*The Impact of the Reformation* Heiko Augustinus Oberman, 1994 This collection of essays from a distinguished scholar of medieval Renaissance and Reformation history examines one of the most fascinating and turbulent periods of human history from the perspective of the social history of ideas Taking advantage of the windows offered by late medieval scholastic thought the Modern Devotion Johann von Staupitz Martin Luther Marian piety and the escalation of anti-Semitism Heiko A Oberman illuminates the social and intellectual context for the reform of church and society in the sixteenth century These programmatic essays not only provide analyses of Reformation events but also contribute to the contemporary search for new methods and models that better capture the meaning of that period Recognizing the distance between intellectual and social historians of the Reformation Oberman seeks to bridge the gap by pursuing an innovative path The impact of the Reformation is traced through everyday life as well as through individual programs for change The Impact of the European

Reformation Ole Peter Grell, 2017-05-15 Recent decades have witnessed the fragmentation of Reformation studies with high level research confined within specific geographical confessional or chronological boundaries By bringing together scholars working on a wide variety of topics this volume counteracts this centrifugal trend and provides a broad perspective on the impact of the European reformation The essays present new research from historians of politics of the church and of belief Their geographical scope ranges from Scotland and England via France and Germany to Transylvania and their chronological span from the 1520s to the 1690s Considering the impact of the Reformation on political culture and examining the relationship between rulers and ruled the book also examines the church and its personnel another sphere of life that was entirely transformed by the Reformation Important aspects of knowledge and belief are discussed in terms of scientific knowledge and technological progress juxtaposed with analyses of elite and popular belief which demonstrates the limitations of Weber's notion of the disenchantment of the world Together they indicate the diverse directions in which Reformation scholarship is now moving while reminding us of the need to understand particular developments within a broader European context demonstrating that movements for religious reform left no sphere of European life untouched

African Christian Theologies and the Impact of the Reformation Heinrich Bedford-Strohm, Tharcisse Gatwa, Traugott Jähnichen, Elisée Musemakweli, 2017 One of the strongest heritages of the Reformation for Christianity was to return to the central role given to the Bible translated in local dialects Christianity expanded thanks to the translation of the Bible in vernacular languages worldwide Most importantly the people who had been victims of prejudices of race supremacy could now have access to God in their own language culture and idioms without intermediaries It is largely thanks to Bible translations that the majority of those churches in Africa born of European mission activities continued to develop positively after the end of the colonial age and that independent African churches emerged Series Theology in the Public Square Theologie in der Öffentlichkeit Vol 10 Subject African Studies Christian Studies The Impact of Reformation on the

Historical and Social Development of Christianity in South-South Nigeria Emeka Ekeke, 2015-02-03 Doctoral Thesis  
Dissertation from the year 2013 in the subject Theology Historic Theology Ecclesiastical History grade 3 49 A Atlantic  
International University Social and Human Studies course Religious Studies language English abstract Reformation was a  
great movement that began in Europe in the fourteenth century with far reaching implications on the religious historical and  
social development of Christianity globally It opened a new door of opportunity for missionary efforts around the world and  
culminated in the massive missionary expeditions of the eighteen and nineteen centuries The main thrust of this study was to  
investigate the impact of Reformation on the historical and social development of Christianity in South South Nigeria To  
achieve the purpose of this study five hypotheses were formulated to guide the study Literature review was carried out  
according to the variables of the study Survey research design was adopted for the study A sample of one thousand 1000  
respondents was randomly selected for the study The selection was done through the stratified and simple random sampling  
technique The questionnaire was the main instruments used for data collection The instruments were faced validated by the  
supervisor who vetted the items developed The reliability estimate of the instruments was established through the test retest  
reliability method Pearson product moment correlation analysis was employed to test the hypotheses under study Each  
hypothesis was tested at 05 level of significance The result of the analysis revealed that cultural development of Christianity  
slave trade educational development development of health institutions and historical development in Nigeria significantly  
relate with Reformation Based on the findings of the study it was among others recommended that those cultural nationalists  
who denigrate the missionary enterprise in Nigeria and Christianity in general should start appreciating their efforts as  
having contributed in no small measure to the development of the country *The Impact of the European Reformation*  
Bridget Heal, Ole Peter Grell, 2008 Recent decades have witnessed the fragmentation of Reformation studies High level  
research has tended to be confined within specific geographical confessional or chronological boundaries By bringing  
together scholars working on a wide variety of topics this volume aims to counteract this centrifugal trend and to provide a  
broad perspective on the impact of the European reformation The essays present new research from historians of politics of  
the church and of belief Their geographical scope ranges from Scotland and England via France and Germany to  
Transylvania and their chronological span from the 1520s to the 1690s Together they demonstrate that movements for  
religious reform left no sphere of European life untouched **The Apocalypse in Reformation Nuremberg** Andrew L.  
Thomas, 2022-10-03 Lutheran preacher and theologian Andreas Osiander 1498 1552 played a critical role in spreading the  
Lutheran Reformation in sixteenth century Nuremberg Besides being the most influential ecclesiastical leader in a prominent  
German city Osiander was also a well known scholar of Hebrew He composed what is considered to be the first printed  
treatise written by a Christian defending Jews against blood libel Despite Osiander's importance however he remains  
surprisingly understudied *The Apocalypse in Reformation Nuremberg* Jews and Turks in Andreas Osiander's World is the first

book in any language to concentrate on his attitudes toward both Jews and Turks and it does so within the dynamic interplay between his apocalyptic thought and lived reality in shaping Lutheran identity Likewise it presents the first published English translation of Osiander's famous treatise on blood libel Osiander's writings on Jews and Turks that shaped Lutherans identity from cradle to grave in Nuremberg also provide a valuable mirror to reflect on the historical antecedents to modern antisemitism and Islamophobia and thus elucidate how the related stereotypes and prejudices are both perpetuated and overcome

**German Reformation** R. W. Scribner, 2017-03-14 Over the past twenty years new approaches to the history of the Reformation of the Church have radically altered our understanding of that event within its broadest social and cultural context In this classic study R W Scribner provided a synthesis of the main research with a special emphasis on the German Reformation and presented his own interpretation of the period Paying particular attention to the social history of the broader religious movements of the German Reformation Scribner examined those elements of popular culture and belief which are now seen to have played a central role in shaping the development and outcome of the movements for reform in the sixteenth century Scribner concluded that the Reformation as it came to be known was only one of a wide range of responses to the problem of religious reform and revival and suggested that the movement as a whole was less successful than previously claimed In the second edition of this invaluable text C Scott Dixon's new Introduction supplementary chapter and bibliography continue Scribner's original lines of inquiry and provide additional commentary on developments within German Reformation scholarship over the sixteen years since its first publication

*The Reformation in National Context* Robert Scribner, Roy Porter, Mikulas Teich, 1994-06-09 The collection of essays by prominent historians of the Reformation explores the experience of religious reform in national context discussing similarities and differences between the reform movements in a dozen different countries of sixteenth century Europe Each author provides an interpretative essay emphasising local peculiarities and national variants on the broader theme of the Reformation as a European phenomenon

The individual essays thus emphasise the local preconditions and limitations which encountered the Reformation as it spread from Germany into most of the countries of western and central Europe Together they present a picture of the many sided nature of the Reformation as it grew up in each national context The book includes examples of countries where the Reformation was strikingly successful as well as those where it failed to make an impact A final comparative essay seeks to understand the different Reformations as variations on an overall theme This volume forms part of a sequence of collections of essays which began with The Enlightenment in national context 1981 and has continued with Revolution in history 1986 Romanticism in national context 1988 Fin de siecle and its legacy 1990 The Renaissance in national context 1991 The Scientific Revolution in national context 1992 and The national question in Europe in historical context 1993 The purpose of these and other envisaged collections is to bring together comparative national and interdisciplinary approaches to the history of great movements in the development of human thought and action

Brown, Günter Frank, Barbara Mahlmann-Bauer, Tarald Rasmussen, Violet Soen, Zsombor Tóth, Günther Wassilowsky, Siegrid Westphal, 2023-11-13 The European reformations meant major changes in theology religion and everyday life Some changes were immediate and visible in a number of countries monasteries were dissolved new liturgies were introduced and married pastors were ordained others were more hidden Theologically as well as practically the position of the church in the society changed dramatically but differently according to confession and political differences This volume addresses the question of how the theological liturgical and organizational changes brought by the reformation within different confessional cultures throughout Europe influenced the everyday life of ordinary people within the church and within society The different contributions in the book ask how lived religion space and everyday life were formed in the aftermath of the reformation and how we can trace changes in material culture in emotions in social structures in culture which may be linked to the reformation and the development of confessional cultures

The German People and the Reformation R. Po-chia Hsia, 1988 In the past scholars tended to treat the Reformation as a chapter in the history of ideas emphasizing the thought of the major reformers and the changes in Christian doctrine Today however more and more historians are asking how the revolution in theology affected the lives of ordinary men and women Aware that religious faith is part of the larger cultural and material universe of early modern Europeans these scholars have exploited hitherto neglected sources in an attempt to reconstruct the people s Reformation The twelve essays commissioned for this collection represent the broad spectrum of recent scholarship in the social history of the German Reformation Historians from various countries offer a panorama of different methodological approaches and thematic concerns Some of the essays represent original research others address current historiographical debates still others offer concise syntheses of recently published monographs including seminal works in German The essays are centered around four themes cities and the Reformation the transmitting of the Reformation in print ritual and song women and the family and lastly the impact of the Reformation on education and other aspects of lay culture

Reformation Marriage Michael Parsons,2011-09-15 For centuries its critics have argued that the Reformation was all about sex Beyond the caricature there is something significant in the observation The theological revolution which began in Wittenberg and engulfed so much of early modern Europe was not confined to the cloister of the university it had an immediate and palpable impact on everyday life Historians such as Steven Ozment have done much to bring this dimension of the Reformation's impact into full view Michael Parsons important study *Reformation Marriage* continues this exploration Aware of appeals made to the teaching of the Reformers by both sides of contemporary debates about gender and relational issues Dr Parsons allow us to hear Luther and Calvin for ourselves locating their comments about family life against the background of medieval teaching on the subject and placing them in the context of each man's wider theological concerns Here is careful and accessible scholarship that challenges popular misunderstandings about the contribution of the Reformation in this area Mark D Thompson Moore Theological College Sydney Australia In the only book specifically on the subject to date Michael Parsons investigates the theology of marriage in the writings of Martin Luther and John Calvin carefully examining a daunting breadth of the Reformers theological exegetical and homiletic works He concentrates on the role of the wife in the conjugal relationship but avoids the common polarity between the modern feminist critique of the woman's role in a Christian understanding of marriage and society and those who simply ignore the gender difference between man and woman While appreciating the questions raised by the modern liberationist and feminist scholars of the Reformers Parsons believes they have generally failed to deal with the corpus of the Reformers in a sufficiently nuanced way On the other hand unlike some scholars who want to rescue these Reformers from contemporary criticism Parsons carefully argues from wide primary evidence that neither Luther nor Calvin envisaged modifying the traditional hierarchal structure of

marriage or the subordinationist conjugal relationship between man and woman He refuses to turn the Reformers into pro twenty first century thinkers much as we might like them to conform more readily to our own contemporary attitudes His interpretation therefore injects a much needed dimension of historical realism into the ongoing scholarly debate on the Reformers social theology Rowan Strong Murdoch University Perth Western Australia Michael Parsons is Commissioning Editor for Paternoster Press and Associate Research Fellow at Spurgeon College London Previously he was Director of Postgraduate Research at Vose Seminary Perth Western Australia He lives with his wife and two children
