sensibilities A revised chapter on Buddhism presents the voices of modern Buddhist writers including the Dalai Lama Throughout the volume reflections on the role of women in Eastern religions as well as women's voices themselves are added *The Essentials of the Dharma Blossom Sutra* Hsüan Hua, 1974 **The Sutra** Yutong, In exploring the essence function and role of religion in human societies we have to confront a complex and multifaceted issue Religion as an enduring cultural phenomenon has evolved in its connotations and denotations over time This profound exploration into religion reveals the secrets behind the enduring vitality of religious practices and the invisible ecological nature of religion itself It presents the power of enlightenment transcending the realms of monks and nuns making us realize that all beings possess Buddha nature and the potential to attain enlightenment Enlightenment is the foundation of faith and a pivotal moment in the course of scientifically disciplined spiritual practice In the vast river of the universe humanity is but a node with an enlightened society being its ultimate destination Through the right knowledge and insight we ensure the absolute authority of the Sutra approaching the original intent of the Buddha infinitely and materialistically Employing a scientific materialist perspective to understand Buddhism is the essential path to enlightenment and mastery of objective laws The reason religion continues to captivate people lies not only in its provision of spiritual solace but more importantly in fulfilling the pursuit of ultimate meaning Through its unique belief system religion offers believers a way to interpret the world and life often surpassing everyday experiences and logic Moreover religion plays a social function by propagating specific values thereby influencing society and maintaining social order to some extent The essence of religion can be regarded as an objectively existing invisible ecology This view considers religion as a manifestation of a special relationship between humans and nature and the universe representing humanity's attempt to understand and master the world The sacred reality in religion provides people with a spiritual refuge beyond reality enabling them to find strength and hope when facing difficulties and challenges in life Third enlightenment is the essence of Buddha nature it is not confined to monks or nuns This view highlights the importance of self-awakening in Buddhism Every individual has the potential to become enlightened It is not limited to monks or nuns but open to anyone willing and able to follow the correct practices This perspective encourages personal spiritual enhancement and self-improvement through inner cultivation and practice The belief that all beings possess Buddha nature signifies everyone's potential for enlightenment Grounded in a fundamental doctrine of Buddhism it suggests that all living beings inherently possess supreme Buddha nature which can be gradually unveiled by the correct practice removing ignorance and delusion ultimately achieving enlightenment This highlights Buddhism's affirmation of individual potential and the possibility of self-transcendence through practice In summary religion as a complex cultural phenomenon extends far beyond mere superstition or spiritual reliance It influences the development and future of human societies with correct knowledge and insight Religion serves both as an individual's spiritual pursuit and a societal value system Through a deep understanding and study of religion we can better recognize its significant status in human history and culture as well as its

positive contributions to individual and societal development This journey of exploration is not only a reflection on religion itself but also an inquiry into human civilization transcending traditional religious boundaries Integrating science and faith and opening a path to enlightenment In this era of challenge and transformation this book offers a guiding light leading us towards a deeper reflection and cognition Illuminating a promising path for humanity's future **Sursundari Kevala**

Losers Mikael S. Adolphson,Anne Commons,2015-09-30 *Lovable Losers* is the first substantial piece of English language scholarship to examine the actions and the memorization of the Heike Ise Taira a family of aristocratic warriors whose resounding defeat at the hands of the Seiwa Genji in 1185 resulted in their iconic status as tragic losers The Tale of the Heike and the many other works derived from it set in place the depiction of the Heike as failed upstart aristocrats whose spectacular downfall was due to neglect of their warrior heritage and the villainy of the family head Taira no Kiyomori *Lovable Losers* aims to contextualize and deconstruct representations of the Heike not only to show how such representations were created in specific contexts in response to specific needs but also to demonstrate that the

representations themselves came to create and sustain a particular kind of culture Drawing on the expertise of scholars in a variety of disciplines this volume explores the Heike in their own time and their depiction as cultural figures in the centuries that followed Their portrayal in literature and the arts spans more than eight hundred years and a wide range of genres and media including n plays picture scrolls early modern comic books novels and film In texts from the sixteenth to twentieth centuries the Heike serve as catalysts for miracles and vectors for subtle criticisms of the Tokugawa government Over time Kiyomori became an emblem of postwar democracy and economic progress today he is a powerful symbol of modern citizens dissatisfaction with politics The Heike s ambiguous moral standing allowed them to be reimagined reconstructed and repurposed by different authors in different contexts as both heroes and villains Rather than assuming their failure Lovable Losers repositions the Heike within the larger phenomenon of the Genpei War and its aftermath demonstrating how they took advantage of their station as nobles and warriors The new research it presents seeks to transcend categorization and blur the lines between different approaches to the Heike to give a well rounded depiction of a family who has played a defining role in Japanese culture in action in memory and somewhere in between **The East** Christopher

Tadgell,2015-10-23 Continuing the Architecture in Context series this second volume narrates the development of architecture across a huge swathe of the world from the Indian subcontinent to the Japanese archipelago over a period extending from prehistory to the arrival of Islam and its distinct traditions from the eleventh century onwards Fantastically illustrated with over 1 000 photographs and drawings Christopher Tadgell covers the major architectural traditions of India China Thailand and Japan as well as the spectacular architecture of Sri Lanka Nepal Korea Myenmar Bhutan and Tibet As with the first volume Antiquity The East presents not only the buildings themselves but the cultures and peoples that they are a part of Unprecedented in its scope this volume is a beautiful guide to the fascinating history of Eastern architecture
