Suetonii Tranquilli Vita Domitiani** Suetonius,Rodger F. Gephart,1922 Domitian Suetonius,2015-08-30 Gaius Suetonius Tranquillus commonly known as Suetonius c 69 after 122 AD was a Roman historian belonging to the equestrian order who wrote during the early Imperial era of the Roman Empire His most important surviving work is a set of biographies of twelve successive Roman rulers from Julius Caesar to Domitian entitled *De Vita Caesarum* He recorded the earliest accounts of Julius Caesar s epileptic seizures Other works by Suetonius concern the daily life of Rome politics oratory and the lives of famous writers including poets historians and grammarians A few of these books have partially survived but many have been lost Younger brother of Titus second son of Vespasian and third emperor of the Flavian dynasty Recorded as having gained the throne through deliberately letting his brother die of a fever During Titus rule he had caused dissent and had sought the throne through rebellion From the beginning of his reign Domitian ruled as a complete autocrat partly because of his lack of political skills but also because of his own nature Having led a solitary early life Domitian was suspicious of those around him a difficult situation which gradually got worse Domitian s provincial government was so carefully supervised that Suetonius admits that the Empire enjoyed a period of unusually good government and security Domitian s policy of employing members of the equestrian class rather than his own freedmen for some important posts was also an innovation The Empire s finances which the recklessness of Titus had thrown into confusion were restored despite building projects and foreign wars Deeply religious Domitian built temples and established ceremonies and even tried to enforce public morality by law Domitian personally took part in battles in Germany The latter part of his reign saw increasing trouble on the lower Danube from the Dacians a tribe occupying roughly what is today Romania Led by their king Decebalus the Dacians invaded the Empire in 85 AD The war ended in 88 in a compromise peace which left Decebalus as king and gave him Roman foreign aid in return for his promise to help defend the frontier One of the reasons Domitian failed to crush the Dacians was a revolt in Germany by the governor Antonius Saturninus The revolt was quickly suppressed but from then on Suetonius informs us Domitian s already suspicious temper grew steadily worse Those closest to him suffered the most and after a reign of terror at the imperial court Domitian was murdered in 96 AD the group that killed him according to Suetonius included his wife Domitia Longina and possibly his successor Nerva The Senate which

had always hated him quickly condemned his memory and repealed his acts and Domitian joined the ranks of the tyrants of considerable accomplishments but evil memory He was the last of the Flavian emperors and his murder marked the beginning of the period of the so called Five Good Emperors **The Women of Pliny's Letters** Jo-Ann Shelton,2013 The large collection of letters by Pliny the Younger includes a number of women among its addressees and Pliny also gives us plentiful information about many women of his acquaintance This book brings together this material to build up a portrait of a peer group of women in their social setting **Approaching Facial Difference** Patricia Skinner,Emily Cock,2018-05-03 What is a face and how does it relate to personhood Approaching Facial Difference Past and Present offers an interdisciplinary exploration of the many ways in which faces have been represented in the past and present focusing on the issue of facial difference and disfigurement read in the light of shifting ideas of beauty and ugliness Faces are central to all human social interactions yet their study has been much overlooked by disability scholars and historians of medicine alike By examining the main linguistic visual and material approaches to the face from antiquity to contemporary times contributors place facial diversity at the heart of our historical and cultural narratives This cutting edge collection of essays will be an invaluable resource for humanities scholars working across history literature and visual culture as well as modern practitioners in education and psychology Aspects of Roman History 31 BC-AD 117 Richard Alston,2013-11-07 This new edition of Aspects of Roman History 31 BC AD 117 provides an easily accessible guide to the history of the early Roman Empire Taking the reader through the major political events of the crucial first 150 years of Roman imperial history from the Empire s foundation under Augustus to the height of its power under Trajan the book examines the emperors and key events that shaped Rome s institutions and political form Blending social and economic history with political history Richard Alston s revised edition leads students through important issues introducing sources exploring techniques by which those sources might be read and encouraging students to develop their historical judgement The book includes chapters on each of the emperors in this period exploring the successes and failures of each reign and how these shaped the empire sections on social and economic history including the core issues of slavery social mobility economic development and change gender relations the rise of new religions and cultural change in the Empire an expanded timeframe providing more information on the foundation of the imperial system under Augustus and the issues relating to Augustan Rome a glossary and further reading section broken down by chapter This expanded and revised edition of Aspects of Roman History covering an additional 45 years of history from Actium to the death of Augustus provides an invaluable introduction to Roman Imperial history surveying the way in which the Roman Empire changed the world and offering critical perspectives on how we might understand that transformation It is an important resource for any student of this crucial and formative period in Roman history A Monument to Dynasty and Death Nathan T. Elkins,2019-09-03 Go behind the scenes to discover why the Colosseum was the king of amphitheaters in the Roman world a paragon of Roman engineering prowess Early one morning in

80 CE the Colosseum roared to life with the deafening cheers of tens of thousands of spectators as the emperor Titus inaugurated the new amphitheater with one hundred days of bloody spectacles. These games were much anticipated for the new amphitheater had been under construction for a decade. Home to spectacles involving exotic beasts, elaborate executions of criminals, gladiatorial combats, and even when flooded, small scale naval battles, the building itself was also a marvel. Rising to a height of approximately 15 stories and occupying an area of 6 acres, more than four times the size of a modern football field, the Colosseum was the largest of all amphitheaters in the Roman Empire. In *A Monument to Dynasty and Death*, Nathan T. Elkins tells the story of the Colosseum's construction under Vespasian, its dedication under Titus, and further enhancements added under Domitian. The Colosseum, Elkins argues, was far more than a lavish entertainment venue; it was an ideologically charged monument to the new dynasty, its aspirations, and its achievements. *A Monument to Dynasty and Death* takes readers on a behind-the-scenes tour of the Colosseum, from the subterranean tunnels where elevators and cages transported gladiators and animals to the blood-soaked arena floor, to the imperial viewing box, to the amphitheater's decoration and amenities such as fountains and an awning to shade spectators. Trained as an archaeologist, an art historian, and a historian of ancient Rome, Elkins deploys an interdisciplinary approach that draws on contemporary historical texts, inscriptions, archaeology, and visual evidence to convey the layered ideological messages communicated by the Colosseum. This engaging book is an excellent resource for classes on Roman art, architecture, history, civilization, and sport and spectacle.

Flavian Responses to Nero's Rome Mark Heerink, Esther Meijer, 2025-10-01 In this interdisciplinary volume, a team of classicists, historians, and archaeologists examines how the memory of the infamous emperor Nero was negotiated in different contexts and by different people during the ensuing Flavian age of imperial Rome. The contributions show different Flavian responses to Nero's complicated legacy, while some aspects of his memory were reinforced, others were erased. Emphasizing the constant and diverse nature of this negotiation, this book proposes a nuanced interpretation of both the Flavian age itself and its relation to Nero's Rome. By combining the study of these strategies with architectural approaches, archaeology, and memory studies, this volume offers a multifaceted picture of Roman civilization at a crucial turning point and, as such, will have something to offer anyone interested in classics, ancient history, and archaeology.

Conquerors and Slaves Keith Hopkins, 1981-01-31 The enormous size of the Roman empire and the length of time it endured call for an understanding of the institutions which sustained it. In this book, Keith Hopkins, who is both classicist and sociologist, uses various sociological concepts and methods to gain new insights into how traditional Roman institutions changed as the Romans acquired their empire. He examines the chain reactions resulting from increased wealth, various aspects of slavery, especially manumission, and the cost of freedom, the curious phenomenon of the political power wielded by eunuchs at court, and in the final chapter, he discusses the Roman emperor's divinity and the circulation of untrue stories which were a currency of the political system. Professor Hopkins has developed an exciting approach to social questions in antiquity, and his book should be of interest to

all students of ancient history and of historical sociology

Rome's Enemies Within John S

McHugh,2024-10-30 The greatest danger to Roman emperors was the threat of deadly conspiracies arising among the Senate the imperial court or even their own families All the emperors that reigned from Augustus to the end of the first century AD faced such efforts to overthrow or assassinate them John McHugh uncovers these conspiracies narrating them and seeking to explain them The underlying cause in many cases was the decline in influence patronage and status granted by emperors to the Senatorial class leading some to seek power for themselves or a more generous candidate Attempted assassinations or coups led the emperors to mistrust the Senate and rely more on freedmen causing more resentment Paranoid emperors often reacted to the merest hint of treason real or imagined with punishments and executions leading more of those around them to consider desperate measures out of self preservation And of course amid this vicious circle of poisonous mistrust there were ambitious family members promoting their own or their offspring s claims to the purple and the duplicitous Praetorian Guard John McHugh brings to light a century of assassination conspiracy and betrayal exploring the motives and aims of the plotters and the bloody cost of success or failure
