy should be managed changed dramatically. Berkowitz argues that the postwar faith in sweeping social programs and a global US mission was replaced by a more skeptical attitude about government's ability to positively affect society. From Woody Allen to Watergate, from the decline of the steel industry to the rise of Bill Gates, and from Saturday Night Fever to the Sunday morning fervor of

evangelical preachers Berkowitz captures the history tone and spirit of the seventies He explores the decade s major political events and movements including the rise and fall of d tente congressional reform changes in healthcare policies and the hostage crisis in Iran The seventies also gave birth to several social movements and the rights revolution in which women gays and lesbians and people with disabilities all successfully fought for greater legal and social recognition At the same time reaction to these social movements as well as the issue of abortion introduced a new facet into American political life the rise of powerful politically conservative religious organizations and activists Berkowitz also considers important shifts in American popular culture recounting the creative renaissance in American film as well as the birth of the Hollywood blockbuster He discusses how television programs such as All in the Family and Charlie s Angels offered Americans both a reflection of and an escape from the problems gripping the country
