Social Cohesion And Conflict Prevention In Asia Managing Diversity Through Development:

Social Cohesion and Conflict Prevention in Asia Nat J. Colletta, Teck Ghee Lim, Anita Kelles-Viitanen, 2001-01-01 This book is based on discussions from the Asian Regional Consultation on Social Cohesion and Conflict Management that was sponsored by the World Bank and the Asian Development Bank Participants speaking in their personal capacity included representatives from government civil society and donor organisations The papers included in this volume cite a multiplicity of traditional obstacles to social cohesion and integration in the region ranging from xenophobic nationalism to poverty socioeconomic disparities gender inequality and ethnic religious and cultural discrimination

Social Cohesion and Conflict Prevention in Asia Nat J. Colletta, 1999 *Long-Term Conflict Prevention and Industrial Development* Ralf Bredel, 2003 After decades of striving to prevent international conflict major armed conflicts in the 1990s have taken place within national boundaries After the series of national independence wars in the 1950s and 1960s and frequent geopolitical wars in the 1970s and 1980s a category of wars of the third kind prevailed The aim of this book is to consider the root causes of recent internal conflicts and to develop long term conflict prevention strategies from here New insights suggest the central role of politico economic inequalities in ethnic religious and cultural conflict The United Nations system has just started to adjust to this new reality of conflict and make long term conflict prevention a priority issue on international agendas Whereas development practitioners should principally conceive their work through a conflict prevention lens there is a shift in focus to United Nations agencies that deal with the economic characteristics of conflict The unbroken significance of a sustainable industrial development process in developing countries may allow the United Nations Industrial Development Organization UNIDO a particular vantage point and role in the long term prevention of conflict

rights of minorities and indigenous peoples and international approaches to conflict and post conflict development The book charts new territory by mapping the range of international actors who affect the governance of ethnic diversity and exploring their often contradictory roles and impacts Most international actors come to questions of ethnic diversity indirectly and reluctantly on the basis of widely varying mandates many of which were established to fulfill other objectives They naturally therefore have different priorities and perspectives And yet the book identifies a striking convergence amongst international actors around discourses of diversity and equality demonstrating the existence of an epistemic community where actors work within common vocabularies discourses and principles that attempt to link human rights pluralism development and peace

Kyrgyzstan beyond "Democracy Island" and "Failing State" Johan Engvall, Marlene Laruelle, 2015-12-03 Kyrgyzstan is probably the best known of any central Asian country the one that has elicited the most academic publications reports by NGOs or advocacy groups and op eds in the media The country opened up massively to Western influence through development aid for civil society and for economic reforms faced two revolutions in 2005 and 2010 and experienced bloody interethnic conflict in 2010 Kyrgyzstan is therefore commonly studied as a twin case that of having been for more than two decades both an island of democracy in Central Asia and the only country of the region to have made the transition to a parliamentary regime and the archetypical example of a failing state one marked by endemic corruption criminalization of the state apparatus and collapse of public services This volume goes beyond these two clichés

and provides a research based and unideological narrative on the country It identifies political dynamics their powerbrokers and the role of international organizations investigates the profound social transformations of both the rural and the urban worlds and examines the broad feeling by local actors that Kyrgyzstan s fragile state identity should be consolidated This book gives the floor to the new generation of scholars whose long term vernacular language field research made it possible to provide new interpretative prisms for the complex evolution of Kyrgyzstan
