Form Criticism of the Old Testament Gene M. Tucker, 1976 Because of its long oral tradition the Old Testament includes an array of different literary types and compositions Analysis of these genres in the biblical material is known as form criticism Gene Tucker draws on contemporary speech patterns to illustrate how the scholar pinpoints various categories or genres The basic principles of form criticism are outlined and many biblical examples given The story of Jacob's struggle at the Jabbok and the prophetic literature are treated in detail While form criticism does not solve all the interpreter's problems it forms an essential tool for exegesis and for recovering the living history of Old Testament literature

Hebrew terminology and on biblical usage The contributors employ philology as well as form critical and traditio historical methods with the aim of understanding the religious statements in the Old Testament Extensive bibliographical information adds to the value of this reference work This English edition attempts to serve the needs of Old Testament students without the linguistic background of more advanced scholars it does so however without sacrificing the needs of the latter Ancient scripts Hebrew Greek etc are regularly transliterated in a readable way and meanings of foreign words are given in many cases where the meanings might be obvious to advanced scholars Where the Hebrew text versification differs from that of English Bibles the English verse appears in parentheses Such features will help all earnest students of the Bible to avail themselves of the manifold theological insights contained in this monumental work **Introduction to the Old Testament**
