The Idea of Power in Javanese Culture

Benedict Richard O'Gorman Anderson, 1972 Power and Political Culture in Suharto's Indonesia Stefan Eklöf, 2004 Under Indonesia's authoritarian New Order regime the continued existence of the Indonesian Democratic Party PDI was meant to demonstrate the ostensibly democratic character of the regime. In essence this small nationalist Christian coalition was meant to fill the role of pliant state corporatist party. From the later 1980s however the PDI became more openly critical of government policies and came to stand out as the major proponent of reform within the formal political system. The government responded in 1996 by engineering the removal of the popular Megawati Sukarnoputri as PDI leader a move that significantly damaged the popular legitimacy and moral standing of the regime. Against this background the book assesses broader questions of political culture political participation regime maintenance and opposition in the late Suharto era. The political culture perspective provides a fresh understanding of politics under the New Order and its influence on the systems of power and political relations in post Suharto Indonesia.

Language and Power Benedict R. O'G. Anderson, 2006 In this lively book Benedict R O G Anderson explores the cultural and political contradictions that have arisen from two critical facts in Indonesian history that while the Indonesian nation is young the Indonesian nation is ancient originating in the early seventeenth century Dutch conquests and that contemporary politics are conducted in a new language Bahasa Indonesia by peoples especially the Javanese whose cultures are rooted in medieval times. Analyzing a spectrum of examples from classical poetry to public monuments and cartoons Anderson deepens our understanding of the interaction between modern and traditional notions of power the mediation of power by language and the development of national consciousness. *Language and Power* now republished as part of Equinox Publishing's Classic Indonesia series brings together eight of Anderson's most influential essays over the past two decades and is essential reading for anyone studying the Indonesian country people or language. Benedict Anderson is one of the world's leading authorities on Southeast Asian nationalism and particularly on Indonesia. He is Professor of International Studies and Director of the Modern Indonesia Project at Cornell University New York. His other works include *Imagined Communities Reflections on the Origin and Spread of Nationalism* and *The Spectre of Comparisons Nationalism Southeast Asia and the World*.

The Microfinance Revolution Marguerite S. Robinson, 2002 Microfinance is the method whereby financial services and credit is made available to the economically active but low income people of developing countries. This book focusses on three key aspects of the phenomenon 1 the shift from government and donor subsidized credit delivery systems to self sufficient sustainable microfinance institutions 2 the results on the ground on the way in which microfinance helps people expand and diversify their enterprises increase their incomes raise their living standards and those of their families and boost their self confidence 3 the theoretical frameworks that had previously impeded the microfinance revolution with suggestions for their improvement.

Religion and Political Power Gustavo

Benavides, M. W. Daly, 1989-01-01 This book explores the interaction between two of the most charged topics in the modern world religion and politics It shows the inextricable connection between religious attitudes and representations and political activities After an introductory chapter explores theoretically the religious articulations of political power the authors examine the role played by religion in the current political situation in several countries Approaching these cases as anthropologists historians sociologists and political scientists the authors make visible the dialectical relationship between religion and the pursuit of political power on the one hand the political significance of religious choices and on the other the almost unavoidable need to articulate in religious terms a group's attempt to acquire maintain or expand political power
