Shaw, 2017-07-05 The first monograph on a Surrealist cult classic Reading Claude Cahun's Disavowals offers a comprehensive account of Cahun's most important published work *Aveux non avenues* Disavowals 1930 Jennifer L Shaw provides an encompassing interpretation of this groundbreaking work paying careful attention to the complex interrelationship between the photomontages and writings of *Aveux non avenues* This study argues that the texts and images of *Aveux non avenues* not only explore Cahun's own subjectivity they formulate a trenchant social and cultural critique Shaw explores how Cahun's work both calls into question the dominant culture of interwar France with its traditional gender roles religious conservatism and pronatalism and takes to task the era's artistic avant garde and in particular its models of desire This volume cuts across the disciplinary boundaries of interwar art studies demonstrating how one artist's personal exploration intervened in wider contemporary debates about the purpose of art the role of women in French culture and the status of homosexuality in the aftermath of World War I **The Visual World of Shadows** Roberto Casati, Patrick Cavanagh, 2019-05-28 How the perception of shadows studied by vision scientists and visual artists reveals the inner workings of the visual system In *The Visual World of Shadows* Roberto Casati and Patrick Cavanagh examine how the perception of shadows as studied by vision scientists and visual artists reveals the inner workings of the visual system Shadows are at once a massive problem for vision which must distinguish them from objects or material features of objects and a resource signaling the presence location shape and size of objects Casati and Cavanagh draw up an inventory of information retrievable from shadows showing their amazing variety They present an overview of the visual system distinguishing between measurement and inference They discuss the shadow mission the work done by the visual brain to

The Century Alain Badiou,2018-05-18 Everywhere the twentieth century has been judged and condemned the century of totalitarian terror of utopian and criminal ideologies of empty illusions of genocides of false avant gardes of democratic realism everywhere replaced by abstraction It is not Badiou s wish to plead for an accused that is perfectly capable of defending itself without the authors aid Nor does he seek to proclaim like Frantz the hero of Sartre s Prisoners of Altona I have taken the century on my shoulders and I have said I will answer for it The Century simply aims to examine what this accursed century from within its own unfolding said that it was Badiou s proposal is to reopen the dossier on the century not from the angle of those wise and sated judges we too often claim to be but from the standpoint of the century itself

Vertigo Andrea Cavalletti,2022-01-04 Reading philosophy through the lens of Alfred Hitchcock s Vertigo Andrea Cavalletti shows why for two centuries major philosophers have come to think of vertigo as intrinsically part of philosophy itself Fear of the void terror of heights everyone knows what acrophobia is and many suffer from it Before Freud the so called sciences of the mind reserved a place of honor for vertigo in the domain of mental pathologies The fear of falling which is also the fear of giving in to the temptation to let oneself fall has long been understood as a destabilizing yet intoxicating element without which consciousness itself was inconceivable Some went so far as to induce it in patients through frightening rotational therapies In a less cruel but no less radical way vertigo also staked its claim in philosophy If Montaigne and Pascal could still consider it a perturbation of reason and a trick of the imagination which had to be subdued subsequent thinkers stopped considering it an occasional imaginative instability to be overcome It came rather to be seen as intrinsic to reason such that identity manifests itself as tottering kinetic opaque and indeed vertiginous Andrea Cavalletti s stunning book sets this critique of stable consciousness beside one of Hitchcock s most famous thrillers a drama of identity and its abysses Hitchcock s brilliant combination of a dolly and a zoom to recreate the effect of falling describes that double movement of pushing away and bringing closer which is the habitual condition of the subject and of intersubjectivity To reach myself I must see myself from the bottom of the abyss with the eyes of another Only then does my here flee down there and from there attract me From classical medicine and from the role of imagination in our biopolitical world to the very heart of philosophy from Hollywood to Heidegger s being toward death Cavalletti brings out the vertiginous nature of identity

The War of 1812 Bud Hannings,2012-09-17 Although the American Revolution ended in 1783 tensions between the United States and Britain over disruptions to American trade the impressment of American merchant sailors by British ships

and British support of Native American resistance to American expansion erupted in another military conflict nearly three decades later Scarcely remembered in England today the War of 1812 stood as a veritable second war of independence to the victorious Americans and ushered in an extended period of peaceful relations and trade between the United States and Britain This major reference work offers a comprehensive day by day chronology of the War of 1812 including its slow build up and aftermath and provides detailed biographies of the generals who made their marks

Prehistoric Future Ralph Ubl,2013-11-06 One of the most admired artists of the twentieth century Max Ernst was a proponent of Dada and founder of surrealism known for his strange evocative paintings and drawings In Prehistoric Future Ralph Ubl approaches Ernst like no one else has using theories of the unconscious surrealist automatism Freudian psychoanalysis the concept of history as trauma to examine how Ernst s construction of collage departs from other modern artists Ubl shows that while Picasso Braque and Man Ray used scissors and glue to create collages Ernst employed techniques he himself had forged rubbing and scraping to bring images forth onto a sheet of paper or canvas to simulate how a screen image or memory comes into the mind s view In addition Ernst scoured the past for obsolete scientific illustrations and odd advertisements to illustrate the rapidity with which time passes and to simulate the apprehension generated when rapid flows of knowledge turn living culture into artifact Ultimately Ubl reveals Ernst was interested in the construction and phenomenology of both collective and individual modern history and memory Shedding new light on Ernst s working methods and the reasons that his pieces continue to imprint themselves in viewers memories Prehistoric Future is an innovative work of critical writing on a key figure of surrealism
