The Politics Of Public Memory:

The Politics of Public Memory Martha K. Norkunas, 1993-07-01 This book examines American public culture and the means by which communities in the U S reconstruct the past and reinterpret the present in the development of tourism Norkunas shows how public culture is not confined to just museums or monuments but can be constructed on many different levels and in different settings such as community ethnicity natural setting environment literary landscape and history In her case study of Monterey the author explores the particular ideologies that prompt the community to represent itself in tourism and that also act to legitimate the current social structure

The Politics of Public Memory in Turkey Esra Özyürek, 2007-01-18 Turkish society is frequently accused of having amnesia It has been said that there is no social memory in Turkey before Mustafa Kemal Atatürk founded modern Turkey after World War I Indeed in 1923 the newly founded Turkish Republic committed to a modernist future by erasing the memory of its Ottoman past Now almost eighty years after the establishment of the republic the grandchildren of the founders have a different relationship with history New generations make every effort to remember record and reconcile earlier periods The multiple personalized representations of the past that they have recovered allow contemporary Turkish citizens to create alternative identities for themselves and their communities Unlike its futuristic and homogenizing character at the turn of the twentieth century Turkish nationalism today uses memory to generate varied narratives for the nation and its minority groups Contributors to this volume come from such diverse disciplines as anthropology comparative literature and sociology but they share a common understanding of contemporary Turkey and how its different representations of the past have become metaphors through which individuals and groups define their cultural identity and political position They explore the ways people challenge reaffirm or transform the concepts of history nation homeland and Republic through acts of memory effectively demonstrating that memory can be both the basis of cultural reproduction and a form of resistance

American Relics and the Politics of Public Memory Matthew Dennis, 2023-04-28 The gold epaulettes that George Washington wore into battle A Union soldier's bloody shirt in the wake of the Civil War A crushed wristwatch after the 9/11 attacks The bullet-riddled door of the Pulse nightclub Volatile and shape-shifting relics have long played a role in memorializing the American past acting as physical reminders of hard-won battles mass tragedies and political triumphs Surveying the expanse of U S history *American Relics and the Politics of Public Memory* shows how these objects have articulated glory courage and national greatness as well as horror defeat and oppression While relics mostly signified heroism in the nation's early years increasingly they have acquired a new purpose commemorating victimhood The atrocious artifacts of lynching and the looted remains of Native American graves were later transformed into shameful things exposing ongoing racial violence and advancing calls for equality and civil rights Matthew Dennis pursues this history of fraught public objects and assesses the emergence of new venues of memorialization such as virtual and digital spaces Through it all relics continue to fundamentally ground and shape U S public memory in its

Exposing how memory is constructed and mediated in different societies this collection explores particular contexts to identify links between the politics of memory media representations and the politics of justice questioning what we think we know and understand about recent history *The Politics of War Memory and Commemoration* T.G. Ashplant, Graham Dawson, Michael Roper, 2013-01-11

International in scope presents a range of case studies from a diverse range of national contexts War memory and commemoration has had an increasingly high profile in public and academic debates in recent years *Commemorations* John R. Gillis, 2018-06-05

Memory is as central to modern politics as politics is central to modern memory We are so accustomed to living in a forest of monuments to having the past represented to us through museums historic sites and public sculpture that we easily lose sight of the recent origins and diverse meanings of these uniquely modern phenomena In this volume leading historians anthropologists and ethnographers explore the relationship between collective memory and national identity in diverse cultures throughout history Placing commemorations in their historical settings the contributors disclose the contested nature of these monuments by showing how groups and individuals struggle to shape the past to their own ends The volume is introduced by John Gillis's broad overview of the development of public memory in relation to the history of the nation state Other contributions address the usefulness of identity as a cross cultural concept Richard Handler the connection between identity heritage and history David Lowenthal national memory in early modern England David Cressy commemoration in Cleveland John Bodnar the museum and the politics of social control in modern Iraq Eric Davis invented tradition and collective memory in Israel Yael Zerubavel black emancipation and the civil war monument Kirk Savage memory and naming in the Great War Thomas Laqueur American commemoration of World War I Kurt Piehler art commerce and the production of memory in France after World War I Daniel Sherman historic preservation in twentieth century Germany Rudy Koshar the struggle over French identity in the early twentieth century Herman Lebovics and the commemoration of concentration camps in the new Germany Claudia Koonz **Public Memory, Public Media and the Politics of Justice** Astrid Erll, Philip J. Lee, Pradip Thomas, 2012 **Forever Vietnam** David Kieran, 2014

Four decades after its end the American war in Vietnam still haunts the nation's collective memory Its lessons real and imagined continue to shape government policies and military strategies while the divisions it spawned infect domestic politics and fuel the so called culture wars In *Forever Vietnam* David Kieran shows how the contested memory of the Vietnam War has affected the commemoration of other events and how those acts of remembrance have influenced postwar debates over the conduct and consequences of American foreign policy Kieran focuses his analysis on the recent remembrance of six events three of which occurred before the Vietnam War and three after it ended The first group includes the siege of the Alamo in 1836 the incarceration of Union troops at Andersonville during the Civil War and the experience of American combat troops during World War II The second comprises the 1993 U S intervention in Somalia the crash of United Airlines Flight 93 on September

11 2001 and the Iraq and Afghanistan wars In each case a range of actors military veterans policymakers memorial planners and the general public used memorial practices associated with the Vietnam War to reinterpret the contemporary significance of past events A PBS program about Andersonville sought to cultivate a sense of national responsibility for the My Lai massacre A group of Vietnam veterans occupied the Alamo in 1985 seeing themselves as patriotic heirs to another lost cause A World War II veteran published a memoir in 1980 that reads like a narrative of combat in Vietnam Through these and other examples Forever Vietnam reveals not only the persistence of the past in public memory but also its malleability in the service of the political present

Murder, the Media, and the Politics of Public Feelings Jennifer Petersen, 2011 In 1998 the horrific murders of Matthew Shepard a gay man living in Laramie Wyoming and James Byrd Jr an African American man dragged to his death in Jasper Texas provoked a passionate public outrage The intense media coverage of the murders made moments of violence based in racism and homophobia highly visible which eventually led to the passage of The Matthew Shepard and James Byrd Jr Hate Crimes Prevention Act in 2009 The role the media played in cultivating shaping and directing the collective emotional response toward these crimes is the subject of this gripping new book by Jennifer Petersen Tracing the emotional exchange from news stories to the creation of law Petersen calls for an approach to media and democratic politics that takes into account the role of affect in the political and legal life of the nation

Present Pasts Andreas Huyssen, 2003 This book analyzes the relation of public memory to history forgetting and selective memory in three late twentieth century cities that have confronted major social or political traumas Berlin Buenos Aires and New York
