Gipouloux, 2011-01-01 This intensive monograph The Asian Mediterranean is a great synthesis of east west maritime worlds under an emerging global world Professor Gipouloux has combined historical studies on global maritime seas with regional economic studies on Asia He also integrates historical interaction between maritime seas and coastal port cities by creating the imaginative geo economic concept of the East Asian economic corridor running between Vladivostok and Singapore and locating China Japan and Southeast Asia into this maritime area To attain this goal Professor Gipouloux globalises China through north south east west and past present combinations using cross disciplinary approaches political economy geography and international relations under wide historical perspectives The Asian Mediterranean opens a new horizon to look into Asia from a global perspective and at the same time reminds us of the connection beyond contrast between East and West Takeshi Hamashita Tokyo University Japan and Sun Yat sen University Guangzhou China A fascinating analysis of the proposition that the start of the 21st century is witnessing the rapid rise in South East Asia of a new and powerful transnational economic zone the Asian Mediterranean It uses a wide range of historical and contemporary multidisciplinary sources to systematically explore how why and in what ways we can better interpret and understand this contemporary version of economic globalisation by looking back to the equivalent processes centred on the ports around the Mediterranean and the Baltic seas during the late 16th century Peter Daniels University of Birmingham UK François Gipouloux has written a vast and comprehensive history of the Asian economic system In the tradition of Braudel he paints a picture that is detailed full of insight and essentially very long term On the basis of an analysis of the old Mediterranean and Hanseatic economic networks he surveys the pre modern Asian system bringing it up to date with studies of Yokohama Hong Kong Singapore and other Asian hubs The culmination of many years work Gipouloux throws light on a new China a China no longer land based and inward looking but dependent on and a power in a maritime world Christopher Howe University of London UK Gipouloux's ground breaking study based on a long career as a scholar of Asia's past is a most original contribution to the study of globalization Connecting past and present the author has further developed the somewhat vague metaphor of an Asian Mediterranean into a well defined concept that can also be applied to analyzing contemporary affairs While in the past the

traditional Chinese and Japanese state systems were failing to formulate adequate answers on a more informal level the port cities were able to meet with the maritime challenges of the emerging modern world system The author convincingly shows how also in the age of globalization a string of coastal metropolises continues to be instrumental in opening up the Far Eastern economy to the global economy Leonard Blussé Leiden University The Netherlands This insightful book draws upon a wide range of disciplines political economy geography and international relations to examine how Asia has returned to its central position in the world economy As in the case of the hosting of the Olympic games it is cities rather than states which compete whether as financial centres logistical hubs or platforms for coordinating international subcontracting Analysing the historical precedents of the Mediterranean maritime republics the Baltic Sea Hanseatic League and the South China Sea mercantile kingdoms the book delineates the way stable economic and legal institutions were developed largely beyond the purview of and at times in conflict with the State Discussing the strong link between history and contemporary economic situation The Asian Mediterranean will appeal to academics including

long peace and the outbreak of a war that transformed Europe and the world The War That Ended Peace brings vividly to life the military leaders politicians diplomats bankers and the extended interrelated family of crowned heads across Europe who failed to stop the descent into war in Germany the mercurial Kaiser Wilhelm II and the chief of the German general staff Von Moltke the Younger in Austria Hungary Emperor Franz Joseph a man who tried through sheer hard work to stave off the coming chaos in his empire in Russia Tsar Nicholas II and his wife in Britain King Edward VII Prime Minister Herbert Asquith and British admiral Jacky Fisher the fierce advocate of naval reform who entered into the arms race with Germany that pushed the continent toward confrontation on land and sea There are the would be peacemakers as well among them prophets of the horrors of future wars whose warnings went unheeded Alfred Nobel who donated his fortune to the cause of international understanding and Bertha von Suttner a writer and activist who was the first woman awarded Nobel's new Peace Prize Here too we meet the urbane and cosmopolitan Count Harry Kessler who noticed many of the early signs that something was stirring in Europe the young Winston Churchill then First Lord of the Admiralty and a rising figure in British politics Madame Caillaux who shot a man who might have been a force for peace and more With indelible portraits MacMillan shows how the fateful decisions of a few powerful people changed the course of history Taut suspenseful and impossible to put down The War That Ended Peace is also a wise cautionary reminder of how wars happen in spite of the near universal desire to keep the peace Destined to become a classic in the tradition of Barbara Tuchman's The Guns of August The War That Ended Peace enriches our understanding of one of the defining periods and events of the twentieth century Praise for The War That Ended Peace Magnificent The War That Ended Peace will certainly rank among the best books of the centennial crop The Economist Superb The New York Times Book Review Masterly marvelous Those looking to understand why World War I happened will have a hard time finding a better place to start The Christian Science Monitor The debate over the war's origins has raged for years Ms MacMillan's explanation goes straight to the heart of political fallibility Elegantly written with wonderful character sketches of the key players this is a book to be treasured The Wall Street Journal A magisterial 600 page panorama Christopher Clark London Review of Books

The Tsar's Last Armada
Constantine V Pleshakov, 2008-08-06 On May 14 15 1905 in the Tsushima Straits near Japan an entire Russian fleet was annihilated its ships sunk scattered or captured by the Japanese In the deciding battle of the Russo Japanese War the Japanese lost only three destroyers but the Russians lost twenty two ships and thousands of sailors It was the first modern naval battle employing all the new technology of destruction The old imperial navy was woefully unprepared The defeat at Tsushima was the last and greatest of many indignities suffered by the Russian fleet which had traveled halfway around the world to reach the battle dogged every mile by bad luck and misadventure Their legendary admiral dubbed Mad Dog led them on an extraordinary eighteen thousand mile journey from the Baltic Sea around Europe Africa and Asia to the Sea of Japan They were burdened by the Tsar's incompetent leadership and the old slow ships that he insisted be included to bulk

up the fleet Moreover they were under constant fear of attack and there were no friendly ports to supply coal food and fresh water The level of self sufficiency attained by this navy was not seen again until the Second World War The battle of Tsushima is among the top five naval battles in history equal in scope and drama to those of Lepanto Trafalgar Jutland and Midway yet despite its importance it has been long neglected in the West With a novelist's eye and a historian's authority Constantine Pleshakov tells of the Russian squadron's long difficult journey and fast horrible defeat
