Lippy, 2006-09-30 Over the last 25 years there has been much talk of the presumed decline in religious participation in America In addition from the 1960s on surveys that mark the influence of religion in American life have shown a mixed response Many suggest that religion is losing influence in the culture as a whole others indicate that while organized religion may be experiencing challenges spirituality is on the upswing

At the same time however there have been signs that religious life in the U S is extraordinarily healthy But religion in America has changed to be sure in a number of ways And it has changed us and our culture in return This timely set looks at the major forces that are changing the shape of religion in American life With an influx of immigrants from Asia Latin America and other regions the diversity of religion has grown to include Buddhism Hinduism Islam and other faiths Latin American and African American communities have experienced changes in the ways they practice their faith and in turn influence American culture in general Women have entered the clergy in record numbers and the push for allowing women and gays to enter the clergy in religions that limit or prohibit their roles is on the increase In addition gay couples are leading the same sex marriage movement and other social issues such as abortion stem cell research end of life care etc are still being debated Interest over how people actually live out their religion or spirituality has mushroomed in recent decades thanks in part to the information revolution and popular culture What folks do when they gather together to worship and where they come together has changed dramatically with the advent of the Internet and the role of sports in American life So much has changed and faith in America has become more important than ever as part of our culture our way of life and the way we relate to each other and the world around us The essays found in these pages shed light on our understanding of these transformations and help us comprehend the enormous role of religion in our society and in our world **New Age**

House? T. Carty, 2016-03-14 According to most political and religious scholars and pundits JFK's victory in 1960 symbolized America's evolution from a Protestant nation to a pluralist community that included Catholics as all citizens However if the presidential election of 1960 was indeed a turning point for American Catholics how do we explain the failure of any Catholic in over forty years to repeat Kennedy's accomplishment In this exhaustively researched study that fuses political cultural social and intellectual history Thomas Carty challenges the assumption that JFK's successful campaign for the Presidency ended decades if not centuries of religious and political tension between American Catholics and Protestants paving a new role for Catholics in American presidential politics
