Social and Cultural Change Jay A. Weinstein,1997 This book includes a comprehensive survey of the theories and principles employed by sociologists anthropologists and other social scientists in the study of sociocultural change Employing these tools the later chapters examine the major trends and challenges that face today s rapidly globalizing world Students are asked to consider how they can participate actively in shaping the events that affect their lives Among the book s pedagogical features are well over one hundred Web sites organized by chapter and topic which connect the text with contemporary events and commentary Visit our website for sample chapters **Social and Cultural Change** Jay A.

Weinstein,2005 This book includes a comprehensive survey of the theories and principles employed by sociologists anthropologists and other social scientists in the study of sociocultural change Employing these tools the later chapters examine the major trends and challenges that face today s rapidly globalizing world Students are asked to consider how they can participate actively in shaping the events that affect their lives Among the book s pedagogical features are well over one hundred Web sites organized by chapter and topic which connect the text with contemporary events and commentary Visit our website for sample chapters *The Changing Face of Globalization* Samir Dasgupta,2004-12-08 Evaluating the impact

of globalization on issues like altruism empowerment of women crime and violence culture area studies economy and production and the sociology of humanity this book makes the ethical and moral aspects of globalization its main concerns The complexities of the globalization process in the developing world are explored the debate between globalization and localization between indigenization and hybridization between equalization and inequalization The contributors also examines the consequences for transitional economies in their interactions with multinational corporations and the rise of the anti globalization movement in the past decade **A Dictionary of Nonprofit Terms and Concepts** David Horton

Smith,Robert A. Stebbins,Michael A. Dover,2006-11-08 This reference work defines more than 1 200 terms and concepts that have been found useful in past research and theory on the nonprofit sector The entries reflect the importance of associations citizen participation philanthropy voluntary action nonprofit management volunteer administration leisure and political activities of nonprofits They also reflect a concern for the wider range of useful general concepts in theory and research that bear on the nonprofit sector and its manifestations in the United States and elsewhere This dictionary supplies some of the necessary foundational work on the road toward a general theory of the nonprofit sector The Power of Scientific

Knowledge Reiner Grundmann,Nico Stehr,2012-08-16 Examines how science and scientists influence policy making using the examples of eugenics Keynesian economics and climate policy **Encyclopedia of Populism in America** Alexandra

Kindell,Elizabeth S. Demers Ph.D.,2014-02-27 This comprehensive two volume encyclopedia documents how Populism which grew out of post Civil War agrarian discontent was the apex of populist impulses in American culture from colonial times to the present The Populist Movement was founded in the late 1800s when farmers and other agrarian workers formed

cooperative societies to fight exploitation by big banks and corporations Today Populism encompasses both right wing and left wing movements organizations and icons This valuable encyclopedia examines how ordinary people have voiced their opposition to the prevailing political economic and social constructs of the past as well how the elite or leaders at the time have reacted to that opposition The entries spotlight the people events organizations and ideas that created this first major challenge to the two party system in the United States Additionally attention is paid to important historical actors who are not traditionally considered Populist but were instrumental in paving the way for the movement or vigorously resisted Populism s influence on American culture This encyclopedia also shows that Populism as a specific movement and populism as an idea have served alternately to further equal rights in America and to limit them Global Communication Yahya R. Kamalipour, 2019-07-05 Global Communication A Multicultural Perspective Third Edition is intended to explore inform and incite discussions about globalization and global communication With chapters by some of the foremost global communication scholars this book covers essential concepts of international communication and contemporary and emerging topics

Kings, Queens and Fallen Monarchies Robert Stove, 2024-12-30 Explores the interwar movements to restore Europe s deposed royal houses examining their political significance and influence on global power dynamics Among the great hidden narratives of twentieth century history are the movements in Europe which between the two world wars aimed to restore the royal and imperial houses forced out of power in 1918 or in Portugal s case eight years earlier These efforts acquired media coverage and often strategic importance far greater than would be now supposed from the cursory often dismissive treatment which they have received from most historians since Campaigns to reinstate such dynasties as the Hohenzollerns the Habsburgs the Wittelsbachs the Bragan as and even France s House of Orleans were taken seriously at the highest governmental and journalistic levels in London and Paris not to mention the Holy See Upon the whole phenomenon this book seeks to shed light It discusses both the phenomenon s soft power manifestations the designs of newspaper tycoon Lord Rothermere upon the Hungarian throne for his son for instance and the phenomenon s hard power manifestations among which probably the most dramatic were the successful monarchical campaigns in Albania and Greece With a cast that includes not only the monarchist candidates themselves but Churchill Lloyd George Hitler Mussolini and Franco this is a drama that embraces a continent and forces thorough reappraisals of events which we thought we knew No one can read it without acquiring a firmer grasp of political power s very nature and the sheer narrowness of the gap between victory and defeat

Reluctant Bedfellows Meredith L. Ralston, Edna Keeble, 2009 Academic feminist theorizing and identity politics the two argue has reached the level of analysis paralysis where women and women s groups do not act for fear of being pejoratively labeled This has many negative consequences for rights seeking groups as Ralston and Keeble experience firsthand in working to bring Angeles City and Canadian women s organizations together Both an eye opening picture of the workings of a community seeped in sex tourism and a sharp review of current feminist theorizing *Reluctant Bedfellows* offers

much needed perspective on ways to bring disputing parties together and actually promote change **BOOK JACKET** Love in America Lawrence R. Samuel, 2019-11-22 Widely considered the most complex of human emotions romantic love both shapes and reflects core societal values its expression offering a window into the cultural zeitgeist In popular culture romantic love has long been a mainstay of film television and music The gap between fictitious narratives of love and real life ones is however usually wide American s expectations of romance and affection often transcend reality Tracing the history of love in American culture this book offers insight into both the national character and emotional nature Doing Sociology Jammie Price, Roger Straus, Jeff Breese, 2009-08-16 This successor to the well known Using Sociology covers standard topics found in any sociology textbook Doing Sociology walks lay readers through the steps of doing real life sociological practices as conducted by experts in the field The contributors to this volume range from university and college faculty government sociologists and practitioners from the private sector Each of the chapters is by intention and design a personal statement a case study illustrating how the authors practice sociology in their own words and style giving readers a clearer understanding of what sociologists do outside of teaching in universities And most importantly an understanding of what they could do with sociology Readable relevant and accessible Doing Sociology is an invaluable resource as a stand alone course reader or as a supplement to a traditional textbook *Society & Culture* , **Why we need a revolution in the Social sciences: A post-colonial perspective** Sujay Rao Mandavilli, 2024-05-11 We began our work in right and in serious earnest in the year 2005 November 14th 2005 to be precise when children s day is celebrated all over India in commemoration of the birthday of Pandit Jawaharlal Nehru the first Prime Minister of India The underlying philosophy of our work however stretches back to the early 1990 s even the mid 1980 s when we faced a great deal of cognitive dissonance in many of our endeavours and daily walks of life due to a constant exposure to and a bombardment by a large number of philosophies and ideas from different sources both human and non human In the year 2005 particularly after the aforesaid date we had reached out to several leading lights and luminaries in the fields of science religion philosophy and spirituality with a great deal of hope to meaningfully engage with them and elicit their own pet theories proposals and viewpoints on various issues and topics We had hoped that this would also help us in our own voyage and journey of discovery The results were indeed startling there was a wide variation in viewpoints based on the scholar in question s own religious linguistic and nationalistic affiliation and loyalties Therefore the age of ideology has still not formally or conceptually ended ending this can change many fundamental equations at a grassroots level and can make life better for all of us living in different parts of the world As a matter of fact Eurocentric biases in various fields of the social sciences has only served to throw up counter reactions and exacerbate ideological differences Intellectualism is also still weak in general particularly in developing countries particularly owing to the following factors Forthcoming Books Rose Arny, 1996-06 Theorizing Modern Society as a Dynamic Process Harry F. Dahms, Lawrence Hazelrigg, 2012-10-29 Emphasis is placed in Continental European social theory

and on the importance of political analyses to theorizing modern societies This title focuses on dynamic processes that gave way to illuminate structural features of modern social life *Research Awards Index* ,1976 **Journal of Social Science** ,1909 The Companion to Development Studies Vandana Desai,Rob Potter,2014-03-21 The Companion to Development Studies contains over a hundred chapters written by leading international experts within the field to provide a concise and authoritative overview of the key theoretical and practical issues dominating contemporary development studies Covering a wide range of disciplines the book is divided into ten sections each prefaced by a section introduction written by the editors The sections cover the nature of development theories and strategies of development globalization and development rural development urbanization and development environment and development gender health and education the political economy of violence and insecurity and governance and development This third edition has been extensively updated and contains 45 new contributions from leading authorities dealing with pressing contemporary issues such as race and development ethics and development BRICs and development global financial crisis the knowledge based economy and digital divide food security GM crops comparative urbanism cities and crime energy water hydropolitics climate change disability fragile states global war on terror ethnic conflict legal rights to development ecosystems services for development just to name a few Existing chapters have been thoroughly revised to include cutting edge developments and to present updated further reading and websites The Companion to Development Studies presents concise overviews providing a gateway to further reading and a flexible resource for teaching and learning It has established a role as essential reading for all students of development studies as well as those in cognate areas of geography international relations politics sociology anthropology and economics *Exploring Cultural History* Joan Pau Rubiés,Melissa Calaresu,Filippo de Vivo,2010 Melissa Calaresu is the McKendrick Lecturer in History at Gonville and Caius College University of Cambridge UK Filippo de Vivo is Senior Lecturer in Early Modern History at Birkbeck College University of London UK Joan Pau Rubies is Reader in International History at the London School of Economics and Political Science UK **Sociological Abstracts** Leo P.
