

James C. Roberts

The Conservative Decade

EMERGING LEADERS
OF THE 1980s

WITH A FOREWORD BY 2001 PRESIDENT GEORGE W. BUSH

The Conservative Decade

James C. Roberts

The Conservative Decade:

The Conservative Century Gregory L. Schneider, 2009 This concise history focuses on the development of American conservatism in the twentieth century up to the present Gregory L Schneider traces the course of a once reactionary movement opposed to progressive reform and the New Deal and describes how it came to advance alternative policies and programs that revolutionized the shaping of domestic politics foreign policy and economic policy Along the way he profiles such influential thinkers as William F Buckley Frank Meyer Henry Regnery and Barry Goldwater He also details how the decline of liberalism after the 1960s helped conservatives gain political power and how their energized activism and organization culminated in the election of Ronald Reagan in 1980 Schneider also describes how the years since the Reagan Revolution have been decidedly mixed for American conservatives The Conservative Decade James C. Roberts, 1980

Carnival of Shame Reflections on the Conservative Fifty-Year Betrayal of America M.G. Montpelier, 2024-01-21
CARNIVAL OF SHAME is a reflective commentary on the Fifty Year Conservative Assault on America from the 1971 Powell political grand design to save Capitalism from Democracy and the 1981 Republican Trickle Down Revolution to the January 6 2021 Republican violent insurrection to overturn the Constitution and the electoral will of the people Yesterday s America of promise opportunity and prosperity for the many is today an America of concentrated wealth wealthy tax cuts and a Republican Subsistence Trickle Down Society for the surplus left behind The time is now the moment is here for a People of Liberty to come together for an America of secure democratic institutions a strong middle class and a Republic of Liberty and Justice for All Remember WE Must They came promising Trickle Down Prosperity Then Repealed the Rule of Law Took our Jobs and Pensions Undermined our Civil Liberties As Fascism Triumphed in the Suffering Silence Of Human Bondage

The Right Side of the Sixties Laura Jane Gifford, Daniel K. Williams, 2012-07-25 The 1960s were a transformative era for American politics but much is still unknown about the growth of conservatism during the period when it was radically reshaped and became the national political force that it is today In their efforts to chronicle the national politicians and organizations that led the movement previous histories have often neglected local perspectives the role of religion transnational exchange and other aspects that help to explain conservatism s enduring influence in American politics Taken together the contributions gathered here offer a cutting edge synthesis that incorporates these overlooked developments and provides new insights into the way that the 1960s shaped the trajectory of postwar conservatism *American Conservative Thought in the Twentieth Century* William F. Buckley Jr., 2017-09-04 If America has been an unsympathetic environment for conservatism conservatism has nevertheless demonstrated an extraordinary tenacity in politics literature law religion economics and social thought Conservatism forms a dissent within the liberal tradition and also deserves a hearing from any serious student of American history William F Buckley Jr brought this issue to the forefront in this outstanding collection featuring some of the greatest political thinkers of the twentieth century This volume illuminates many aspects of the elusive

conservatism of which so much has been written and helps to explain why it is that conservatism survives in politics economics social sciences and the arts Buckley has drawn from the works of renowned scholars and from those of relatively obscure figures whose contributions he persuasively puts forward as deeply influential in the crystallization of modern conservative thought This collection of essays begins by analyzing the history and background of American institutions It then goes on to inspect strong American presumption in favor of the private sector and the nature of specific challenges to modern society as well as the response of conservative thought and analysis to those challenges Pluralists will welcome the approach in this book and others will be excited by prestigious authors

The Conservative Intellectual Movement in America Since 1945 George H. Nash, 2014-04-08 First published in 1976 and revised in 1996 George H Nash s celebrated history of the postwar conservative intellectual movement has become the unquestioned standard in the field This new edition published in commemoration of the volume s thirtieth anniversary includes a new preface by Nash and will continue to instruct anyone interested in how today s conservative movement was born

The Global 1970s Duco Hellema, 2018-09-03 No other decade evokes such contradictory images as the 1970s reform and emancipation on the one hand crisis and malaise on the other In *The Global 1970s Radicalism Reform and Crisis* Duco Hellema portrays the 1970s as a period of global transition Across the world the early and mid 1970s were still years of political mobilization with everything seemingly an object of public controversy and conflict including economic development education and family matters Social movements called for the reduction of social inequalities for participation and the emancipation of various groups at the same time as the rise of ambitious and reform oriented governments Ten years later a different world was emerging with the call for state controlled social and economic changes in decline and new economic policies centred on liberation and deregulation taking their place This book examines a range of explanations for this radical transformation highlighting how economic problems such as the oil crisis political battles and dramatic confrontations resulted in a free market oriented conservatism by the end of the period Divided into nine broadly chronological chapters and taking a global approach that allows the reader to see the familiar themes of the decade examined on an international scale *The Global 1970s* is essential reading for all students and scholars of twentieth century global history

Decade of Dealignment Bo Särilvik, Ivor Crewe, 1983-06-02 This 1983 book examines British politics in the 1970s based on national surveys conducted at the time

The Conservative Revolution Lee Edwards, 1999-07-23 The triumph of the conservative movement in reshaping American politics is one of the great untold stories of the past fifty years At the end of World War II hardly anyone in public life would admit to being a conservative but as Lee Edwards shows in this magisterial work in the 1950s 1960s and 1970s a small group of committed men and women began to chip away at the liberal colossus and their descendants would scale the ramparts of power in the 1980s and 1990s Not even the fall of Newt Gingrich has changed the indisputable fact that the movement has truly rewritten the rules of American political life and the republic will never be the same Edwards tells the stories of how conservatives

built a movement from the ground up by starting magazines by building grass roots organizations and by seizing control of the Republican party from those who espoused collaboration with the liberals and promised only to manage the welfare state more efficiently and not to dismantle it But most of all he tells the story of four men four leaders who put their personal stamp on this movement and helped to turn it into the most important political force in our country today Robert Taft Mr Republican the beacon of conservative principle during the lean Roosevelt and Truman years Barry Goldwater Mr Conservative the flinty Westerner who inspired a new generation Ronald Reagan Mr President the optimist whose core beliefs were sturdy enough to subdue an evil empire Newt Gingrich Mr Speaker the fiery visionary who won a Congress but lost control of it By their example and vision these men brought intellectual and ideological stability to an often fractious conservative movement and held the high ground against the pragmatists who would compromise conservative principles for transitory political advantage And through their efforts and those of their supporters they transformed the American political landscape so thoroughly that a Democratic president would one day proclaim The era of big government is over Political history in the grand style The Conservative Revolution is the definitive book on a conservative movement that not only has left its mark on our century but is poised to shape the century about to dawn Liberalism Versus Conservatism François B. Gérard, 2000 Everyone eschews labels yet we all seem to possess them in the minds of legions of politicians marketers and even the ever peering government We are being targeted daily by flaming liberals left wing liberals right wing conservatives compassionate conservatives religious conservatives and liberals pinko liberals middle of the road liberals conservatives and liberals pinko liberals middle of the road liberals and conservatives and of course by neoconservatives and neoliberals The search is on for kindred souls the types who will open their wallets to support whatever it is the hucksters are peddling But what do these concepts mean and do their torchbearers grasp the underlying philosophies or do they care This bibliography lists over hundreds of entries under each category which are then indexed by title an author

Embracing the Beat of Expression: An Emotional Symphony within **The Conservative Decade**

In a world consumed by displays and the ceaseless chatter of instant connection, the melodic elegance and emotional symphony created by the written word usually fade in to the back ground, eclipsed by the relentless noise and disruptions that permeate our lives. Nevertheless, located within the pages of **The Conservative Decade** a stunning fictional prize brimming with organic feelings, lies an immersive symphony waiting to be embraced. Crafted by an outstanding musician of language, this fascinating masterpiece conducts readers on a psychological trip, well unraveling the concealed melodies and profound impact resonating within each carefully crafted phrase. Within the depths of this emotional review, we can explore the book's key harmonies, analyze their enthralling publishing type, and submit ourselves to the profound resonance that echoes in the depths of readers' souls.
