

The background is a dramatic painting. In the center, a bearded man with long hair, wearing a white robe, sits and holds a long staff or scepter high in his right hand. He looks upwards with a solemn expression. To his left, another figure is partially visible, also looking up. To his right, a man with a shaved head and a beard kneels in prayer, his hands clasped. The scene is set against a dark, cloudy sky with a warm, reddish-orange light source, possibly the sun or moon, creating a strong contrast and highlighting the figures. The overall mood is one of reverence and divine authority.

PRAYING FOR THOSE IN
AUTHORITY

The Problem Of Authority In America

Andrew W. Dobelstein

The Problem Of Authority In America:

The Problem of Authority in America John P. Diggins, Mark E. Kann, 1981 **Moral Authority, Ideology, And The**

Future Of American Social Welfare Andrew W. Dobelstein, 2018-02-20 This book suggests how welfare can be re formed by taking the American ideological context as a road map for which welfare changes are possible and which are not laying out a framework for welfare as America enters the twenty first century **Authority, Autonomy, and Representation in**

American Literature, 1776-1865 Mark R. Patterson, 2014-07-14 From the Revolutionary War to the Civil War a familiar scene appears and reappears in American literature a speaker stands before a crowd of men and women attempting to mitigate their natural suspicions in order to form a body of federated wills In this important study of the relationship of literature and politics Mark Patterson argues that this scene restates political issues in literary terms and embodies the essential problems of American democracy facing both politicians and writers What is autonomy How does representation work Where does true authority lie Beginning with the debate over ratification of the United States Constitution Patterson follows out the complex literary consequences of these questions A work of literary history and criticism this study also offers valuable insights into matters of political and literary theory In separate chapters on Benjamin Franklin Hugh Henry Brackenridge and Charles Brockden Brown in the post Revolutionary period and on Fenimore Cooper Emerson and Melville in the antebellum period Patterson provides a series of brilliant readings of major texts in order to describe how American writers have conflated political and literary concerns as a means to their own social authority Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Scientific Authority & Twentieth-century America** Ronald G.

Walters, 1997 In **Scientific Authority and Twentieth Century America** Ronald G Walters brings together a distinguished group of contributors to reflect often critically on scientific and medical claims to moral social and political authority **The Crisis**

of Authority in Catholic Modernity Michael J. Lacey, Francis Oakley, 2011-04-06 It is fairly clear that while Rome continues to teach as if its authority were unchanged from the days before Vatican II 1962 65 the majority of Catholics within the first world church at least take a far more independent line and increasingly understand themselves rather than the church as the final arbiter of decision making especially on ethical questions This collection of essays explores the historical background and present ecclesial situation explaining the dramatic shift in attitude on the part of contemporary Catholics in the U S and Europe **Fast Track Authority and North American Free Trade Agreement** United States. Congress. House.

Committee on Public Works and Transportation. Subcommittee on Economic Development, 1991 *Constitutional History of*

the American Revolution: The authority to legislate John Phillip Reid, 1986 John Phillip Reid addresses the central constitutional issues that divided the American colonists from their English legislators the authority to tax the authority to legislate the security of rights the nature of law the foundation of constitutional government in custom and contractarian theory and the search for a constitutional settlement

American Muslim Women, Religious Authority, and Activism Julianne Hammer, 2012-08-24 Following the events of September 11 2001 American Muslims found themselves under unprecedented scrutiny Muslim communities in the United States suffered from negative representations of their religion but they also experienced increased interest in aspects of their faith and cultures They seized the opportunity to shape the intellectual contribution of American Muslims to contemporary Muslim thought as never before Muslim women in particular often assumed to be silenced oppressed members of their own communities challenged stereotypes through their writing seeking to express what it means to be a Muslim woman in America and carrying out intra Muslim debates about gender roles and women's participation in society Hammer looks at the work of significant female American Muslim writers scholars and activists using their writings as a lens for a larger discussion of Muslim intellectual production in America and beyond Centered on the controversial women led Friday prayer in March 2005 Hammer uses this event and its aftermath to address themes of faith community and public opinion Tracing the writings of American Muslim women since 1990 the author covers an extensive list of authors including Amina Wadud Leila Ahmed Asma Barlas Riffat Hassan Mohja Kahf Azizah al Hibri Asra Normani and Asma Gull Hasan Hammer deftly examines each author's writings demonstrating that the debates that concern American Muslim women are at the heart of modern Muslim debates worldwide While gender is the catalyst for Hammer's study her examination of these women's intellectual output touches on themes central to contemporary Islam authority tradition Islamic law justice and authenticity

James M. Cain and the American Authors' Authority Richard Fine, 2014-01-30 The 1940s offered ever increasing outlets for writers in book publishing magazines radio film and the nascent television industry but the standard rights arrangements often prevented writers from collecting a fair share of the profits made from their work To remedy this situation novelist and screenwriter James M Cain *The Postman Always Rings Twice* *Double Indemnity* Mildred Pierce proposed that all professional writers including novelists playwrights poets and screenwriters should organize into a single cartel that would secure a fairer return on their work from publishers and producers This organization conceived and rejected within one turbulent year 1946 was the American Authors Authority AAA In this groundbreaking work Richard Fine traces the history of the AAA within the cultural context of the 1940s After discussing the profession of authorship as it had developed in England and the United States Fine describes how the AAA which was to be a central copyright repository was designed to improve the bargaining position of writers in the literary marketplace keep track of all rights and royalty arrangements protect writers interests in the courts and lobby for more favorable copyright and tax legislation Although simple enough in its design the AAA proposal ignited a firestorm of

controversy and a major part of Fine's study explores its impact in literary and political circles. Among writers the AAA exacerbated a split between East and West Coast writers who disagreed over whether writing should be treated as a money-making business or as an artistic and poorly paid calling. Among politicians a move to unite all writers into a single organization, smacked of communism and sowed seeds of distrust that later flowered in the Hollywood blacklists of the McCarthy era. Drawing insights from the fields of American studies, literature, and Cold War history, Fine's book offers a comprehensive picture of the development of the modern American literary marketplace from the professional writer's perspective. It uncovers the effect of national politics on the affairs of writers, thus illuminating the cultural context in which literature is produced and the institutional forces that affect its production.
