Changes a structure that promotes in a non hierarchical way the harmony and transformation of opposites Because the non hierarchical model is not limited to the East Asian tradition it is considered in relation to ideas developed in the West including Carl Jung s archetypal psychology Georg Cantor s Diagonal Theorem Rene Girard s mimetic desire and Alfred North Whitehead s process thought By critically reviewing the numerical and symbolic structures of Yijing Young Woon Ko introduces Kim Ilbu s Jeongyeok the Book of Right Changes and demonstrates that it intensifies the correlation between opposites to overcome any hierarchical system implied by the Yijing Both the Yijing and the Jeongyeok are useful textual sources for kindling a discussion about the Divine which is conceived in Eastern and Western philosophical theological traditions quite differently While the nontheistic aspects of the Ultimate feature prominently in Yijing Jeongyeok extends them to a theistic issue by introducing the notion of Sangjae the Supreme Lord which can lead to a fruitful dialogue for understanding the dipolar characteristics of the divine reality personal and impersonal Ko considers their contrast which has divided Eastern and Western religious belief systems to be transformational and open to a wider perspective of the divine conception in the process of change

Mapping China and Managing the World Richard J. Smith,2013-05-20 From the founding of the Qin dynasty in 221 BCE to the present the Chinese have been preoccupied with the notion of ordering their world Efforts to create and maintain order are expressed not only in China s bureaucratic institutions and methods of social and economic organization but also in Chinese philosophy religious and secular ritual and comprehensive systems of classifying all natural and supernatural phenomena Mapping China and Managing the World focuses on Chinese constructions of order zhi and examines the most important ways in which elites in late imperial China sought to order their vast and variegated world This book begins by exploring the role of ancient texts and maps as the two prominent symbolic devices that the Chinese used to construct cultural meaning

and looks at how changing conceptions of the world shaped Chinese cartography whilst both shifting and enduring cartographic practices affected how the Chinese regarded the wider world Richard J Smith goes on to examine the significance of ritual in overcoming disorder and by focusing on the importance of divination shows how Chinese at all levels of society sought to manage the future as well as the past and the present Finally the book concludes by emphasizing the enduring relevance of the Yijing Classic of Changes in Chinese intellectual and cultural life as well as its place in the history of Sino foreign interactions Bringing together a selection of essays by Richard J Smith one of the foremost scholars of Chinese intellectual and cultural history this book will be welcomed by Chinese and East Asian historians as well as those interested more broadly in the culture of China and East Asia *Journeys East* Harry Oldmeadow,2004-04-28 *Journeys East* tells the story of the twentieth century s encounters between East and West by exploring the lives of many of the most fascinating scientists intellectuals artists and spiritual seekers of our time *Anatomy of Change* Mikhail Goussev,2012-03-01 Everything in the universe from human relationships to high energy particle interactions is participating in a ceaseless process of change guided by simple yet universal patterns From the beginning of philosophical thought in ancient China nearly 4000 years ago through current research in physics and molecular biology one basic question is being posed How do phenomena change Phillips 1992 The book *Anatomy of Change* Millennia Old Model For Navigating Change and Uncertainty explores one of the world oldest and perhaps the most universal system developed by mankind the I Ching or the ancient Chinese Classic of Change to address this question in the context of human relationships and organizational dynamics **Unveiling Sophia** Anne Elizabeth Taylor,2021-05-01 Eternal feminine wisdom synchronizes the human heartbeat with the heartbeat of the universe The Dalai Lama famously proclaimed that Western Women can save the world But many modern women and men are painfully dissociated from Sophia their inner spring of feminine wisdom and the primal source of their power and nurturance Western women from around the globe have deep archetypal roots that have lain dormant after millennia of patriarchal control Sophia awaits collective rebirth and her portal for rebirth is through the heart Sophia who the ancient Greeks regarded as the goddess of wisdom represents a threshold through which we can access the deep reserves of archetypal wisdom veiled within our hearts The eternal feminine hithers us on Johann Wolfgang von Goethe Faust II To reveal this wisdom we must open ourselves to methods beyond logos the masculine principle of logic and structure that underlies the scientific approaches characteristic of our enlightened age Paradoxically as we begin to lift Sophia s veil we encounter scientific profundity proving that masculine and feminine are not fundamentally at odds Sophia does not replace logos but instead offers a balancing perspective a wisdom beyond sense perceptions Through Sophia the wisdom of the heart accelerates the evolution of humanity from one sided logos to incorporate new forms of awareness and through our collective evolution we also heal the soul of the world anima mundi **Talking to Nightlights** Wendy Garrett,2007-04 When a nightlight speaks and only you can understand it do you listen or pretend that your imagination is

merely playing tricks In this revitalizing spiritual guide follow a woman s inspirational journey and learn the power that can be harnessed by losing fear and suspending disbelief After witnessing her nightlight talking to her through a series of blinks Wendy Garrett chose to defy logic and pay attention to the message Her decision led her on a startling journey of self discovery a metamorphosis from an external and distant relationship with the source of life and the divine to a fully integrated awareness of the ever present nature of all that is sacred and holy Divided into two sections Talking to Nightlights explores Garrett s coming to terms with being a channel for the force she calls Energy and reveals its hidden messages But even more importantly this revolutionary guide presents a new expanded worldview on a more mystical level By allowing ourselves to step back from what we perceive as reality and open our minds to the possibility of the unknown our outlook upon the manifest world will be forever changed
