**Challenging Liberalism** Lisa H. Schwartzman, 2007-05-02 Questions about the relevance and value of various liberal concepts are at the heart of important debates among feminist philosophers and social theorists Although many feminists invoke concepts such as rights equality autonomy and freedom in arguments for liberation some attempt to avoid them noting that they can also reinforce and perpetuate oppressive social structures In *Challenging Liberalism* Schwartzman explores the reasons why concepts such as rights and equality can sometimes reinforce oppression She argues that certain forms of abstraction and individualism are central to liberal methodology and that these give rise to a number of problems Drawing on the work of feminist moral political and legal theorists she constructs an approach that employs these concepts while viewing them from within a critique of social relations of power

human dignity      **Men and Feminism** Shira Tarrant, 2009-05-12 There's no denying that men's involvement and interest in feminism is key to its continuing relevance and importance. Addressing the question of why men should care about feminism in the first place, *Men and Feminism* lays the foundation for a larger discussion about feminism as a human issue, not simply a women's issue. Men are crucial to the movement as fathers, brothers, husbands, boyfriends, and friends. From why to how to what can men do, *Men and Feminism* answers all the questions men have about how and why they should get behind feminism.

*Neo-pragmatism, Communication, and the Culture of Creative Democracy* Omar Swartz, Katia Campbell, Christina Pestana, 2009 In exploring how John Dewey's notion of a creative democracy can be cultivated and advanced through a heightened awareness of the ways in which communication shapes individuals and society, this book helps scholars, activists, and citizens to rethink commonly accepted notions of community in order to imagine new possibilities for social, political, and economic organization in short, new ways of imagining solidarity and citizenship with others, especially those who languish outside the range of our moral radar.

**Diversity, Social Justice, and Inclusive Excellence** Seth N. Asumah, Mechthild Nagel, 2014-05-21 An interdisciplinary anthology exploring issues related to diversity, multiculturalism, and social justice. When students are introduced to the study of diversity and social justice, it is usually from sociological and psychological perspectives. The scholars and activists featured in this anthology reject this approach as too limiting, insisting that we adopt a view that is both transdisciplinary and multiperspectival. Their essays focus on the components of diversity, social justice, and inclusive excellence, not just within the United States but in other parts of the world. They examine diversity in the contexts of culture, race, class, gender, learned ability, and disability, religion, sexual orientation, and citizenship, and explore how these concepts and identities interrelate. The result is a book that will provide readers with a better theoretical understanding of diversity studies and will enable them to see and think critically about oppression and how systems of oppression may be challenged.

**Perversions of Justice** Ward Churchill, 2003 Examines the faulty reasoning employed to legislate colonial control over North America's indigenous peoples and their lands.

**in a Feminist Voice** Janet A. Kourany, 1997-12-29 In this book Janet Kourany offers an antidote to the pervasive and pernicious strains in Western philosophy that discount women Most areas of Western philosophy tend not only to ignore women but also to perpetuate long standing antifeminine biases of the society as a whole It does not have to be this way Rather than be part of the problem philosophy can be a powerful force for much needed social change In this collection of essays by some of the most noted feminist philosophers Kourany showcases ideas on the newest work of Western philosophy that is benefiting women as well as men Included here are articles by Eileen O Neill Louise Antony Virginia Held Susan Okin Carolyn Korsmeyer Nancy Frankenberry Lorraine Code Janet Kourany Andrea Nye and Susan Bordo all of whom show further directions in which philosophy ought to proceed This book demonstrates that feminist philosophy is not a separate area of philosophy that can safely be ignored by philosophers not in it Rather it relates to at least most of the major areas of philosophy and its gains will stand to benefit all philosophers no matter what their field **The Life and Thought of H.**

**Odera Oruka** Gail M. Presbey, 2023-05-18 Henry Odera Oruka was one of the most influential figures in 20th century African philosophy During the early years of the decolonization of African countries as universities worked to redefine themselves Odera drove changes to curricula and research A tireless advocate for democracy and human rights in Africa he repeatedly intervened in the political debates of his time This is the first critical biography of both the man himself and African philosophy in the context of changing times taking us through his early life scholarly training and Oruka's way of transforming the field of philosophy as it was taught in Kenya The narrative unfolds from the personal to the global from Africa to the world and from African philosophy to the wider field of philosophy Biographical material is woven with narratives of the social conditions and live questions as they arise in Oruka's life in Kenya Sweden and the United States We are introduced to his understanding of philosophy as a critique of society Exposing prison practices in Africa and targeting capitalists Oruka sought to remedy social problems on a global scale from institutional racism and ethnic division to the wealth gap between rich and poor nations Through archival material personal interviews and primary texts this book shines a light on Oruka's monumental contribution to African philosophy and global justice Finally we can see how Oruka's insights are still relevant to how we think about poverty philosophy and human rights today *The Black Book* Richard A.

Jones, 2013-11-26 *The Black Book* Wittgenstein and Race attempts to highlight the importance of Ludwig Wittgenstein's work

for contemporary African American and Africana philosophy Richard A Jones argues that Wittgenstein's early Tractarian views on logical atomism and his later more holistic views from his work *Philosophical Investigations* are exceedingly relevant to African American philosophy *The Black Book* investigates the epistemic linguistic and political grounds from which inspiration might be drawn Ultimately as philosophy attempts to redefine itself in a postmodern discourse where it has been deigned concluded it is the awe for the ordinary that Wittgenstein inspires and that should re inspire the creative imaginary in Africana thought *The Black Book* is an attempt to show that Wittgenstein's work continues to be important not only for African American philosophers but for all philosophers **Bringing Peace Home** Karen Warren, Duane L.

Cady, 1996 This collection of works is ambitious well documented thoroughly though not turgidly referenced and comprehensively indexed It is deeply disturbing and deeply engaging Australian Feminist Studies Contributors discuss the subtle and complex relationships between various notions of feminism and peace Feminist peace issues are explored along a wide spectrum of personal and political issues from the personal violations of rape incest and domestic abuse to the violence of racism sexism economic exploitation war and genocide **The Many Dimensions of Chinese Feminism** Y.

Chen, 2011-05-23 In the current English language publication market this book is one of the earliest academic monographs to comparatively investigate different feminist scholars and academic feminism across the Taiwan Strait It problematizes recent scholarly understanding of feminist complexity in various Chinese speaking areas This book addresses sociocultural backgrounds of how Mainland Chinese Taiwanese and Hong Kong feminist scholars strategize their transfers localization and acculturation of Western feminist literary theories It emphasizes how Chinese literary theorists filter gate keep select import latest Western feminist theories and then match them with local socio cultural trends by exerting comparative researchers cross cultural and cross lingual academic power in order to tackle Mainland China's Taiwan's and Hong Kong's own gender problems *Transformative Communication Studies* Omar Swartz, 2008-01-01 This interdisciplinary collection of essays charts intersections between communication cultural studies and a variety of emergent emancipatory and liberatory discourses Every essay attempts in one way or another to speak to the following questions What would a theory of liberation look like that is premised on a communication view of the world How would such a view expand and even redefine our understanding of liberation Finally how would such a view enlarge our understanding of what is collectively communally and organizationally possible In other words the chapters articulate what can be loosely considered a humanist theory of communication and praxis The goal is to move beyond discourses of liberation that are grounded in essentialist assumptions and to move the conversation toward an engaged criticism on cultural and social levels that facilitates and encourages progressive action This edited collection thus has as its goal a theory of human liberation grounded in communication as a resource for social and spiritual transformation The chapters comprise a mix of conceptual and applied studies that interrogate the communicative practices that naturalize our hierarchical world reifying and stultifying our moral

and political imaginations As an antidote to this problem the contributors consider the importance of uncertainty and contingency in the development of human potential Rather than fearing uncertainty and contingency and allowing that fear to control us contributors argue that we should find within these conditions the source of our humanity and the strength to question and resist unjust social reifications When we do this we will rediscover the power of communication and regain an agency and control over our lives We then can start the difficult but humanizing process of constructing the world anew Case study exemplars of this construction thus are showcased
