The Constitutional Right To Suicide:

The Constitutional Right to Suicide G. Steven Neeley, 1994 Medical technology has made it possible to sustain existence past the point where the competent adult might rationally conclude that life is no longer worth living Nevertheless the current state of the law often makes it difficult if not impossible for an individual to have unfettered control over the act of dying as determinations against medical intervention are frequently swept under broad legal proscriptions of self directed death This book cogently argues that an examination of the constitutional right to privacy and allied constitutional precepts reveal that the United States Constitution protects those decisions which are profoundly personal intimate and integral to the control of one's own destiny The decision which fits this criterion more closely than any other is whether to continue living or not for intrinsic to the control of one's life is the choice of electing to forego continued life Hence constitutional guarantees of individual liberty protect the right of the individual at least under certain circumstances to terminate his or her own existence

Some Choice George J. Annas, 1998 This book is a passionate critique of the shallowness of choice rhetoric used to camouflage critical personal and public policy issues in contemporary debates in American medicine Our public discourse on life and death from health care to medical research and from risky behavior to assisted suicide is dominated by the market model of consumerism augmented by appeals to individual freedom In fact however in most cases there is no real choice left for individuals to make the important choices have been made by others and the illusion of choice fosters complacency Knee jerk libertarianism leads to a superficial consumer culture and life choices valued only by their monetary value Some Choice uses the cases of cloning drive through deliveries emergency medicine genetic privacy human experimentation tobacco control and physician assisted suicide among others to suggest ways in which we can break through our vapid and superficial public discourse on life and death issues and begin to engage in a public dialogue that enriches our lives and society rather than cheapens them George Annas is one of the most widely recognized names in current bioethics debates His goal in this new book is to help open a national and international dialogue that sees the search for universal human rights as valuable and international cooperation to define protect and promote them as central to life

The Rights of Patients George J. Annas, 2004-11-15 A washed up director Joe Piscopo agrees to stage a musical in order to clear his debts to a powerful gangster Paul Sorvino Michael Par and Erika Christensen co star Jason Buchanan Rovi

Medical Law and Moral Rights Carl Wellman, 2005-10-26 Do patients undergoing intolerable irremediable suffering have a moral right to physician assisted suicide Ought they to have a comparable legal right Do the moral duties of a mother to care for and not abuse her child also apply to her fetus This work provides an examination of court cases that shows how US law answers these questions

The Right to Privacy Richard A. Glenn, 2003-08-13 A thorough introduction to privacy law covering landmark cases important themes historical curiosities and enduring controversies The Right to Privacy Rights and Liberties under the Law measures the impact of what Louis Brandeis called The most comprehensive of rights and the most valued by

civilized man As the book shows an individual's right to privacy is not a written in stone concept but one that emerged from the shadows of a number of amendments and court decisions The book traces that concept to its philosophical and common law roots then looks at how privacy rights have been interpreted expanded and sometimes curtailed throughout the 20th century It concludes with a review of privacy rights today examining landmark recent cases involving euthanasia polygamy reproductive rights for inmates same sex unions adoption by gays and lesbians the right to withhold personal information and more

Life, Death, and the Law Maureen Harrison, Steve Gilbert, 1997 Contains plain English versions of the original legal texts of nine right to die decisions reached in America's courts beginning with the landmark case of Karen Quinlan in 1976 which established the right to refuse or withdraw life sustaining treatment and continuing through the U S Supreme Court's 1997 determination on two right to physician assisted suicide cases People v. Kevorkian; Hobbs v. Attorney General, 447 MICH 436 (1994), 1994 99758 Pain Relief Promotion Act of 1999 United States. Congress. House.

Committee on the Judiciary.
