The Primitive Church In The Modern World:

The Primitive Church in the Modern World Richard Thomas Hughes, 1995

The New Black Gods Edward E. Curtis IV, Danielle Brune Sigler, 2009-04-23 Taking the influential work of Arthur Huff Fauset as a starting point to break down the false dichotomy that exists between mainstream and marginal a new generation of scholars offers fresh ideas for understanding the religious expressions of African Americans in the United States Fauset's 1944 classic *Black Gods of the Metropolis* launched original methods and theories for thinking about African American religions as modern cosmopolitan and democratic The essays in this collection show the diversity of African American religion in the wake of the Great Migration and consider the full field of African American religion from Pentecostalism to Black Judaism Black Islam and Father Divine's Peace Mission Movement As a whole they create a dynamic humanistic and thoroughly interdisciplinary understanding of African American religious history and life This book is essential reading for anyone who studies the African American experience

The American Quest for the Primitive Church Richard Thomas Hughes, 1988 The dream of restoring primitive Christianity lies close to the core of the identity of some American denominations Churches of Christ Latter day Saints some Mennonites and a variety of Holiness and Pentecostal denominations But how can a return to ancient Christianity be sustained in a world increasingly driven by modernization What meaning might such a vision have in the modern world Twelve distinguished scholars explore these and related questions in this provocative book

The English Bible in the Early Modern World Robert Armstrong, Tadhg Ó Hanracháin, 2018-05-01 The English Bible in the Early Modern World addresses the most significant book available in the English language in the centuries after the Reformation and investigates its impact on popular religion and reading practices and on theology religious controversy and intellectual history between 1530 and 1700 Individual chapters discuss the responses of both clergy and laity to the sacred text with particular emphasis on the range of settings in which the Bible was encountered and the variety of responses prompted by engagement with the Scriptures Particular attention is given to debates around the text and interpretation of the Bible to an emerging Protestant understanding of Scripture and to challenges it faced over the course of the sixteenth and seventeenth centuries

Building the Old Time Religion Priscilla Pope-Levison, 2015-01-08 During the Progressive Era a period of unprecedented ingenuity women evangelists built the old time religion with brick and mortar uniforms and automobiles fresh converts and devoted prot g s Across America entrepreneurial women founded churches denominations religious training schools rescue homes rescue missions and evangelistic organizations Until now these intrepid women have gone largely unnoticed though their collective yet unchoreographed decision to build institutions in the service of evangelism marked a seismic shift in American Christianity In this ground breaking study Priscilla Pope Levison dusts off the unpublished letters diaries sermons and yearbooks of these pioneers to share their personal tribulations and public achievements The effect is staggering With an uncanny eye for essential details and a knack for historical nuance Pope Levison breathes life into not just

one or two of these women but two dozen The evangelistic empire of Aimee Semple McPherson represents the pinnacle of this shift from itinerancy to institution building Her name remains legendary Yet she built her institutions on the foundation of the work of women evangelists who preceded her Their stories untold until now reveal the cunning and strength of women who forged a path for every generation including our own to follow Back cover

The Sacralization of Space and Behavior in the Early Modern World Jennifer Mara DeSilva, 2016-03-09 In the Early Modern period as both reformed and Catholic churches strove to articulate orthodox belief and conduct through texts sermons rituals and images communities grappled frequently with the connection between sacred space and behavior The Sacralization of Space and Behavior in the Early Modern World explores individual and community involvement in the approbation reconfiguration and regulation of sacred spaces and the behavior both animal and human within them The individual's understanding of sacred space and consequently the behavior appropriate within it depended on local need group dynamics and the dissemination of normative expectations While these expectations were defined in a growing body of confessionalizing literature locally and internationally traditional clerical authorities found their decisions contested circumvented or elaborated in order to make room for other stakeholders activities and needs To clearly reveal the efforts of early modern groups to negotiate authority and the transformation of behavior with sacred space this collection presents examples that allow the deconstruction of these tensions and the exploration of the resulting campaigns within sacred space Based on new archival research the eleven chapters in this collection examine diverse aspects of the campaigns to transform Christian behavior within a variety of types of sacred space and through a spectrum of media These essays give voice to the arguments exhortations and accusations that surrounded the activities taking place in early modern sacred space and reveal much about how people made sense of these transformations

Public Religions in the Modern World José Casanova, 2024-05-31 In a sweeping reconsideration of the relation between religion and modernity Jose Casanova surveys the roles that religions may play in the public sphere of modern societies During the 1980s religious traditions around the world from Islamic fundamentalism to Catholic liberation theology began making their way often forcefully out of the private sphere and into public life causing the deprivatization of religion in

contemporary life No longer content merely to administer pastoral care to individual souls religious institutions are challenging dominant political and social forces raising questions about the claims of entities such as nations and markets to be value neutral and straining the traditional connections of private and public morality Casanova looks at five cases from two religious traditions Catholicism and Protestantism in four countries Spain Poland Brazil and the United States These cases challenge postwar and indeed post Enlightenment assumptions about the role of modernity and secularization in religious movements throughout the world This book expands our understanding of the increasingly significant role religion plays in the ongoing construction of the modern world

Parish Churches in the Early Modern World Andrew Spicer, 2016-12-05 Across Europe the parish church has stood for centuries at the centre of local communities it was the focal point of its religious life the rituals performed there marked the stages of life from the cradle to the grave Nonetheless the church itself artistically and architecturally stood apart from the parish community It was often the largest and only stone built building in a village it was legally distinct being subject to canon law as well as consecrated for the celebration of religious rites The buildings associated with the cure of souls were sacred sites or holy places where humanity interacted with the divine In spite of the importance of the parish church these buildings have generally not received the same attention from historians as non parochial places of worship This collection of essays redresses this balance and reflects on the parish church across a number of confessions Catholic Lutheran Reformed and Anti Trinitarian during the early modern period Rather than providing a series of case studies of individual buildings each essay looks at the evolution of parish churches in response to religious reform as well as confessional change and upheaval They examine aspects of their design and construction furnishings and material culture liturgy and the use of the parish church While these essays range widely across Europe the volume also considers how religious provision and the parish church were translated into a global context with colonial and commercial expansion in the Americas and Asia This interdisciplinary volume seeks to identify what was distinctive about the parish church for the congregations that gathered in them for worship and for communities across the early modern world
