The Poor and the Powerless Clive Y. Thomas, 1988 Argues that another form of development by the poor and for the poor is not only possible but necessary **The Poor and the Powerless** Clive Yolande Thomas, 1988 Dependency and Socialism in the Modern Caribbean Euclid A. Rose, 2002-01-01 Was the Anglophone Caribbean condemned by its colonial history to permanent conditions of dependency and by Cold War geopolitical realities to international interventionism In *Dependency and Socialism in the Modern Caribbean* Euclid Rose focuses upon the efforts made by the English speaking Caribbean through case studies that compare and contrast the political economies of Guyana Jamaica and Grenada to break out of the legacy of colonial dependency and underdevelopment through the implementation of a Caribbean brand of socialism The work considers the Caribbean's adoption of Fabian style socialism as an alternative to capitalist development and how these socialist policies were impacted by differences in infrastructure capacity economic and social resources and political agendas It highlights the pivotal role of race and class and the hitherto little studied impact of religion on the region's political economy Moreover the study calculates the impact of the global economy upon Caribbean socio economic conditions and the ideological geopolitical and strategic implications of the Cold War and the Caribbean's socialist alignment on the nature character and intensity of British and American interventionism in the region A must read for political economists in search of a greater understanding of the postcolonial political economy of the Caribbean and Latin America

The Caribbean Denis Benn, 2004 The study is concerned mainly with the growth and development of political ideas in the Caribbean since the latter half of the eighteenth century It attempts an analysis of the more significant intellectual formulations which have emerged in the region during the period it includes reference to some of the major economic theories which have shaped the Caribbean reality over the years Introduction p xi **The Confounding Island** Orlando Patterson, 2019-11-12 The preeminent sociologist and National Book Award winning author of *Freedom in the Making of Western Culture* grapples with the paradox of his homeland its remarkable achievements amid continuing struggles since independence There are few places more puzzling than Jamaica Jamaicans claim their home has more churches per square mile than any other country yet it is one of the most murderous nations in the world Its reggae superstars and celebrity sprinters outshine musicians and athletes in countries hundreds of times its size Jamaica's economy is anemic and too many of its people impoverished yet they are according to international surveys some of the happiest on earth In *The Confounding Island* Orlando Patterson returns to the place of his birth to reckon with its history and culture Patterson investigates the failures of Jamaica's postcolonial democracy exploring why the country has been unable to achieve broad economic growth and why its free elections and stable government have been unable to address violence and poverty He takes us inside the island's passion for cricket and the unparalleled international success of its local musical traditions He offers a fresh answer to a question that has bedeviled sports fans Why are Jamaican runners so fast Jamaica's successes and struggles expose

something fundamental about the world we live in If we look closely at the Jamaican example we see the central dilemmas of globalization economic development poverty reduction and postcolonial politics thrown into stark relief

Canterbury,2018-05-15 The large scale extraction of natural resources for sale in capitalist markets is not a new phenomenon but in recent years global demand for resources has increased leading to greater attention to the role of resource extraction in the development of the exporting countries The term neoeextractivism was coined to refer to the complex of state private sector policies intended to utilize the income from natural resources sales for development objectives and for improving the lives of a country s citizens However this book argues that neoeextractivism is merely another conduit for capitalist development reinforcing the position of elites with few benefits for working people With particular reference to the role of neoeextractivism within Latin America and the Caribbean using Guyana as a case study the book aims to provide readers with the tools they need to critically analyze neoeextractivism as a development model identifying alternative paths for improving the human condition This book will be of interest to academics and students in the
