

The Presence of Eternity: History and Eschatology by RUDOLF BULTMANN

The nature and meaning of history are arrestingly explored in this new book by one of Europe's great contemporary thinkers.

Professor Bultmann presents a concise survey of what man has thought about his own destiny from the origins of history in myth up to the ideas of Teilhard. The views of each man who has made a permanent contribution to the philosophy of history—the Hebrew prophets, the Greeks, Paul, Augustine, Hegel, and Spengler among others—are perceptively set forth and evaluated.

The Presence Of Eternity History And Eschatology:

The Presence of Eternity Rudolf Bultmann, 1957 Bultmann begins with a discussion of ancient cyclical understandings of history before exploring the fundamental eschatological shift in historical understanding Bultmann credits the Judeo-Christian tradition with reconceptualizing history as linear with a clear end culminating in the second coming of Christ But as Bultmann argues this new understanding of history was not without its own problems The early church's profound disappointment in Christ's failure to return forced a Christian reinterpretation of history a teleological one that flourished in the Renaissance and eventuated surprisingly in Marxism According to Bultmann this teleology neglects the individual's participation in the Christ event In the end Bultmann draws on Paul and John to challenge this purely teleological approach and ground a Christian understanding of history and eschatology in the historical event of Christ that is both timeless and immediately present Only through this Christ event both in the past and future does life find eternal meaning From publisher's site

History and Eschatology Rudolf Bultmann, 1957 **History and Eschatology** Rudolf Bultmann, 1962 *The Semantics of Qur'anic Language: al-Āhira* Ghassan el Masri, 2020-06-02 In *The Semantics of Qur'anic Language* al-ira Ghassan el Masri offers a semantic study of the concept al-ira the End in the Qur'an The study is prefaced with a detailed account of the late antique concept of etymologia Semantic Etymology In his work he demonstrates the necessity of this concept for appreciating the Qur'an's rhetorical strategies for claiming discursive authority in the Abrahamic theological tradition The author applies the etymological tool to his investigation of the theological significance of al-ira and concludes that the concept is polysemous and tolerates a large variety of interpretations The work is unique in that it draws extensively on Biblical material and presents a plethora of pre-Islamic poetry verses in the analysis of the concept The Continuum History of Apocalypticism Bernard McGinn, John J. Collins, Stephen Stein, 2003-10-01 Apocalypticism has been the source of hope and courage for the oppressed but has also given rise on many occasions to fanaticism and intolerance The essays in this volume seek neither to apologize for the extravagance of apocalyptic thinkers nor to excuse the perverse actions of some of their followers Rather they strive to understand a powerful perhaps even indispensable element in the history of Western religions that has been the source of both good and evil and still is yet today The Editors The Continuum History of Apocalypticism is a 1 volume select edition of the 3 vol Encyclopedia of Apocalypticism first published in 1998 The main historical surveys that provided the spine of the Encyclopedia have been retained while essays of a thematic nature and a few whose subject matter is not central to the historical development have been omitted The work begins with 8 articles on The Origins of Apocalypticism in the Ancient World extending from ancient Near Eastern myth through the Old Testament to the Dead Sea Scrolls Jesus Paul and the Book of Revelation Next are 7 articles on Apocalyptic Traditions from Late Antiquity to ca 1800 C E including early Christian theology radical movements in the Middle Ages and both Jewish and Islamic apocalypticism in the classic period The final section Apocalypticism in the Modern Age includes 10 articles on

apocalypticism in the Americas in Western and Eastern Europe and finally in modern Judaism and modern Islam

Language, Hermeneutic, and History James M. Robinson, 2008-01-01 James M Robinson together with John B Cobb published a series of three volumes entitled *New Frontiers in Theology* *The Later Heidegger and Theology* 1963 *The New Hermeneutic* 1964 and *Theology as History* 1967 Here they introduced the new directions that Continental theology was taking after the break caused by the Nazi period and World War II In each volume it was Robinson's assignment to write an extensive introduction of the new direction *The German Discussion of the Later Heidegger Hermeneutic* since Barth and *Revelation as Word and as History* Then others contributed essays These three seminar introductions are here brought together in a single volume which thus is the basic tool for getting into the Continental theology of the second half of the twentieth century

Apocalypse without God Ben Jones, 2022-04-21 Explains why apocalyptic thought despite often being dismissed as bizarre has persistent appeal in political life

Bultmann Unlocked Tim Labron, 2011-01-13 [Philosophies of Religion](#) Timothy Knepper, 2022-11-03 In this global introduction to philosophy of religion you begin not with a single tradition but with religious philosophies from East Asia South Asia West Africa and Native North America alongside the classical Abrahamic and modern European traditions Matching this diversity of traditions chapters are organized around questions that acknowledge there is no single understanding of any god or ultimate reality Instead you approach six different traditions of philosophizing about religion by asking questions about the journeys of both the self and the cosmos such as What is my path and Where did the cosmos come from Accompanied by introductory materials and an extensive glossary each chapter includes learning objectives questions for discussion and suggested primary and secondary sources The categories of religion and philosophy are interrogated throughout Equipped with study tools and universal questions about the self and the cosmos *Philosophies of Religion A Global and Critical Introduction* shows you how to philosophize about religions around the world

On the Apocalyptic and Human Agency Kirsi Stjerna, Deanna A. Thompson, 2014-10-21 There is little doubt about the fundamental importance of both Augustine of Hippo and Martin Luther for western theology and anthropology Both continue to invite critical debate on a host of issues that persist in their contemporary relevance such as questions about human identity and destiny This engaging volume brings together a group of scholars pursuing new directions in Lutheran and Augustinian scholarship on these issues The first section on Luther and the Apocalyptic highlights
