# The Inner History of the Chinese Revolution

By

T'ang Leang-Li

*Representative in Great Britain and Correspondent in  
Europe of the Central Executive Committee  
of the Kuo-Min Tang*

One of the most dramatic aspects of the Chinese National Revolution is that practically all the leaders have studied abroad—particularly in England and the United States—and have gained their revolutionary inspirations from Western political philosophy.

The author, having been closely associated with the most prominent of these leaders and having had access to many confidential documents, has become acquainted with the secret decisions of the Political Council of the Kuo-Min Tang, which are now revealed for the first time.

This is the first book to give an insight into the inner machinery of a Revolution inspired and conducted by leaders whose "foreign" political philosophy turned their eyes away from the past and the restoration of the Empire, toward the future with its hope of a new social and political consciousness for all classes of the Chinese people.
