Joyce Marcus,1987 **The Inscriptions of Calakmul** Joyce Marcus,1987 **The Creation of Inequality** Kent Flannery,Joyce Marcus,2012-05-15 Flannery and Marcus demonstrate that the rise of inequality was not simply the result of population increase food surplus or the accumulation of valuables but resulted from conscious manipulation of the unique social logic that lies at the core of every human group Reversing the social logic can reverse inequality they argue without violence **Royal Courts Of The Ancient Maya** Takeshi Inomata,Stephen D. Houston,2018-05-15 This book provides theory comparison and synthesis to establish a carefully considered framework for approaching the study of courts and their functions throughout the world of the ancient Maya It is based on the annual meeting of the American Anthropological Association **Translating Maya Hieroglyphs** Scott A.J. Johnson,2013-06-24 Maya hieroglyphic writing may seem impossibly opaque to beginning students but scholar Scott A J Johnson presents it as a regular and comprehensible system in this engaging easy to follow textbook The only comprehensive introduction designed specifically for those new to the study Translating Maya Hieroglyphs uses a hands on approach to teach learners the current state of Maya epigraphy Johnson shows readers step by step how to translate ancient Maya glyphs He begins by describing how to break down a Mayan text into individual glyphs in the correct reading order and then explains the different types of glyphs and how they function in the script Finally he shows how to systematically convert a Mayan inscription into modern English Not simply a reference volume Translating Maya Hieroglyphs is pedagogically arranged so that it functions as an introductory foreign language textbook Chapters cover key topics including spelling dates and numbers basic grammar and verbs Formal linguistic information is accessibly explained while worksheets and exercises complement and reinforce the material covered in the text Glyph blocks and phrases drawn from actual monuments illustrate the variety and scribal virtuosity of Maya writing The Maya writing system has not been fully deciphered Throughout the text Johnson outlines and explains the outstanding disputes among Mayanists At the end of each chapter he offers sources for further reading Helpful appendices provide quick reference to vocabulary glyph meanings and calendrical data for students undertaking a translation The study of Maya glyphs has long been an arcane subject known only to a few specialists This book will change that Taking advantage of the great strides scholars have made in deciphering hieroglyphs in the past four decades Translating Maya Hieroglyphs brings this knowledge to a broader audience including archaeologists and budding epigraphers **Ancient Maya Politics** Simon

Martin,2020-06-18 With new readings of ancient texts Ancient Maya Politics unlocks the long enigmatic political system of the Classic Maya **The Decipherment of Ancient Maya Writing** Stephen D. Houston,Oswaldo Fernando Chinchilla Mazariegos,David Stuart,2001 The Decipherment of Ancient Maya Writing is an important story of intellectual discovery and a tale of code breaking comparable to the interpreting of Egyptian hieroglyphs and the decoding of cuneiform This book provides a history of the interpretation of Maya hieroglyphs Introductory essays offer the historical context and describe the personalities and theories of the many authors who contributed to the understanding of these ancient glyphs *Social Identities in the Classic Maya Northern Lowlands* Traci Ardren,2015-04-15 Using new archaeological data from four major cities of the Classic Maya world this book explores how gender age familial and community memories and the experience of living in an urban setting interacted to form social identities Social Identities in the Classic Maya Northern Lowlands plumbs the archaeological record for what it can reveal about the creation of personal and communal identities in the Maya world Using new primary data from her excavations at the sites of Yaxuna Chunchucmil and Xuenkal and new analysis of data from Dzibilchaltun in Yucatan Mexico Traci Ardren presents a series of case studies in how social identities were created shared and manipulated among the lowland Maya Ardren argues that the interacting factors of gender age familial and community memories and the experience of living in an urban setting were some of the key aspects of Maya identities She demonstrates that domestic and civic spaces were shaped by gender specific behaviors to communicate and reinforce gendered ideals Ardren discusses how child burials disclose a sustained pattern of reverence for the potential of childhood and the power of certain children to mediate ancestral power She shows how small shrines built a century after Yaxuna was largely abandoned indicate that its remaining residents used memory to reenvision their city during a time of cultural reinvention And Ardren explains how Chunchucmil s physical layout of houses plazas and surrounding environment denotes that its occupants shared an urban identity centered in the movement of trade goods and economic exchange Viewing this evidence through the lens of the social imaginary and other recent social theory Ardren demonstrates that material culture and its circulations are an integral part of the discourse about social identity and group membership *Maya History* Tatiana Proskouriakoff,2011-01-19 Tatiana Proskouriakoff a preeminent student of the Maya made many breakthroughs in deciphering Maya writing particularly in demonstrating that the glyphs record the deeds of actual human beings not gods or priests This discovery opened the way for a history of the Maya a monumental task that Proskouriakoff was engaged in before her death in 1985 Her work Maya History has been made ready for press by the able editorship of Rosemary Joyce Maya History reconstructs the Classic Maya period roughly A D 250 900 from the glyphic record on stelae at numerous sites including Altar de Sacrificios Copan Dos Pilas Naranjo Piedras Negras Quirigua Tikal and Yaxchilan Proskouriakoff traces the spread of governmental institutions from the central Peten especially from Tikal to other city states by conquest and intermarriage Thirteen line drawings of monuments and over three hundred original drawings of glyphs amplify the text

Gender and Power in Prehispanic Mesoamerica Rosemary A. Joyce, 2009-06-23 Gender was a fluid potential not a fixed category before the Spaniards came to Mesoamerica Childhood training and ritual shaped but did not set adult gender which could encompass third genders and alternative sexualities as well as male and female At the height of the Classic period Maya rulers presented themselves as embodying the entire range of gender possibilities from male through female by wearing blended costumes and playing male and female roles in state ceremonies This landmark book offers the first comprehensive description and analysis of gender and power relations in prehispanic Mesoamerica from the Formative Period Olmec world ca 1500 500 BC through the Postclassic Maya and Aztec societies of the sixteenth century AD Using approaches from contemporary gender theory Rosemary Joyce explores how Mesoamericans created human images to represent idealized notions of what it meant to be male and female and to depict proper gender roles She then juxtaposes these images with archaeological evidence from burials house sites and body ornaments which reveals that real gender roles were more fluid and variable than the stereotyped images suggest

Río Azul Richard E. W. Adams, 1999 Deep within the forest in northern Guatemala lie the ruins of Río Azul a Maya city that reached one third the size of Tikal Discovered and partially explored in the early 1960s Río Azul and the surrounding region were more fully investigated between 1983 and 1987 by an archaeological team led by Richard E W Adams In this summary Adams integrates the findings of field archaeologists with those of the epigraphers and art historians to recreate the life of this Maya city from the little known Early Classic period Remains in the Río Azul area date from 900 B C to A D 850 The data indicate that unlike most Maya cities that have been studied Río Azul was a frontier town an administrative center with alternating defense and trade outpost functions About A D 385 the Río Azul region was conquered and the city founded by Tikal serving as a Teotihuacan linked garrison for that capital Nearly all of the more than seven hundred structures found within Río Azul were erected between A D 390 and 530 Acres of pavement were laid down around some thirty complexes of residences temples and tombs notable for the brightly painted red hieroglyphs and murals on their walls The elaborate complexes and

sumptuous artifacts suggest a city with a heavy proportion of aristocratic families and retainers Around A D 530 Ro Azul appears to have been suddenly destroyed The city was abandoned then reoccupied only to stagnate and finally collapse like many other Classic Maya cities in the late ninth century *Blood and Beauty* Rex Koontz, Heather Orr, 2009-12-31 Warfare ritual human sacrifice and the rubber ballgame have been the traditional categories through which scholars have examined organized violence in the artistic and material records of ancient Mesoamerica and Central America This volume expands those traditional categories to include such concerns as gladiatorial like boxing combats investiture rites trophy head taking and display dark shamanism and the subjective pain inherent in acts of violence Each author examines organized violence as a set of practices grounded in cultural understandings even when the violence threatens the limits of those understandings The authors scrutinize the representation of and relationships between different types of organized violence as well as the implications of those activities which can include the unexpected such as violence as a means of determining and curing illness and the use of violence in negotiation strategies **The Maya of the Cochuah Region** Justine M. Shaw, 2015-12 This book the first major collection of data from the Cochuah region investigations presents and analyzes findings on more than eighty sites and puts them in the context of the findings of other investigations from outside the area **Gender and Archaeology** Rita Wright, 1996-10 Gender and Archaeology challenges archaeologists to draw on wider feminist discourses in their interpretations of past societies and also challenges feminist scholars in other disciplines to consider new engendered approaches to archaeology Maya E Groups David A. Freidel, Arlen F. Chase, Anne S. Dowd, Jerry Murdock, 2017-08-08 E groups are not the fifth element but a group of structures in the temple complexes of Classic Maya City centers In this volume from distinguished researchers of the Classic period the E groups prove to be more than just records of the sun s passages through the years *Maya Imagery, Architecture, and Activity* Maline D. Werness-Rude, Kaylee R. Spencer, 2015-05 Maya Imagery Architecture and Activity privileges art historical perspectives in addressing the ways the ancient Maya organized manipulated created interacted with and conceived of the world around them The Maya provide a particularly strong example of the ways in which the built and imaged environment are intentionally oriented relative to political religious economic and other spatial constructs In examining space the contributors of this volume demonstrate the core interrelationships inherent in a wide variety of places and spaces both concrete and abstract They explore the links between spatial order and cosmic order and the possibility that such connections have sociopolitical consequences This book will prove useful not just to Mayanists but to art historians in other fields and scholars from a variety of disciplines including anthropology archaeology geography and landscape architecture
