The Idea File Of Harold Adams Innis:

The Idea File of Harold Adams Innis Harold Adams Innis, 1980 **The Idea File of Harold Adams Innis** William Christian, 1980-12-15 The many published volumes of the writings of Harold Adams Innis testify to his extraordinary grasp of the ordering principles of human history The notes that he left at the time of his death provide a new and revealing profile of the inner workings of this restless and relentless mind Innis maintained added to and corrected in the last seven years of his life a single system of cross referenced notes which came to be called the Idea File Before his death in 1952 he collected these notes into a single numbered collation In this edition the material has been arranged in chronological order to give a sense of the development of Innis s ideas and concerns Innis s interests were many and varied and this collection of some 1500 notes covers an encyclopedic range of topics The different lines of Innis s investigations converge however in his interest in basic political and cultural issues and in his fundamental concern for the preservation of individual freedom and creativity At heart Innis was a moralist whose hatred of oppressive social institutions led him to examine them from many angles It is a fascinating odyssey Every reader will be refreshed and enriched by sharing Innis s life long intellectual adventure Empire and Communications Harold A. Innis, 2022-08-03 Originally published in 1950 Harold A Innis s *Empire and Communications* is considered to be one of the classic works in media studies yet its origins have received little attention Ambitious in its scope the book spans five millennia tracing a path of development around the globe from 2900 BCE to the twentieth century and revealing the cyclical interplay between communications and power structures across space and time In this new edition William J Buxton pays close attention to handwritten glosses that Innis added to a copy of the original edition and the revisions undertaken by his widow Mary Q Innis A new introduction provides a detailed account of how the book emerged from lectures that Innis delivered at Oxford University in 1948 as well as how it related to other presentations Innis made in Britain during the same period It explores how Innis sought to enrich his analysis by incorporating material related to phenomena such as war education religion culture geography and finance An insightful foreword by Marshall McLuhan is included as well as bibliographical references and a revised index By providing a narrative based on extensive notes from Innis this edition makes *Empire and Communications* more accessible and contributes to the broad efforts to shape Innis s legacy *Editing Economists and Economists as Editors* Pascal Bridel, 1992 **Staples, Markets, and Cultural Change** Harold Adams Innis, 1995 This new edition of Harold Innis s essays published on the occasion of his centenary assembles his most significant and representative writing Included are many of Innis s essays on cultural issues and economic development subjects he explored throughout his life that have not been readily accessible before **Emergence and Empire** John Bonnett, 2013-11-01 Harold Innis was one of the most profound thinkers that Canada ever produced Such was his influence on the field of communication that Marshall McLuhan once declared his own work was a mere footnote to Innis But over the

past sixty years scholars have had a hard time explaining his brilliance in large measure because Innis's dense elliptical writing style has hindered easy explication and interpretation. But behind the dense verbiage lies a profound philosophy of history. In *Emergence and Empire* John Bonnett offers a fresh take on Innis's work by demonstrating that his purpose was to understand the impact of self-organizing emergent change on economies and societies. Innis's interest in emergent change induced him to craft an original and bold philosophy of history informed by concepts as diverse as information, Kantian idealism, and business cycle theory. Bonnett provides a close reading of Innis's oeuvre that connects works of communication and economic history to present a fuller understanding of Innis's influences and influence. *Emergence and Empire* presents a portrait of an original and prescient thinker who anticipated the importance of developments such as information visualization and whose understanding of change is remarkably similar to that which is promoted by the science of complexity today.

Digital Dieting Tara Brabazon, 2016-04-22. Imagine if a student spent as much time managing information as celebrities doted on dieting. While eating too much food may be the basis of a moral panic about obesity, excessive information is rarely discussed as a crisis of a similar scale. Obviously plentiful and high quality food is not a problem if eating is balanced with exercise. But without the skills of media and information literacy, students and citizens wade through low quality online information that fills their day yet does not enable intellectual challenge, imagination, and questioning. *Digital Dieting: From Information Obesity to Intellectual Fitness* probes the social, political, and academic difficulties in managing large quantities of low quality information. But this book does not diagnose a crisis. Instead, *Digital Dieting* provides strategies to develop intellectual fitness that sorts the important from the irrelevant and the remarkable from the banal. In April 2010, for the first time, Facebook received more independent visitors than Google. Increasingly, there is a desire to share rather than search. But what is the impact of such a change on higher education? If students complain that the reading is too hard, then one response is to make it easier. If students complain that assignments are too difficult, then one way to manage this challenge is to make the assignments simpler. Both are passive responses that damage the calibre of education and universities in the long term. *Digital Dieting: From Information Obesity to Intellectual Fitness* provides active, conscious, careful, and applicable strategies to move students and citizens from searching to researching, sharing to thinking, and shopping to reading.

Canadian History: Confederation to the present Martin Brook Taylor, Doug Owsen, 1994-01-01. In these two volumes which replace the *Reader's Guide to Canadian History*, experts provide a select and critical guide to historical writing about pre and post Confederation Canada with an emphasis on the most recent scholarship. Cover *Unthinking Modernity* Judith Stamps, 1995-01-18. Like their European contemporaries, Innis and McLuhan worked toward a theory of how westerners have developed classifications through which they perceive the world. Moreover, Stamps shows that they used insights derived from their North American experience to add a new media-based perspective to such a theory. *Unthinking Modernity* offers unique perspectives on the ways in which economics, politics, and

media intertwine to create personal and social consciousness

Wilbur Schramm and Noam Chomsky Meet Harold

Innis Robert E. Babe, 2015-04-21 Wilbur Schramm and Noam Chomsky Meet Harold Innis is an original critical in depth analysis of the media and communication thought of Canada's most highly acclaimed scholar Harold Adams Innis. Even in Canada however Innis's writings until now have been only partially cited and interpreted. Innis is usually stereotyped as being merely an economic historian fixated on previous civilizations whereas in fact he was an astute analyst whose main concerns were with present problems and future trajectories. In the United States meanwhile Innis's media and communication writings have been quite neglected and even denigrated. Drawing on Innis's less frequently cited work including his long neglected *Political Economy in the Modern State* Robert Babe opens up Innis's media scholarship as a whole unfolding it in startling critical yet ultimately appreciative ways. By comparing Innis's media scholarship with Wilbur Schramm's and Noam Chomsky's moreover Babe tests the claims, positions and modes of analysis not only of Innis but also of the other two celebrated scholars as well, casting new light on their works and allowing the reader to imagine what sort of discourses might have been possible had the three been in conversation together. Intellectuals and Cultural Policy Jeremy

Ahearne, Oliver Bennett, 2007-06-14 Intellectuals and policy analysts might appear to inhabit two different worlds. Intellectuals aspire to articulate issues of universal concern; policy analysts attend to the detail of specific measures and programmes. How far do these common assumptions match up to reality? What happens when intellectuals engage with cultural institutions and the machinery of government? And how far is cultural policy connected to a history of ideas? The essays brought together here attempt to answer these questions. From the English Romantics to Lenin's wife, from Plato to Herbert Schiller, this book offers new insights into how intellectuals from Europe, Canada and North America have sought over time to assert their cultural values in public life.

Canadian Communication Thought Robert E. Babe, 2000-01-01

Babe examines the writings of ten major thinkers in the context of their physical and cultural environments and finds that there is indeed a mode of theorizing that is quintessentially Canadian.

Mind Technologies Raymond George

Siemens, David Moorman, 2006 *Mind Technologies* is the first volume to broadly document the internationally significant work of the Canadian academic community in the area of humanities computing. Edited by Raymond Siemens and David Moorman, *Mind Technologies* features contributions from those whose agencies provide research funding for such endeavours, from those whose institutions foster work in the area, and from innovative researchers whose work both reflects and has shaped inquiry into this rapidly growing field.

Mark Fackler, 2014-03-10 *The Handbook of Media and Mass Communication Theory* presents a comprehensive collection of original essays that focus on all aspects of current and classic theories and practices relating to media and mass

communication Focuses on all aspects of current and classic theories and practices relating to media and mass communication Includes essays from a variety of global contexts from Asia and the Middle East to the Americas Gives niche theories new life in several essays that use them to illuminate their application in specific contexts Features coverage of a wide variety of theoretical perspectives Pays close attention to the use of theory in understanding new communication contexts such as social media 2 Volumes

Staples and Beyond Mel Watkins, 2006-10-06 This collection brings together Watkins most important scholarly articles In *Staples and Beyond* Watkins addresses the staple thesis of Canadian economic and political development and in particular the effort to extend Harold Innis work by giving more explicit consideration to class relations and the role of the state He considers the historical nature of Canada's economic dependency in relation to tariff barriers foreign investment the multi national corporation and wide ranging free trade and investment agreements He also examines the evolution of economics and political economy as academic disciplines and reflects on the relationship between intellectual scholarship and political activism

The Toronto School of Communication Theory Rita Watson, Menahem Blondheim, 2008-02-23 While never formally recognized as a school of thought in its time the work of a number of University of Toronto scholars over several decades most notably Harold Adams Innis and Marshall McLuhan formulated a number of original attempts to conceptualize communication as a phenomenon and launched radical and innovative conjectures about its consequences This landmark collection of essays reassesses the existence and re evaluates the contribution of the so called Toronto School of Communication While the theories of Innis and McLuhan are notoriously resistant to neat encapsulation some general themes have emerged in scholarly attempts to situate them within the discipline of communications studies that they helped to define Three such themes focus on the effects and consequences of communications emphasis on communications as a process rather than as structure and a sharp focus on the technology of communication or the medium are the most fundamental in characterizing the unique perspective of the Toronto School This collection not only represents a crucial step in defining the Toronto School it also provides close analysis of the ideas of its individual members

Critical Perspectives on Media, Power and Change Ilija Tomanić Trivundža, Hannu Nieminen, Nico Carpentier, Josef Trappel, 2018-10-19 This book aims to feed into the critical debates about media power and change through the respectful inclusion of a wide variety of critical approaches and traditions This diversity is simultaneously structured and balanced by a deeply shared set of concerns that are mobilised to defend core societal values including social justice equality fairness care for the other and humanity *Critical Perspectives on Media Power and Change* raises questions about how the omnipresent media can contribute to the materialisation of these core values and how it sometimes works against them Rethinking social change mediatisation and regulations are thus significant issues explicitly addressed in this book In addition the authors show how the role of the critical media and communication scholar merits and requires self reflection critical voices matter but they also face structural limitations This book was originally published as two special issues of
